Ryan Roseen, Wetland Scientist, Goddard Consulting on behalf of the applicant, addressed the Commission. Mr. Roseen explained the pool was not able to be moved further from the wetland as recommended by the Commission. However, changes were made to the patio surrounding the pool and the pavers are now all pervious. A small buffer strip of grass was also added along the side area shown on the outside of the fence as requested by the Commission with the straw wattles and silt fence detail on the plan.

Clay Hutchinson aside from the vegetation addition filter strip, for the additional plantings the preference would be native plantings.
