BOARD OF SELECTMEN

The Annual Report of the North Attleborough Board of Selectmen and Town Administrator for calendar year 2009 is hereby respectfully submitted:

At the town election in April, the Board of Selectmen bid farewell to Selectman Dale S. Langille, who opted not to run in the 2009 election. The remaining members welcomed newly-elected Selectman Christopher L. Sweet. During reorganization, Paul J. Belham, Sr. was voted Chairman, and Mark Williamson was voted Vice-Chairman.

As always, the Board of Selectmen worked diligently to execute their obligations under state laws and regulations, as well as Town By-laws to be accountable for the general direction and administration of the property and affairs of the Town of North Attleborough. The Board scheduled Special Town meetings as needed and held hearings on a multitude of issues including but not limited to Traffic Study Committee recommendations and Licensing Hearings.

The Board developed the following goals through June of 2009:

- Ensure and enhance financial planning in effective fiscal management of town resources
- Increase resource sharing options between town departments
- Explore government reform options
- Enhance the communication and cooperation between departments
- Develop and implement consistent and effective methods to assure outreach and advocacy for our town at the state level
- Facilitate the implementation of steps to help simplify the permitting process in Town.

As Licensing Authority, the Selectmen held hearings and issued licenses as they considered prudent and served as the Appointing Authority for the many volunteers who serve on town boards and committees. The Board of Selectmen is very appreciative of the hundreds of individuals who continue to volunteer service in diverse capacities in our Town government to help make North Attleborough the town it is.

In calendar year 2009, the Board of Selectmen met forty-eight times in Open Session. Meetings were televised by North TV and covered by the local media. Also, the Board of Selectmen continued their practice of inviting Department Heads, Boards and Commissions to meet with them during the year. This offers each entity to provide the Board and the television audience with an update as to what is occurring within each particular department or committee.

As has been done for decades, approximately twenty third-grade classes from town schools participated in the "Tour of the Town", where they learned about different phases of government at the Town Hall from Town Clerk Max Gould, Veterans' Agent Jim McCann and Board of Selectmen's Administrative Secretary Judi Chafetz-Sulfaro. Weekly, meeting in the Town Hall lower level conference room, five students were chosen to serve as Board members, sit in the Selectmen's seats and participate in mock Board meetings, which included a sixth student assisting in a presentation for a request for a permit and the Selectmen's vote for approval.

The following items are a sample of items dealt with by the Board of Selectmen and their staff in 2009:

- The FY09 and FY10 Budgets
- Capital Improvements Program
- Government Reform
- Union negotiations
- New Policy and Procedure for town functions
- Evaluation Training Seminar for all pertinent appointed and elected officials
- Voted to recognize May 1st as Silver Star Banner Day – the annual, permanent and official day to honor the wounded and ill soldiers in the Town of North Attleborough

BOARD OF SELECTMEN

- Town Hall departmental relocations
- Under the authority of the municipal Relief Act, worked with the Finance Committee to make inter-department budget transfers
- Property Tax Classification
- Held an Ethics Commission Seminar for all elected and appointed officials
- Designated the North Attleborough Industrial park as an Economic Opportunity Area for a period of ten years, ending December 2, 2019
- Issued thirty-one proclamations to Eagle Scouts, retirees, centenarians, and service groups
- Processed 98 Action Needed Report in 2009

The Town of North Attleborough was very fortunate this year to be the first recipient of the kindness of six local churches on May 16th, Freshen-up Day. Hundreds of congregation members joined together to work at WWI Memorial Park, the Downtown Area, Veterans' Park at Town Hall, and the WWII Pool and its grounds. The mulching and beautifying of the flower beds in these areas provided a lovely backdrop for the entire summer. We offer our sincere thanks to the congregants of Faith Alliance Church of Attleboro, The Good News Bible Chapel of Attleboro, South Attleboro Assembly of God Church, Twin Rivers Community Church of North Attleborough, Living Waters Church of North Attleborough, and the Crossway Church of Plainville. We will forever be grateful to you for your unselfish acts of kindness.

The North Attleborough Board of Selectmen and Town Administrator express their appreciation to the many individuals who have provided assistance with affairs of the town this year. We would be remiss if we did not take this opportunity to offer our appreciation to town departments, boards and commissions for their ongoing support and cooperation. The Board of Selectmen looks forward to maintaining our positive working relationships in 2010 and promises to maintain its objective of providing prompt, considerate, and knowledgeable service to the residents of North Attleborough.

Respectfully submitted,

Paul J. Belham, Sr., Chairman
Mark Williamson, Vice-Chairman
John C. Rhyno
Michael S. Thompson
Christopher L. Sweet

Mark C. Fisher, Town Administrator

**The residents of North Attleborough
respect and are indebted to our “senior citizens”,
whose wisdom, passion, and resolve
have been essential to the growth of our community.**

We thank you, wish you happiness, good health, and continue to learn from you!

*"Father Time is not always a hard parent, and, though he tarries for none of his children,
often lays his hand lightly upon those who have used him well;
making them old men and women inexorably enough,
but leaving their hearts and spirits young and in full vigour.
With such people the grey head is but the impression of the old fellow's hand
in giving them his blessing, and every wrinkle but a notch in the quiet calendar of a well-spent life".*

ANIMAL CONTROL

Honorable Board of Selectmen,

The Annual Report for the Department of Animal Control, for the year ending December 31, 2009, is hereby respectfully submitted.

Our Department is staffed by one full time Animal Control Officer, one full time Kennel Keeper/ Assistant Animal Control Officer, and two part time Assistant Animal Control Officers. The hours for the part-timers are weekends and holidays, and they share the position. They work alternate weekends and holidays and are on call for emergencies after hours during their time on. We also have approximately thirty volunteers who help us with the animal shelter and various fundraisers for the shelter.

Our Department is on call for emergencies twenty four hours per day and seven days a week. The animals at the shelter must be cared for throughout the day also, and we are kept extremely busy. There is a list of emergency criteria that is followed for "after hours" calls. These include injured, sick wildlife, injured or sick stray, un-owned dogs or cats, vicious, loose dogs, neglect and cruelty cases, house fires etc. Most of these "after hours" calls will go through the Police Department first. When there are injured animals that belong to people, it is their responsibility to take care of their pets and get them to a licensed veterinarian.

There is a strict leash, rabies vaccination, licensing and collaring Law in Town, which is strictly enforced. Every dog in North Attleborough must be collared and tagged with current license and rabies tags at all times, whether they are house dogs or not. All dogs must be restrained at all times unless on their owners property. Dogs and cats must have current rabies vaccinations also. It is a \$50 fine per animal for not being rabies vaccinated. Leash law fines range from \$20, \$30, \$40 and \$50 per offense. Daily board is \$7, and the confinement is \$20 along with fines for no license and no rabies vaccination. Leash and vaccination laws are the easiest way to stop the spread of rabies and also help reduce the number of dog bites. A yearly spring rabies clinic at the Smith Street Department of Public Works Garage is a low cost way to get rabies vaccinations and license your dog all at once. Last year, we had 195 dogs, 52 cats and one lonely ferret come through in three short hours. Rabies clinics are also held every Thursday at Banfield Vet at Petsmart, please call for the times available.

New dog licenses are due every spring from March 1st through April 30th. After the deadline, there is a \$25 late fee per dog. Late license notices are sent out shortly after the deadline, and there is a chance of a Court complaint if dogs are not licensed. Please save money and time and license dogs before the deadline. Licenses can be renewed via mail by sending all rabies and alter information with a check payable to the Town and a self addressed stamped envelope.

The year 2009 was the usual busy year for our Department. We handled the typical dogs, cats, rabbits, domestic birds, and ducks, and most were all strays, abandoned, or neglect cases. Exotic pets need a lot of extra, and often require expensive care, and are usually long time commitments. Please check into their care and special needs thoroughly before deciding to bring an exotic animal home. There may also be State Laws concerning some exotic pets.

Our Department handles all calls involving animals. One of our biggest complaints is from nuisance wildlife. Wildlife cannot be re-located, and time is spent advising residents how to live with wildlife and how to resolve conflicts by making some simple changes. To remove nuisance wildlife, a licensed State trapper is hired by the homeowner. Usually containing trash, pet food, compost, and making less areas available for dens will resolve problems. Blocking off entrances to sheds, attics, garages and basements will also help. Wildlife should never be fed. This will attract more wildlife, and it will increase the chances of diseases between people and other animals. It also makes them more used to people, which adds to the problem. Please help everyone by keeping wildlife wild and afraid of people. One of our busy months is June when all the snapping turtles travel to lay their eggs. People are advised to leave them alone, and they will move on in a day or two.

Our 9th Annual Strut Your Mutt dog walk-a-thon was a big success!!! This was a fundraiser for the Animals Shelter. Even though the economy is difficult, we did well .The money was raised towards a new Animal Shelter. We are working hard to raise money for a much needed new building/ addition in order to handle increasing numbers of animals. A lot of volunteers, businesses, and Town Departments were a huge help towards making this a great success! Rescue Groups, vendors and dog walkers came from all over. We raised approximately \$7300. We are

ANIMAL CONTROL

looking forward to our 10th Annual Strut Your Mutt scheduled for May 15, 2010. We also held our 8th Annual Yard Sale in September.

We continue to be hit with West Nile Virus. The number of dead and dying crows declined after the first year, but other birds have increased. We are the drop off center for local cities and towns, who leave their dead birds at our shelter. We then send them out for testing (at no cost to us), and a carrier picks up the bodies. Keeping yards clear of stagnant water will help keep mosquitoes from breeding near your home. Mosquitoes transmit West Nile Virus and also Heartworm Disease in dogs and cats. 2009 found an increase in Lyme Disease in dogs.

We have had great success with 100% spaying and neutering of every animal adopted from the animal shelter. All animals are vetted before being put up for adoption, and all major vet work is done before the animal is adopted out. Vet expenses for the shelter animals increased in December 2008. The adoption cost is still very low, and it usually saves the new family approx: \$100-\$300 in vet care at the beginning. All dogs three months old or up are also licensed before they leave the animal shelter. All animals eight weeks old or older are spayed or neutered, micro chipped and vaccinated before they leave. If over three months old, they are rabies vaccinated. By having this policy in place, we are not adding to the problem of pet over population, and we are helping with the control of rabies. We also work hard to match a new pet with a new family. Please help to solve the pet overpopulation problem, by spaying and neutering your pets. There are low cost certificates available at the shelter.

We are continuously working to maintain our status as a no kill shelter. This has been our goal for many, many years. After Hurricane Katrina and the thousands of animals that were not reunited with their families, we decided to micro chip every animal adopted out, hoping that there will always be some way to trace an animal back to its family. We have the help from many volunteers, and the support of many caring people and businesses. Unfortunately, due to having no control of the health and condition of some animals that come in, there may be some animals that we can do nothing for, and they are humanely euthanized. At least their last days were spent with caring people, and every option available was taken to give them a chance. The number of neglect cases seems to be increasing, along with the number of animals abandoned in houses and apartments.

Our web site address is www.nashelter.org, which is also found through petfinder.com, and the town's municipal web site. This web site has been a huge success for us. The adoptions have been excellent, and we have found homes for animals all over New England. Please feel free to email any questions you may have for us as well. We also have a new volunteer group, Friends of North Attleboro Animal Shelter. Their web site address is fnaas.org

With the help of volunteers, we also manage a couple of feral cat colonies in town. All the cats in these colonies are altered, vaccinated and micro chipped. They are fed daily and watched by volunteers who call us if any new cats arrive or if any cats already in the colony appear to be injured. Any adoptable cats are taken from the colony and put up for adoption. Previously, these were bad problem areas with a high number of stray cats that were constantly reproducing. We get a lot of help and support by managing the colonies instead of trapping and killing them. Eventually, the colony will die out. One of our worst areas from fifteen years ago is now pretty much cat-free. If an occasional stray shows up, the family who watches for them will call us right away to take care of the newest stray. That way we are handling one cat, instead of ten at a time.

We rely totally on donations from businesses and citizens for the care and support of all the shelter animals. Almost any type of donation is greatly appreciated. Without all of the help from animal lovers, we would not be able to do what we do.

Please report any lost or stray animals as soon as possible. Stray, loose dogs are picked up immediately. For stray cats, there may be a short waiting period if it is the busy season for cats. Call us with the information soon as possible, so we can put you on a list to get the cat in. It is easier for us to handle one or two cats at a time, than after they have multiplied to 20-30 cats!! Please don't wait until the unbearable heat or the extreme cold to call us about an animal in need of help. Also, please report your lost pet as soon as possible, and we welcome daily calls to keep us informed as to whether or not they are still lost.

We collect returnable bottles, cans and glass at the shelter. Volunteers help bag, count and transport these donations to the redemption center. We would love it if the glass is in separate boxes, and bottles and cans are clean and bagged already. Please just drop them off at the shelter. If the gates are closed, they can be left at the gates. All the

ANIMAL CONTROL

money raised from these returns are split between care of the animals and the new building fund. The animal shelter building renovations/addition is moving forward, and we hope to have designs done soon.

ANIMAL CONTROL

ANIMAL INSPECTOR

The Animal Inspector position is a part time/stipend position and is appointed annually by the Board of Selectmen and its main focus is to enforce all quarantine laws.

The length of the quarantine depends on the rabies vaccination status of the animal and whether or not the animal was exposed to another animal. Some quarantines last from ten days, which is the shortest period of time, to six months, which is the longest period of time. Some quarantines are isolations, which means that the animal cannot be handled by anyone and must be confined to a double cage. This is usually at a high cost to the owner. There is a high number of quarantine follow-up calls and visits for this type of quarantine.

Another part of the position is to inspect all stables, both public and private. This is mainly to check for any health, housing or sanitation issues with the animals. Also livestock brought in from other States must have permits and paperwork.

The rabies virus is a very big issue, and almost every call that comes into the Animal Control Department also deals with the Animal Inspector.

BOARD OF HEALTH

To the Honorable Board of Selectmen,

The Annual Report of the North Attleborough Board of Health for the year ending December 31, 2009 is hereby respectfully submitted.

Pursuant to the authority granted it under the Commonwealth's General Laws and Article VII, Section 3 of the Bylaws, the Board of Health again dedicated its public service this year to the improvement of the public health, sanitary and environmental conditions throughout the Town of North Attleborough. The Board held a total of 19 meetings during 2009 and continued to conduct its business on behalf of the public health of the Town with professionalism and dispatch. Likewise, under the Board of Health's authority and direction, the full and part-time staff of the Town's Health Department and a growing number of citizen-volunteers worked tirelessly throughout the year to further enhance the community's public health overall.

The Health Department offices located on the basement floor of Town Hall were ably and continuously staffed by Celeste Leydon and 18-year administrative secretary Donna Vandette who answer the telephones, process all the paperwork, plans, permits and licenses, and otherwise attend to the full range of public health requests the Department typically receives day-after-day.

Members Jonathan Maslen and John Donohue, Jr. joined Chairman Donald Bates to constitute the Board of Health for the second year in a row. Dr. Daniel C. Brown continued to serve as Public Health Physician and Public Health Nurse Anne Marie Fleming continued to shepherd part-time R.N.'s Mary Joubert and Kay Mann, plus the entire volunteer staff of Lenore's Pantry. Despite a severe cutback in Assistant Health Agent Rob Casper's hours in mid-way through the year when the fiscal year began, he and Health Director and Agent Robert Davis kept the Department's obligatory inspection schedules, plan reviews and complaint investigations current throughout the year. Although the Board successfully argued for, justified, and finally won approval of a Human Services Coordinator's position in 2008, the year's poor economy wouldn't allow the position to be funded, and therefore filled, in 2009.

2009 became the year of the H1N1 world-wide pandemic, and the Board and its Health Department worked diligently organize the vaccine distribution required to respond to it.

The Board continued its regular review of, interest in, and involvement with 163 public health complaints that were logged, assigned, inspected and dispatched by the Department staff, then went on to hold twenty-two Board meeting hearings between the parties to consider some of the complaints even further. In addition, the Board continued its interest in its heightened food protection manager requirements for food establishments, followed-up on its scrutiny of Nail Salons and their standards, and worked again with other boards and commissions on matters of mutual interest to the Town.

2009's economic setbacks, whether locally, regionally or nationally, rippled through the Board and its Health Department. In addition to dealing with painful cuts in staff hours, basic operating expenses, and levels of service traditionally provided to the Town by the Department, Lenore's Food Pantry saw a commensurate increase in numbers of citizens in need of its assistance. On the bright side however, it also saw an increase in the amount and type of support it received from other citizens of the Town who wanted to help their neighbors through the charitable Town Emergency Fund managed by its Public Health Nurse Anne Marie Fleming, R.N.

The Board of Health and all the staff of the Health Department value their working relationships with other Boards, Commissions, Departments and individuals in the Town and look forward to the continued provision of their public health service to the community.

Respectfully submitted,

Donald M. Bates, Chairman
John J. Donohue, Jr.
Jonathan D. Maslen

BRISTOL COUNTY MOSQUITO CONTROL COMMISSIONERS

Honorable Board of Selectmen,

The Bristol County Mosquito Control Commissioners respectfully submit their annual report for the year ending December 31, 2009.

The calendar year 2009 marks the fiftieth anniversary of the Bristol County Mosquito Control Project and its services to the cities and towns of Bristol County. The Project was established in 1958 as a result of numerous human and horse cases of Eastern Equine Encephalitis. Over the years, the Bristol County Mosquito Control Project has greatly reduced the exposure to this arbovirus and also the newly introduced West Nile virus.

Since the 1958 formation much has changed. New biological larvicides have been developed and used to suppress mosquito emergence. The Project has acquired new GPS guidance systems for the trucks and GIS mapping capabilities. Newer environmentally sensitive adulticides have been developed and adopted by the Project. During water management projects, low ground pressure machines are used to reduce secondary impacts to the environment. Increased mosquito surveillance, the cornerstone of Integrated Pest Management, continues every summer. The addition of molecular techniques by the Massachusetts Department of Public Health increased sensitivity of virus isolations and decreased turn around time between collections and results.

For the past 6 years, Bristol County Mosquito Control Project reported the most EEE isolations from mosquitoes in Massachusetts. During the 2009 mosquito season, over 16,000 mosquitoes were collected. There were 23 isolations of EEE with 3 collections from human biting mosquitoes and no human or horse cases reported for the County. EEE was active in our County from July 16th till October 5th. We had 9 mosquito isolates of WNV in the County with no reported human or horse cases. A total of 411.2 square miles (263,168 acres) were at a Moderate/High risk for EEE and WNV in 2009. To date the towns of Easton, Raynham, Freetown, Acushnet, Fairhaven and New Bedford are in the High-risk category for EEE. The towns of Taunton, Berkley, Westport and Dartmouth are in the Moderate-risk category for EEE. To date the towns of Fall River, Dartmouth and New Bedford are in the Moderate-risk category for WNV. In 2002, the Project received 3,672-spray request from residents within the County, in 2009 we received 15,964 requests.

The Bristol County Mosquito Control Project works year-round in its efforts to reduce mosquito breeding sites and adult mosquito populations. The Project uses several different measures of control in its never-ending fight against mosquitoes.

Spring and Summer Larviciding - To reduce the emergence of adult mosquitoes in areas where mosquito larvae are present.

Catch Basin Treatment - To stop mosquito emergence from rain-filled catch basins and storm drains.

Mosquito Surveillance Program - To monitor mosquito populations as to their type and number - a program necessary in encephalitis surveillance. Light trapping of mosquitoes is also useful to determine what areas have nuisance populations of mosquitoes.

Water Management - A year round endeavor to clean and maintain mosquito drainage ditches in areas to reduce standing water conducive to mosquito larvae.

Public Outreach: - Providing important information to the residents of the county with respect to personal protection against mosquito bites, mosquito breeding prevention on one's property and mosquito data.

It is the policy of the Bristol County Mosquito Control Project to use pesticides that are environmentally sensitive so that they do not negatively impact people or the environment. We use as many of the biological insecticides as are practical with the environmental conditions present in the New England area.

All of our spray equipment is calibrated periodically in order to insure that dosage rates remain at legal levels but are adequate to reduce mosquito populations. The operators of our spray equipment are state licensed pesticide applicators that are required to attend classes on pesticide safety on a yearly basis.

BRISTOL COUNTY MOSQUITO CONTROL COMMISSIONERS

During the time period January 1, 2009 – December 31, 2009 the Bristol County Mosquito Control Project:

- Sprayed over 3853.2 acres
- Treated 44.8 acres in 69 locations with *B.t.i.* for mosquito larvae
- Received 247 requests for spraying
- Cleared and reclaimed 6,743 feet of brush
- Treated 1,451 catch basins

I would like to thank the town officials and the people of North Attleboro for their continued support and cooperation and look forward to serving them in the coming year. Should anyone have a question as to what might be done to relieve a mosquito problem in their area, whether it is water management work, treatment of a breeding site, or just having an area checked, please feel free to call our office.

Respectfully submitted,

Wayne N. Andrews, Superintendent

BUSINESS AND INDUSTRIAL COMMISSION

Honorable Board of Selectmen,

The Business and Industrial Commission hereby respectfully submits its report for the calendar year ending December 31, 2009.

The Business and Industrial Commission was reorganized in June of 2009 and our mission is as follows:

- To craft and promote a plan that highlights North Attleborough as a strong and viable community to locate business.
- To inventory the current business and industrial stock and project needed and space requirements that will be necessary to maintain the current 75/25 residential/business split projecting ahead for the year 2030.
- To work with and assist town departments and agencies to streamline the approval process and to attract the type of business and employment opportunities that will attract even more business to the town. Address the development plan in government reform that would allow a one-step process approval for development and in the meantime, a plan review committee to get the process started.
- To continue the effort to revitalize the downtown area, improve its housing stock, add affordable housing units and create incubator business space.
- To make North Attleborough known for something again (as it used to be known for the jewelry industry).

We look forward to further accomplishments in 2010.

BY-LAW STUDY AND CODIFICATION COMMITTEE

Honorable Board of Selectmen,

The Annual Report for the By-Law Study and Codification Committee for the year ending December 31, 2009 is hereby respectfully submitted.

The members of this committee are appointed by the Board of Selectmen and serve overlapping terms of three years. The By-Law Study and Codification Committee main goals are to study and recommend changes to the by-laws of the town in the form of a petition on the warrant of any Town Meeting. Also, any petitions for new or amended by-laws shall be submitted to the committee for review in the form of a Public Hearing. The committee's recommendations are then submitted to the Finance Committee for their review and recommendation to the RTM for town meetings.

In 2009, the By-Law Study and Codification Committee met on an as-needed basis to review articles relative to amendments to North Attleborough Town By-Laws. The Committee also held two hearings based on pertinent articles.

The committee is still operating with four members and seeking a fifth member for a full complement. In a reorganization session, the group opted to remain status quo with Mr. Donohue continuing to serve as chairman and Judith Chafetz-Sulfaro remaining as Secretary.

The By-Law Study and Codification Committee wishes to thank the departments, boards, and employees who provided assistance to us this year and looks forward to being of further assistance to the Town of North Attleborough in 2010.

Respectfully submitted,

John Donohue, Chairman
Judith Chafetz-Sulfaro, Secretary
Charles Blais
James C. Moynihan

CABLE TV ADVISORY COMMITTEE

Honorable Board of Selectmen,

The Annual Report of the Cable TV Advisory Committee for the 2009 calendar year is hereby respectfully submitted.

With the help of the Committee, the Board of Selectmen signed a new Cable TV License with Verizon. This now gives the residents a choice of two service providers, Verizon or Comcast.

The Committee has met monthly while reviewing correspondence from the cable providers and residents. We also established a Cable Advisory Committee site within the Town's web site. This allows us to make correspondence and documents available to the public.

The Committee has drafted a set of guidelines to help define its work and expects the Board of Selectmen to provide an approved final document in early 2010.

Respectfully submitted,

CONSERVATION COMMISSION

Honorable Board of Selectmen,

The Annual Report of the Conservation Commission for the year ending December 31, 2009 is hereby respectfully submitted.

In 2009, the Commission accepted the resignations of two members, Dennis Bisio and Cynthia (Kate) Balme. We would like to thank them for their efforts and service to the Commission. The Commission welcomed one new member, David Scanlan. Member Clifford Bassett was re-appointed as chairman during the annual reorganization. Conservation Agent, Shannon Doyle, continues to provide support and assistance to the Commission in its mission to protect natural resources and administer and enforce the Wetlands Protection Act. The agent is also responsible for assisting and disseminating information to the public, coordinating with other boards, departments and staff, and ensuring the successful and effective operation of the Conservation Department.

The Conservation Commission meets regularly at Town Hall two Tuesdays per month and also schedules business meetings when necessary to discuss and resolve matters not able to be addressed at regular meetings. During the 2009 calendar year, the Conservation Commission accomplished the following in regards to wetlands permits:

- Received 12 new Notices of Intent and 22 Requests for Determination of Applicability
- Held 24 public meetings on 59 hearing items
- Issued 14 final Orders of Conditions, 1 Denial, and 21 Determinations of Applicability
- Conducted numerous site walks

Included in the wetlands permits issued by the Commission this year were approvals of the following projects: Mt. Hope Farm Estates (a 19 lot residential subdivision off of Mt. Hope Street); the Fisher Street Bridge reconstruction; Woodridge Estates (10 lot residential subdivision off of Paine Road); and Theragenics Corporation (redevelopment project in the Industrial Park).

As the local authority responsible for enforcing the Wetlands Protection Act, the Commission also continued to respond to wetlands violations reported by local citizens or observed during routine site inspections by the agent. Preventing violations of the Wetlands Protection Act and ensuring that the appropriate permits are filed for work within the Commission's jurisdiction is essential to our duty of protecting the values and functions of wetland resources for the residents of North Attleborough. The Commission is also responsible for managing the 600+ acres of land currently owned by the Commission as well as acquiring new lands for conservation purposes. In order to further efforts to acquire lands for conservation and update the existing Open Space Plan, an Open Space Committee was formed by the Conservation Agent. The Committee, comprised of representatives from the Commission, Planning Board, Zoning Board of Appeals, Board of Selectmen, Parks and Recreation Department and the Historical Commission, intends to complete the update to the Town of North Attleborough Conservation, Recreation and Open Space Plan in the upcoming year.

On other Conservation owned lands, the public continued to enjoy passive recreation and other activities. Scout troops and the Rotary Club of North Attleborough/Plainville once again held annual fishing derbies at Whiting's Pond. Thanks again are extended to the Rotary Club and to the National Fish Hatchery and its director, Larry Lofton. Unfortunately, due to budget constraints, we were not able to operate the summer beach program at Whiting's Pond this year. However, thanks to generous donations made to the Commission by private citizens and town businesses, volunteered time and effort by our members and a dedicated beach staff, the beach program at Falls Pond was able to carry on successfully. The Commission, in coordination with the Board of Health, will continue to strive to provide a clean, safe, and enjoyable experience at the town beaches and ponds for the residents of North Attleborough. In addition, we continue to pursue rehabilitation projects that will make the beaches and boat ramps even more accessible for the public for years to come. The Commission wishes to especially thank the Department of Public Works, the Police Department and the Fire Department for their assistance in time, expertise and personnel in helping with the training of the beach staff, the labor in upgrading the facilities and the smooth operation of the beach program.

CONSERVATION COMMISSION

In conclusion, the Commission extends their thanks to all town boards, committees and departments, and the citizens of the Town of North Attleborough for their support, cooperation and efforts to protect and preserve the Town's valuable natural resources.

Respectfully Submitted,

North Attleborough Conservation Commission

COUNCIL ON AGING

Honorable Board of Selectmen,

The Annual Report of the North Attleboro Council on Aging for the year ending December 31, 2009 is hereby respectfully submitted.

The purpose of the North Attleboro Council on Aging is to enable town senior citizens (individuals age 60 and older) and people with disabilities to live independent, purposeful lives and whenever possible, to maintain and enhance their quality of life. The North Attleboro Council on Aging continues to identify the needs of our senior residents and link them with the services/programs that will enable them to live independently and stay connected to their community. The Council on Aging (COA) is responsible for the daily operation of the North Attleboro Senior Center which is open Monday-Friday 8:00 a.m.–3:00 p.m. The Council on Aging Senior Center acts as a resource center for individuals seeking information and/or referral on all aspects of senior and human services. The Council on Aging strives to achieve this mission through a combination of direct services, information and referral, social, educational and recreational activities as well as volunteer programs for seniors and other members of the community offered through the Senior Center and throughout the larger community. The department works closely with Bristol Elder Services, our State Area Agency on Aging, Community VNA, Hockomock YMCA, St Vincent DePaul (Irene Frechette), Board of Health (Town Nurse), Veterans' Office, Housing Authority, Police, Fire and Rescue, local adult day care centers, other local Council on Aging Departments, and other community health care organizations that provide services to our residents. The COA strives to meet the needs and desires of the greatest number of senior citizens by implementing and offering a variety of activities, services and programs. The COA also operates the nutrition/meal site for seniors (noon meal) and provides meals on wheels to individuals in the community on a weekly and as needed basis. Many seniors in the community receive meals on wheels for a short time after a hospitalization or injury; however, the average is 85 seniors each day. North Attleboro is home to approximately 3,507 seniors over the age of 60.

Services and Programs provided by the North Attleboro Council on Aging

This year the Council on Aging has faced many challenges due to a diminishing budget and loss of positions and/or staff hours. Due to budget constraints, our 15-hour Volunteer Coordinator position was eliminated effective July 1, 2009. This position's responsibilities were primarily absorbed by the Executive Director and the Senior Office Assistant. In addition, our Outreach Worker's position was reduced from 18 hours to 15 hours and our Clerical Assistant was reduced from 15 hours to 12 hours. The Executive Director and Senior Office Assistant; the COA's only full-time staff also were furloughed one hour per week requiring us to close at 2:00 p.m. each Friday from July 1st through the beginning of November. This year we also changed our hours to 8:00 a.m.–3:00 p.m. This was done because we only have two full-time staff members and if the Executive Director was out on vacation, sick or at meetings in the afternoon, we would not have coverage until 3:30 as the Senior Office Assistant hours are 7:30 – 3:00 p.m. to accommodate Meals on Wheels and other morning programs. We believe we have adjusted well to our reduced staff hours and continue to offer quality programs to North Attleboro Seniors.

One of our goals for 2009 and beyond is to promote healthy choices for our seniors. We offered a healthy breakfast program for a portion of the year, which met with some success and also offered two cooking programs. One program was The Cancer Project "Food for Life Nutrition and Cooking Class", and we also offered The Stop & Shop Shape Up Program which was four separate 2-day shopping, nutrition and cooking programs. In lieu of a traditional holiday luncheon, we opted for a "Healthy Holiday Luncheon" this year which was very well received. These programs also further our goal of involving the next generation – the "baby-boomers" who as a group are interested in maintaining their healthy active lifestyles.

In 2009 we continued to offer assistance with Food Stamps, Fuel Assistance (through Self-Help), SHINE (Serving the Health Information Needs of Elders) which provides Medical Insurance information, AARP Money Management Program, Legal Assistance, Hearing Aid and Vision Assistance (Lion's Club), transportation through volunteers, and by providing applications for GATRA as well as selling monthly passes and Dial A Ride passes. We also facilitate General Money Management Assistance, phone calls and walk-ins re: concern for neighbors, friends or family. We provide a list of seniors in need within the community for Holiday Baskets for Thanksgiving and Christmas for those who would otherwise not be able to have a holiday meal.

COUNCIL ON AGING

Dr. Siegel, Podiatrist, continued to visit the Center every nine weeks; the program has grown tremendously over the last year. The AARP Tax Aide was available from March through April 15th by appointment for no cost tax preparation. We continue to loan wheelchairs, walkers, canes and shower chairs, if available, at no cost to our seniors.

Through Bristol Elder Services, Inc. (BESI), we made many referrals for home services as well as Protective Service Referrals as necessary; the Executive Director and Outreach Worker are Mandated Reporters by State law. Through BESI we offer Meals on Wheels with currently 73 clients and overall, 125 North Attleboro seniors received Meals on Wheels during the year ending December 31, 2009. Meals on Wheels are delivered by COA volunteers who drive their own vehicles and each route has 15-20 deliveries to seniors on it. We also provide a Congregate Meal Monday through Friday at the COA which serves an average of 12-25 seniors per day. A total of 114 seniors were registered to participate in 2009. Some come 3-5 times per week while others choose to come 1-2 times per month.

Special thanks to all the Council on Aging Staff, Board Members and Volunteers who took on added responsibility to assist us on an as needed basis this past year.

Friends of the Council on Aging

The Friends of the COA provide invaluable assistance to the Senior Center especially in these budget tightening times. The “Friends” provide the Center with many of the extras that the Town is unable to fund. The “Friends” have several fundraisers during the year to provide additional funds for the needs of the Council on Aging.

It is \$3.00 per year to join; with membership running through September of each year. “Friends” can be of any age and we welcome everyone who joins to attend our monthly meetings held the 1st Monday of the month at 10:30 a.m. If you are not able to attend the monthly meetings, you can ask to have a copy of the minutes of each month’s meetings to keep you up to date. Please stop by the Senior Center Monday on Friday from 8:00–3:00 or mail in your \$3.00 check made payable to “The Friends of the NACOA” with the following information: name, address and phone number and a membership card will be mailed to you.

2009 Statistical Review:

Statistics do not tell you the amount of time that is required to meet with the clients we serve. Many of the services performed by the Council on Aging require many hours of work; sometimes with more than one staff person or agency involved to get to the end results.

The COA Director is a member of the Massachusetts Council on Aging, National Council on Aging, National Institute of Senior Centers, North Attleboro Networking Association and the Bristol Area COA Directors Group. She serves as Chairperson of the Bristol Elder Services Advisory Council and as a regional representative for the Mass Council on Aging Advisory Board.

Ann Marie Letourneau, Senior Office Assistant, sends press releases out weekly to our local newspapers and North TV to announce all programs and activities available at the Council on Aging. In addition, Pamela Hunt produces a monthly cable show, Senior Beat, in partnership with North TV with guest speakers discussing issues of concern and interest to seniors and other town residents.

Minor Home Repair Program - \$5,062.00 Grant Amount

The COA was awarded a small two-year grant available for the North Attleboro Minor Home Repair Program which offers reasonably priced, quality minor home repairs for North Attleboro, senior homeowners (60 years old). This year we assisted fifteen seniors with minor home repair with many of them being approved for multiple home repairs.

Minor indoor or outdoor home repairs that would be considered, but not limited to, are railings, stair treads, leaky faucets, or safety issues around the home. We are not able to do emergency repairs as the contractor does his work on a first come, first serve basis.

The client must be able to pay for all materials needed to complete the job. There is assistance in getting the right materials necessary for the job.

*This program is funded in part by a grant from Bristol Elder Services, Inc through contracts with the Massachusetts Executive Office of Elder Affairs.

Senior Tax Credit Program:

The Senior Tax Credit Program is in its 7th year and this year. Each of the 25 participants worked 63.5 hour as volunteers in various Town Departments to gain a \$500.00 credit on their property taxes. The program is implemented and supervised by the Council on Aging Director, who starts recruiting seniors for the program in May. The program runs from July to November each year. The COA thanks the Office of the Board of Selectmen, Historical Commission, Town Assessor, Veterans, Solid Waste, Elections, Board of Health, Richards Library, Fire Department and Martin Elementary School for working with us and providing a volunteer position for our Senior Tax Credit Program participants.

Volunteer Statistics:

47 individual volunteers worked a combined total of 4,971.94 hours realizing the Town a savings of \$39,775.52 if the volunteers were paid at the minimum wage to perform their volunteer service. This number does not include those seniors who participated in the Senior Tax Credit Program (two of these volunteers opted to stay on after completing their 63.5 hours) or the COA staff who fill in as needed and delivered Meals on Wheels.

Our volunteers are a part of a collaborative effort to enable persons over the age of sixty or who are disabled to live independently and with dignity within our community. We offer a wide spectrum of Volunteer Services and Programs such as Meals on Wheels (home delivered meals) and transportation to doctors appointments, grocery shopping and to other local appointments.

Many of our volunteers are in their eighties with fifteen or more years of service. Some volunteers contribute by knitting scarves and mittens for fundraising for our Friends group. We have an immediate need for newly retired or younger seniors who are willing to help or back up our Meals on Wheels volunteers. There is also a need for volunteers who are willing to offer support and services to local seniors in the community, such as being a Friendly Visitor or assisting seniors with shopping and getting to doctors appointments. All volunteers must submit to a CORI check (Criminal Offender Record Information-criminal background check) before they can begin to volunteer.

A Volunteer Appreciation Luncheon was held at Leona's Family Restaurant on April 22, 2009 supported by a grant from the Massachusetts Executive Office of Elder Affairs.

Thank You to Our COA Volunteers for the number of years they have dedicated to us:

The North Attleborough Cultural Council (NACC), a volunteer council presently consisting of twelve members, is the local representative of the Massachusetts Cultural Council (MCC), an agency supporting programs promoting arts, humanities and sciences in our commonwealth. The primary function of NACC is to grant the monies awarded to North Attleborough by the MCC. In 2009 the NACC awarded OVER \$9,000 in arts grants (see list below)

The NACC independently sponsors other arts-related projects. In 2009 these included:

- A Winter Lecture Series, held in January, February, March and April 2009. Lecture topics included movie casting, ballroom dancing, and papermaking.
- A free nine-week Summer Gazebo Concert Series, held at the Gazebo in Veterans Park in front of the North Attleborough Town Hall. A wide variety of music, including swing, folk, pop, bluegrass, and children's music, was presented to enthusiastic audiences on Tuesday evenings during July and August.
- An Autumn Art Festival held in September 2009, sponsored jointly with the Village Artisans Collaborative.

The NACC meets on the first Tuesday of each month, September through June. Meeting dates and locations are posted at Town Hall. All meetings are open to the public. Anyone interested in becoming a member of the NACC is especially invited to attend.

DEPARTMENT OF PUBLIC WORKS

Honorable Board of Selectmen,

The Board of Public Works respectfully submits our annual report for the period ending December 31, 2009.

In October, 2009, the Board of Public Works reorganized and elected Mr. Robert C. Norton as Chairman, Mr. Steven M. Cabral, P.E., as Vice Chairman and Mr. Gary A. Porter as the Third Member. Meetings were typically held on the second and fourth Tuesday of every month and were supplemented with numerous special meetings, public hearings and workshops with other Town Boards.

With the continued support of the Board of Selectmen, Finance Committee, and Representative Town Meeting Members, the Department of Public Works (DPW) successfully accomplished numerous projects during the year. Following is an overview from each of the DPW Divisions.

ADMINISTRATION:

Mr. Mark Hollowell, Director

Ms. Sandra Waterman, Assistant Director

Mr. Stephen Caldwell, Business Manager

The Administration Division provides financial management, human resources coordination, public communication, and other services to help policy makers, staff, and citizens make informed decisions about public works. Administration is responsible for the effective and efficient replacement, repair and rehabilitation of the Town's infrastructure through the oversight of the elected Board of Public Works (BPW). These include: Roads, Bridges, Sidewalks, Wastewater Treatment Facility, Sewer Collection and Water Distribution Systems, Pump Stations, Water Treatment Facilities, Drainage structures, Intersection improvements, DPW Vehicles and Equipment. The municipal infrastructure typically represents one of the largest investments for a community. North Attleborough's infrastructure replacement value has been estimated at over \$450,000,000.

Many new public works initiatives were planned and executed during 2009. Work continued on complying with the new federally mandated Storm Water Master Plan. Major elements of the plan include the development of a stormwater system layer in the Town's GIS, a stormwater system capital program targeting the worst flooding areas of the community, and new practices to minimize contaminated stormwater from reaching the Ten Mile watershed and sensitive wetland areas.

In an effort to seek outside funding for capital projects, the DPW applied for and received State Revolving Fund (SRF) low interest rate loans of approximately \$500,000 for the removal of excess infiltration and inflow from the Town's Sewer Collection System. This loan included an 8.3 percent principal reimbursement under Federal Stimulus funds. These low interest loans provide help to minimize sewer rate increases for our customers.

Continued improvements in the DPW computer network system, software training of staff and cross-training was accomplished in 2009. Activity in these areas assists personnel in report development and overall management of the Department.

DPW also aided numerous Town Departments with their projects and tasks through the use of personnel, equipment, and supplies saving these departments funds.

DPW continued to take a lead role in contributing to the process of bringing Geographic Information System technology (GIS) to the Town. DPW is one of the most extensive users of this new and exciting technology.

In 2009, the DPW began the sixth year of the new Sewer Enterprise Fund which was authorized by the RTM.

The Board of Public Works and DPW web page www.north-attleboro.ma.us was continually updated in an effort to inform residents and others about public works activities and projects.

DPW staffs a number of development plans during 2009 to ensure compliance with Town standards. Additionally, DPW continues its efforts to perform site visits to ensure that construction standards are upheld.

HIGHWAY DIVISION:

Mr. Thomas McCarthy, Highway Superintendent

The function of the Highway Division is to maintain and improve the roadway infrastructure in the Town. This includes all components of the roadway: pavement, sidewalks, curbing, drainage systems, bridges, line painting, street signs, guardrails, roadway shoulders and various other items within the Town Right of Ways.

As traffic and pedestrian conditions change, the Division modifies and improves the infrastructure accordingly to provide the safest possible conditions for the public.

The Town presently has over 130 miles of paved roads, including 5.4 miles of gravel roads, over 50 miles of sidewalks, and 18 bridges, which are maintained by the Highway Division. The road network is surveyed annually, and the information is entered into the Pavement Management Program records. Resulting reports guide the DPW with focusing available resources.

Funding for the maintenance and reconstruction of the roadways and infrastructure comes from Local, State, and Federal Agencies. This funding is all coordinated through the Highway Division as designated by the Board of Public Works.

The Highway Division operated the Compost Facility with expanded hours throughout the spring, summer and fall seasons. The Highway and Forestry Divisions continue to provide labor and equipment to assist the Landfill Department in the operation of the solid waste/ recycling Convenience Center on Saturdays.

The following Highway projects were completed in 2009:

- **Reshape and Overlay:**

FORESTRY DIVISION:

Mr. Thomas McCarthy, Highway Superintendent

This division was re-established in FY 2000 and the implementation of a comprehensive urban forestry program began. For the next four years North Attleborough residents realized a safer environment with reduced risk from falling trees and limbs due to a program that included tree trimming and the removal of dying trees within the Public "right of ways". Scenic improvements, increased habitat for wildlife, recreation and educational opportunities along with increased property values are some of the many benefits expected to be obtained as a result of this program.

In FY 2005 the Division was discontinued and two positions were lost. Tree removal and emergency services were managed through the Highway Division using Contracted Services. However, a backlog of work developed. Months later, the Division was again re-established and the two lost positions were filled. The following Forestry projects were completed in 2009:

- Two Public Shade Tree Hearings were held.
- Thirty dead and dying trees were taken down throughout the community.
- Many Public Shade Trees were trimmed throughout the town.
- Streams and brooks throughout the town continued to be cleaned. Brush and overgrowth at bridges and other exposed areas were cut back.
- Leaf and yard waste is composted at a site located on Plain Street. During the growing season (May – October), the Compost site is open on Saturdays. The site is also open for 6 weeks in the spring and 6 weeks in the fall (Saturdays and Sundays) for residents to bring in their yard waste materials. Residents, as well as in town departments, use composted material generated from this site.

FLEET SERVICES DIVISION:

Mr. Thomas McCarthy, Highway Superintendent

The Fleet Services Division is responsible for maintaining approximately 60 vehicles and pieces of equipment under the jurisdiction of the Board of Public Works. The Division has a comprehensive preventative maintenance program, and its activities are tracked via a computerized maintenance management software package. Fleet Services also performs maintenance work on a number of other Town Vehicles.

UTILITIES DIVISION (WATER & SEWER)

Throughout calendar 2009 the well-trained, dedicated water and sewer staff of the Utilities Division continued to work in concert with each other and all of the other divisions of the Department of Public Works to make the year a successful one for the entire DPW and the Town of North Attleborough.

WATER DIVISION:

Mr. Timothy M. Slattery, Utilities Manager

Mr. William Wanberg, Water Quality Supervisor

The mission of the Water Division is to provide a high quality, uninterrupted supply of safe, compliant potable water to all of our customers for consumptive uses as well as meeting the fire fighting requirements in our service area.

The Water Division employs a highly trained staff of licensed operations and distribution maintenance personnel to ensure our mission is accomplished at a high level of customer satisfaction. A total of 954,656,263 gallons of high quality, safe drinking water were produced and distributed to our service area customers during 2009.

As safe drinking water is a significantly valuable commodity, the Water Division undertakes periodic, pro-active programs such as the Massachusetts Department of Environmental Protection sponsored Water Loss Prevention Grant Project, which the Water Division commenced in August 2009 and will complete by the end of June 2010. This project includes the procurement and distribution of 3,000 water conservation themed school book covers, 1,000 residential water conservation kits, 100 rain detection/auto shut-off switches for irrigation systems that do not have these switches employed as yet, and 9,000 water conservation tip handouts for our customer base. A Leak Detection/Pinpointing Survey has also been performed as part of this program throughout the water distribution system to help ensure that our water supply resources are not being lost due to unseen/unknown leaks in the distribution system. The Town's water distribution system presently contains some 146 miles of water mains. Proper, pro-active maintenance of our water distribution system continues to be one of the highest priorities of the Water Division.

Residential water meters are supplied, installed and replaced by the Water Division meter technicians. Two meter readers, employed by the Division, read all customer meters in the service area. Approximately 8,566 residential meters are read and billed semi-annually while approximately 225 commercial accounts are read and billed on a monthly basis. The Water Division's administrative functions include billing, permitting, customer service and financial reporting. Service appointments for meter installations and other customer requests are handled by a staff of three technicians from our offices at 49 Whiting Street.

The Division is responsible for inspecting all new mains and service connections as well as repairs to existing mains and services. These inspections are carried out predominantly by the Division's Water and Sewer Construction Superintendent. In 2009 we inspected 17 new residential services and 5,100 lineal feet of new water main. These projects occurred throughout the Town and were completed by private developers as well as the Water Division Distribution team. The Water Division is available to respond to any and all service interruption calls, 24 hours per day/7 days per week in any weather conditions. During calendar 2009 we responded to make repairs to 7 water main breaks and 7 residential service repairs. This is in addition to the numerous other distribution components that were repaired by the Division during this year. Through the efforts and experience of our dedicated Water Division maintenance crew, all distribution repairs were made in a timely manner, service interruptions were held to a minimum amount of time and excellent customer service continues to remain our highest priority.

The staff in the treatment and well division is responsible for the operation and maintenance of the two Treatment Plants and eight wells. They are also responsible for completing and tracking all regulatory water quality testing and timely reporting of the results obtained from their testing. The Water Division treatment/well operations staff consists of licensed water treatment operators who are highly trained in the field and are charged with the task of producing and delivering safe, clean, potable water to all of our customers on a continuous basis.

SEWER DIVISION:

Mr. Timothy M. Slattery, Utilities Manager

Mr. Jack Horton, Chief Plant Operator

Mr. Merrill Hastings, Assistant Chief Plant Operator

The mission of the Sewer Division is to protect our environment by providing highly maintained, continuously available and compliant wastewater collection, treatment and disposal facilities for all customers in our service area.

WASTEWATER TREATMENT FACILITY:

The Wastewater Treatment Facility (WWTF) was originally constructed in 1980; it will be celebrating its thirtieth year of operation in March. The facility has seen several major upgrades of aging equipment throughout the last several years. These improvements and upgrades along with a diligent and dedicated staff have resulted in the facility receiving the 2009 Plant Performance Award, which is given annually by the Massachusetts Water Pollution Control Association.

The construction of Phase VI of the Phosphorus Removal Upgrade project has been completed. The next project will consist of the expansion of the biological treatment system, which will facilitate the stricter nutrient limits that have been imposed by the EPA.

In addition to the construction projects at the facility, staff is responsible for the daily operation and maintenance associated with treating over 1.6 billion gallons of wastewater annually at the facility. The facility also has a laboratory, which performs a wide variety of different analytical procedures that are required by the facility's National Pollutant Discharge Elimination System (NPDES) permit and are also utilized for daily biological process control and evaluation to ensure continued permit compliance. The WWTF's Laboratory Supervisor was also nominated for and subsequently won the 2009 Laboratory Operations Excellence Award as presented by the Massachusetts Water Pollution Control Association. All treatment plant operators at the facility are required to be licensed with the State and are required to attend job related training classes throughout the year to maintain their licenses.

The planned improvements and continued commitment to ensuring the preservation of the environment for future generations should serve as a source of pride to all of the citizens of the town.

Through the Town's Approved Capital Improvement Projects (CIP), the Sewer Division purchased the following Trucks, Heavy Equipment and appurtenances:

- Ford Ranger #20
- Ford F150 #53
- Ford F250 Service Vehicle#24
- Ford F250 Service Vehicle#57
- Ford F450 Dump Truck #22

Statistical Data:

Total gallons of wastewater treated	1,621,374,000
Total gallons of septage received	709,700

Industrial Pretreatment:

The Industrial Pretreatment section of the Sewer Enterprise Division is a cooperative effort of the federal, state, and local environmental agencies to protect water quality. The program is designed to reduce the level of pollutants discharged by industry and other non-domestic sources of wastewater into the town's sewer system, thereby reducing the amount of pollutants released to the treatment plant, and the environment.

Objectives of the Pretreatment Program:

1. Protect the treatment facility from pollutants that may cause interference with the facility's ability to properly treat the entire wastewater stream.
2. Prevent introduction of pollutants that pose a threat of pass through of untreated wastes entering the Ten Mile River.
3. Prevent introduction of pollutants that could pose a threat to employee's health and safety.

Statistical Data:

Sewer Collection:

The Sewer Collection section of the Sewer Enterprise is looking forward to the continuation of the Infiltration/Inflow reduction program. Infiltration and Inflow (I/I) are extraneous quantities of water which enter the sewer collection system and reduce the capacity of the system to transport wastewater. Infiltration is groundwater that enters the system through defective or broken piping systems. Inflow is storm water that enters the system through catch basins, sump pumps, roof drains, and defective manholes. I/I removal is achieved by making various repairs to portions of the system that have been determined to contribute significant amounts of I/I to the system.

The closed circuit camera truck has been used extensively throughout the system to televise possible locations for I/I problems and structural deficiencies. We are currently waiting for the delivery and installation of a new computer and software that will allow the information collected during inspections to be integrated with the town's GIS. The DVDs made during the televising of the sewer lines are analyzed by staff and appropriate mitigation measures are developed.

Employees of the Collections group spent a substantial amount of time last year (2009) carrying out manhole inspection and repairs. These repairs are critical to reducing the amount of extraneous water entering the collection system. In addition, the collections crew cleaned and performed CCTV inspection of over five total miles of sewer and drain pipe.

For calendar year 2009, 27 new connections were added to the system, 2,682 feet of new pipe were installed, and 3,212 feet of pipe was relined as part of the I&I reduction program

Statistical Data:

Total miles of sewer mains	64
Total number of manholes	1,464
Total number of service connections	5,124
Total number of new service connections	27
Total number of pumping stations	7
Total linear feet of camera inspection	14,982'
Total linear feet of flushing	12,972'

BPW Chairman's Closing Comments:

The Board of Public Works recognizes the efforts of Mr. Hollowell, Director, and the entire Department of Public Works' staff in continually improving services. We also recognize the financial limitations of the Town and have strived to operate within the Town's master capital improvement plan and budget. Unfortunately, the needs of our aging infrastructure will continue to exceed the allotted funds. Therefore, the Board of Public Works is committed to continually improving communication with the Selectmen, RTM, Finance Committee and other Boards and Commissions to seek the most efficient alternatives to address the Town's infrastructure needs and services. Joint efforts over the previous year have proven to be successful, and we are optimistic that the success will continue.

Respectfully Submitted,

BOARD OF PUBLIC WORKS

Robert C. Norton, Chairman
Steven M. Cabral, P.E., Vice Chairman
Gary A Porter, Third member

ELECTION COMMISSIONERS

Honorable Board of Selectmen,

The Board of Election Commissioners hereby respectfully submits the following report for the year ending December 31, 2009.

According to the 2009 Annual Town Census, the population is 26,461 with 18,057 registered voters.

Commissioner Christopher Sullivan was reappointed in April to a four year term. At an Election Commissioner's meeting, Kevin Poirier was again chosen as Chairman and Christopher Sullivan as Secretary.

The Preliminary Election on February 10, 2009 brought out 1087 voters. There were five candidates running for two seats on the Board of Selectmen, and three candidates for one seat on the Board of Electric Commissioners. The Preliminary Election eliminated one candidate from each race, and left four candidates for the Board of Selectmen in the April election: John Rhyno, Joan Marchitto, Walter Matthis, and Christopher Sweet. The candidates for the Board of Electric Commissioners on the April ballot were Thomas Corrigan and Michael Forbes.

The Town Election on April 7th had races for Board of Selectmen, Electric Commission, Park Commission, and School Committee. There were no races for RTM seats; only 39 candidates ran for 78 open seats. The voter turnout was 2,616, or 14%, of the registered voters. John Rhyno was re-elected to the Board of Selectmen, Christopher Sweet was also elected to the Board of Selectmen, and Thomas Corrigan was re-elected to the Electric Commission.

Due to the death of Senator Edward M. Kennedy, there was a Special State Primary held on December 8, 2009. Of the 3025 ballots cast, 1475 were Democratic, 1547 were Republican, and 3 were Libertarian votes. The winners, Democrat Martha Coakley and Republican Scott Brown would run against each other in the January Special State Election.

As always, we would like to thank our office staff, our poll-workers, other town departments (especially the Department of Public Works, the School Department and the Police Department) the Showcase Cinemas, and the voters of North Attleborough.

Respectfully Submitted,

Kevin Poirier, Chairman
Christopher P. Sullivan, Secretary
Eleanor M. Ruest
David J. Torpey

ELECTRIC COMMISSION

Honorable Board of Selectmen,

The Board of Electric Commissioners submits North Attleborough Electric Department's 115th Annual Report for the fiscal year ending December 31, 2009. This past year, the employees of North Attleborough Electric Department (NAED) carried on the 115 year old tradition of providing an essential public service to the Town of North Attleborough. Guiding the Department as it distributes electric service has been its mission statement:

NAED, a public power utility, owned by the people of North Attleborough, provides reliable services at economical rates through teamwork, technology and innovation. We are committed to safe operations, to excellent customer service and to the community we serve.

In April, 2009, Thomas Corrigan was elected to a third term to the Board of Electric Commission and later in the month, Charles Mottinger was elected as the Chairman of the Board of Electric Commissioners, with Thomas Corrigan elected as the Board's Secretary. Commissioner Edward Vandette serves as the third member of the Board.

The past year has been a very busy and important year for NAED. We believe that we have continued to make great strides during the past year, consistent with the policy directions for the Department as established by the Board of Electric Commissioners, our managers and employees. We have worked together to restore the community's trust in our fiscal and management practices and activities.

For your information, NAED's efforts, activities and accomplishments have included:

Completed much of the work involved with the conversion of our distribution system from 4kV to 13.8kV through the efforts of our Line Crew and contract laborers. The remainder of this work effort, which commenced in 2007, is scheduled to be completed in calendar year 2010. The upgrades are designed to improve the overall reliability and reduce outages on those circuits.

Provided "energy efficiency" programs designed to assist our ratepayers and promote energy conservation. Our programs include rebates for "energy star" appliances, commercial lighting audits and reimbursements for implementing "energy efficient" measures in your homes. Also in 2009 the Department decided to join with other municipal electric light departments and a private firm, GroundedPower, to offer a pilot program in 2010 that will allow some residents to better manage their energy usage.

The Department welcomed a new System Engineer, Ann Langille. Ms. Langille has more than twenty (20) years of engineering work experience in electric distribution systems and substation operations. Ms. Langille previously worked at NAED and her return to this organization greatly enhances NAED's engineering and organizational capacity.

We also have continued to seek and maintain customer rates that were below those of many neighboring communities. We reduced the "Purchased Power Adjustment" (PPA) charge, effective with the November, 2009 bills.

NAED provided employee safety, operational emergency planning, software, strategic planning and governance training throughout the year. We provided a year long series of safety training for our line and meter personnel and also instituted an emergency planning exercise designed to test and assess our emergency preparedness.

The department spent much of 2009 preparing to institute a new financial software designed by Cogsdale specifically for public electric utilities, such as NAED. It is anticipated that the NAED will take the software "live" early in 2010.

We received an outstanding financial audit by our system's auditors, Powers & Sullivan. We also funded Departmental obligations relating to retiree health and life insurance costs (GASB 45).

The Department maintained an "A" credit rating from Standard & Poors.

ELECTRIC COMMISSION

NAED again instituted income guidelines that allow NAED to provide "protection" to a greater number of our customers in our "Winter Protection Program" than would otherwise be protected.

We continued to work to ensure that the Department's "Terms & Conditions", "Construction Requirements" and other documentation is current and up to date and responsive to the needs of the community and the challenges of "growth". NAED also developed a template agreement relative to "growth" type projects (such as planned residential subdivisions) which establish the responsibilities of both a project developer and NAED

We continued to utilize the "Field Assessment Tool" which NAED personnel developed. The "Tool" is now being used to update the Department's infrastructure records – with the entire system expected to be surveyed by the first quarter of 2010. We are also committed to utilizing technology to improve our efforts and continue to integrate Geographic Information System (GIS) software into our planning efforts.

Upgraded our Departmental capital equipment by adding the Department's second hybrid vehicle, which will be used by the Meter Division. In addition, we implemented a new vehicle maintenance program, which is designed to more effectively maintain our vehicle stock and reduce repair costs resulting in added costs and the loss of the particular vehicle.

NAED continues to explore opportunities for stabilizing the cost of power and our rates by participating in plans involving possible new power facilities in Taunton, Lowell and Ludlow. We did agree to participate with several other utilities to purchase some hydro power from a hydro facility located in Maine. We also considered the viability of the former municipal landfill in North Attleborough as a site for solar power panels and a proposal to place a wind turbine at WWI Park.

We commenced negotiations of two new collective bargaining contracts on behalf of many of our meter, office, support and line personnel.

The legal action, which was commenced by the Board and Town against the Department's former accounting firm, Grant Thornton, relating to the purported misuse of \$4 million in bond funds continued in 2009. Currently, the case is scheduled for trial in 2010.

NAED instituted administrative policies and training relative to new administrative, and possibly future costly, requirements involving the North American Reliability Council (NERC).

We sought to improve customer communication by continuing our local CATV show. The show is designed to update the community about NAED activities and plans. Further, in 2009 the Department instituted a survey of our residential customers, which provided guidance for future NAED planning efforts.

NAED's support of municipal and community activities included providing \$300,000 via a Payment In Lieu of Taxes. NAED also supports the Town by providing, and maintaining, the Muni-Net internet connections for all public buildings, various community service activities and fiscal support for Town efforts such as the CTY program.

As Commissioners, we look forward to the challenges ahead with great enthusiasm and confidence.

Together with the employees, we look forward to continuing to provide the Town with an essential service designed to meet the special needs of our community. In closing, The Board of Electric Commissioners wishes to thank the NAED employees and the other Town departments who worked with us for all that was accomplished this past year. To the Townspeople, we thank you for being NAED customers and encourage you to share with us any comments or recommendations you might have about NAED and its services.

Respectfully submitted,

Charles Mottinger, Chairman
Thomas O. Corrigan, Secretary
Edward Vandette, Commission Member

FINANCE COMMITTEE

Honorable Board of Selectmen,

The Finance Committee respectfully submits its Annual Report for 2009.

This Committee is charged with the responsibility of reviewing and analyzing all articles and budgets submitted to Town meetings. Public hearings are held with regards to each Department's budget and on each warrant Article. After reviewing all of the information provided, the Finance Committee votes their recommendations on these matters, which then is presented to the Representatives of Town Meeting.

During this past fiscal year the Committee was faced with tough decisions due to the deep cuts in State Aid. We are hopeful that the upcoming year will be less challenging and that the economy will begin to recover.

The Finance Committee currently has eight active volunteer members who have been appointed by the Town Moderator Stephen Dalrymple. The Committee is headed by Chairman Jack Janick and Vice Chairman Paul Follett with Michelle DiRenzo as Clerk of the Committee.

FIRE DEPARTMENT

Honorable Board of Selectmen,

The Annual Report of the Fire Department for the year ending December 31, 2009 is hereby respectfully submitted.

Mission Statement:

To improve the quality of life for the citizens of North Attleborough by preventing, controlling and extinguishing fires, providing Emergency Medical Services, and reducing the loss of life and property damage from manmade and natural disasters.

The Fire Department had many changes in personnel in 2009 due to budget reductions and personnel issues.

The Board of Selectmen reappointed Michael Coyle, Valerie Hickey, and Chris LeBlanc to the Board of Fire Commissioners. The Board of Fire Commissioners reorganized and elected Valerie Hickey as Chairman. The Fire Commissioners dealt with several difficult personnel issues including layoffs of full and part-time employees and an extensive investigation into allegations made against the Fire Chief. Following a subsequent investigation by the Board of Selectmen, all three members were removed as Fire Commissioners in November 2009.

Fire Chief Peter Lamb continues to lead the department in his sixth year of service to the town.

Fire Captain Richard Paquin retired after 32 years of dedicated service to the Town.

Firefighter Jon Underhill, Sr. retired after 16 years of dedicated service to the Town; 27 years in the fire service.

Firefighter Glen Dwyer retired after 23 years of dedicated service to the Town.

Three Firefighters: Justin Picchi, Jon Underhill Jr. and Seth Hagerty were laid off due to budget reductions. Firefighters Picchi and Underhill were rehired later in the year through grant funding the Department received from the State. The Fire Department was awarded a grant of \$ 125,137.00 to restore staffing cuts for one year.

Fire Lieutenant Ronald Darling was promoted to Fire Captain and assigned to the Fire Prevention Division.

FF/Paramedic Chris Coleman was promoted to permanent Fire Lieutenant.

The Department lost two retired members in 2009, who had dedicated their lives to North Attleborough: Call firefighters Louis Desilets and Gordon Langille.

Department Programs:

The Emergency Medical Services division of the Department continues to grow and provide high level Advanced Life Support (A.L.S.) and Emergency Medical care for the community. Fire/E.M.S. staffing now includes 31 Firefighter/Paramedics and 20 Firefighter/EMTs. The Town's second ambulance was placed in-service full-time by cross-manning Engine 1 and Rescue 2 at Station 2 on Kelley Blvd. The Department also maintains automated heart defibrillators (A.E.D's) on all of our staffed fire Engines and Ladder Co.

The Department continues to provide an EMS Bike Team. We have 14 members who are trained to patrol on specially equipped mountain bikes to provide initial emergency medical care. The two Firefighter-Paramedic teams will be utilized at large public events, parades, and at any time there is a need for rapid access to an area.

The prevention of fires and fire suppression are two of the main objectives of the North Attleborough Fire Department. We continue to maintain a Class 3 rating from the Insurance Services Office (I.S.O.), which rates a community's infrastructure and fire department services.

The Fire Department continues to promote fire safety education through our Students Awareness of Fire Education (S.A.F.E.) program conducted through our school system, and participating in various open houses and fire safety

FIRE DEPARTMENT

programs in the community. The department applied for and received \$4700.00 in grant funding for our S.A.F.E. program through the Commonwealths Fire Safety Education Grant Program.

Fire prevention and inspection division continues to work closely with other Town inspectors and property owners to ensure safety codes and regulations, in place for our protection, are followed. Approximately 700 inspections were conducted by Fire Prevention personnel during the year.

New Equipment:

The Department received funding through the Town's CIP and ordered two new Horton/Ford F-450 Ambulances to replace two older ambulances. Both new Rescues are expected to be in service in early 2010.

The Department continues to maintain the Town's three Fire Stations: HQ Station, 1 Elm St.; Station 2, Kelley Blvd.; and Station 3, Allen Avenue. Numerous cosmetic repairs continue at the HQ Station as we try to maintain this nearly century old building.

Respectfully submitted,

Peter Lamb
Fire Chief

HISTORICAL COMMISSION

Honorable Board of Selectmen,

The Annual Report of the North Attleborough Historical Commission for the year ending December 31, 2009 is hereby respectfully submitted.

The seven members and two alternate members of the Historical Commission are appointed by the Board of Selectmen and serve overlapping terms. They are governed under Town Bylaw, Article VIII, Section 3 and Chapter 40; Section 8D of the Massachusetts General Laws, which establishes local historical commissions for the identification, preservation and protection of historical and archaeological assets within the town.

Member and archaeologist Margo Muhl Davis resigned from the commission as her work with the National Park Service transferred her to Denver. New members appointed to the commission this year were William J. Whalen and alternate, John (Jack) Byrnes.

Our office assistant, Doris Neil, retired at the end of June after working with us for ten years. This position was funded by a grant at no cost to the town. Our office remains unstaffed. Anyone wishing to contact the Historical Commission office may do so by leaving a message at 508-699-0152, and someone will return the call.

Holmes School and Holmes Memorial Hall: Repair to stabilize and add steel supports to the bob-tailed chimney in this one room schoolhouse was completed. Additional bracing to the structure of the building pulled the back wall in line. It had bulged outward due to the stress of the chimney brickwork. Additionally ceiling furring was added to form a level structure to install the ceiling plaster. This work was funded by a private benefactor and town meeting funds.

We hope to continue with the restoration of the Holmes School as funding permits with the goal to restore the interior to the era when it closed in the early 1950's. Upon completion of the restoration, we hope to add this site to the list of buildings visited by the third grade students. Although the exterior will look similar to the Adamsdale School, the interior will depict interior changes approximately one hundred years later when one room school houses closed in North Attleborough.

This year we received donations of several student desks and chairs, a teacher's desk and a piano as well as an interesting game circa the 1950's.

We had several out of town visitors to the school this year: former students and others from the neighborhood. Anyone wanting to see the interior can contact us to make an appointment.

We again added the architect's drawings and specifications for the renovation of the Holmes Memorial Hall to the CIP list which was not funded. Volunteer Ian Plath of Tri County and his father took down most of the old ceiling tiles as a community service project and removed them from the building. We hired a carpenter to replace the clapboards where the birds had pecked holes and made nests between the walls. We are grateful to the neighbors for mowing the grass, raking the leaves and reporting anything unusual to us. We did have to ask the Fire Dept. to pump water from the crawl space under the school only once in the spring.

Codding Farm: The National Register Nomination for the Codding Farm prepared by a professional research historian and funded by the Massachusetts Historical Commission in 2008 was approved by the National Park Service this year. This honorary designation will allow the town to apply for matching grants for the preservation of this site when funding is available.

We held a work session with Attorney Stephen Clapp (representative for the Friends of the Codding Farm, who are renovating the barn) and two members of the Board of Selectmen to discuss simple maintenance and security issues that neighbors felt needed to be completed at this town owned property as soon as possible. We are extremely concerned that there is no plan for the future use of these historic buildings.

Mann Burial Ground: The concrete floor between the headstones and footstones of this old family burial ground off Draper Avenue was removed by Erico Construction of North Attleborough. All work was supervised by a professional archaeologist permitted by the Massachusetts Historical Commission. We are grateful to the RTM for

HISTORICAL COMMISSION

funding this project at last October's town meeting. Much work still needs to be done at this site to bring it to a respectful condition. We are thankful to the Department of Public Works for clearing the 20 foot wide town right of way to this site so that work vehicles could get closer to it.

Demolition Applications: We voted to approve the demolition of two houses and one garage. We were glad to see a developer renovate an historic house which was moved last year on Freeman Street.

Web Site: We met with a volunteer who gave us a lot of direction with developing a new web site. We feel that we need to embrace the media of the present to communicate the story of the past, our mission and respond to the needs of town residents and out of town developers.

Archaeology: We have communicated with concerned citizens regarding archaeological sites discovered in town. The location of these sites is protected by State and Federal laws. We continue to learn as much as possible about the value of these sites and what can be done to protect them.

Historic District Study Committee: We are grateful to the Board of Selectmen for appointing three members to this committee. We are sharing the information in our files with them.

House Markers: Several house markers were installed on homes located within the Attleboro Falls National Register Districts. We encourage homeowners to apply to our commission for a housemarker which shows the name of the original or most prominent owner and the original date of construction of their home. We are willing to direct them to the research resources to document the history of their house.

Historic Site and District Signs: We worked with the Department of Public Works to design, fabricate and install historic signs to replace some of the deteriorated or missing signs that were installed in 1976 at the Woodcock Burial Ground, the Paine Cemetery, the Carpenter Cemetery, Powder House and the Angle Tree Stone. Additional historical signs were installed to mark the boundaries of the Old Town District on Old Post Road and to mark the Codding Farm.

Senior Tax Credit Volunteer: We wish to thank the Senior Tax Credit program for placing a volunteer in our office at the Town Hall to organize our files.

Developers and Project Proponents/ MHC: Cell Tower 346 Allen Ave. No known historic sites were found to be in the project area. We made this known to the Massachusetts Historical Commission per their request as well as to the Zoning Board of Appeals.

Our meetings are held at 7pm at the Town Hall on the second and fourth Tuesdays of each month unless otherwise posted with the Town Clerk. These meetings are open to the public. We welcome and encourage anyone interested to get involved with the town either as a volunteer or prospective member of our commission to attend our meetings. Knowledge of the history of the town is not necessary.

INFORMATION TECHNOLOGIES DEPARTMENT

Honorable Board of Selectmen,

The 13th Annual Report for the Department of Information Technologies is hereby respectfully submitted for the calendar year ending December 31, 2009.

The Information Technologies Departments main goal is to provide technological service, support, consultation, and project planning for all Town Departments excluding the Electric Department and School System.

We also provide many behind the scenes services for various Town Departments as well as the general public. We are responsible for the Town's internal network infrastructure, computer hardware and software installations, the telephone system, and the Town's Website.

The biggest project/challenge that we embraced this year was a complete network/domain overhaul for the town. We virtualized a majority of the servers in Town Hall cutting our server count to less than half of what we had prior. This project was not only a hardware change for the servers but also tightened up our firewall and upgraded our mail server. The most difficult part of this project was our transition to a new internal domain name. This required us to visit each of our approximate 200 computer workstations, one at a time, to convert them, and transfer the users' settings. I am happy to say that after many months of planning and many months of behind the scenes work, the transition was a complete success. When people left on that Friday, we began our transition. By Monday morning, all users were able to log onto the system. There were bumps along the way; however, it was a successful transition.

We continue to work within the five-year plan of replacing computer workstations throughout town. Phase 1, which removed all computers that were 10 to 12 years old, is completed. This has significantly increased productivity.

A copier/printer project has been started to consolidate the many small desktop printers into several centralized networked multi-function printers, which in the long run should save on energy consumption as well as toner products as the cost per page should be reduced. Once the project is completed, these new machines will fall under the IT Department at which point we will be supporting and managing the supplies for these machines.

Assistance was given to the Water and Sewer Department as they transitioned to different billing software. We attended many meetings to offer technical guidance and ensure that the project fit in with the current goals of the IT Department.

The forensics lab at the Police Department was completed as well as a major upgrade to their software. The Emergency Operations Center (EOC) has also had its wiring project completed to accommodate more training computers, and a grant allowed us to purchase several training workstations for the EOC.

In the Town Hall Lower Level Conference Room, the presentation project was completed. Presenters now have an easier avenue to show Power Point presentations or slide shows to their audience. Also, North TV can now grab that video feed directly from the projector to send to your televisions at home.

Our Department had the pleasure of working with Stephen McGrath for a few months. Stephen is a high school student who was participating in the Massachusetts Work-Based Learning Plan and for about two months, he helped the department by starting to update several pages on the Town's website.

The Director of the IT Department also sits on a variety of committees which include the CIP, Space Needs, Munis and Town Report committees. We are also members of the Town's EOC staff and the town's EDS Flu clinics.

We look forward to another year of progress in the year 2010 and assisting the town in the many ways our small Department does.

Respectfully submitted,

Keith A. Mueller, Director
Information Technologies

The firm of Kelley & Ryan Associates, Inc. has been contracted to handle parking issues for the town and still continues to do so. Payments may be sent via mail sent to: Town of North Attleboro, c/o Kelley & Ryan, P.O. Box 203, Milford MA 01757. Hearings may still be requested in person by calling the Deputy's Office at the Taunton Registry of Motor Vehicles: 1-508-822-7519. The address is 1 Washington Street, Taunton, MA 02780. Please plan to call ahead to determine hours of availability of the Kelley & Ryan staff prior to going to the Registry.

In calendar year 2009, the town collected \$21,987.00 in payments for parking violations and surcharges for years 1999-2009. Moneys collected for parking violations are deposited into the General Fund.

A Winter Parking Ban is called each year by the North Attleborough Board of Selectmen. This year's ban states:

"No parking on public ways or sidewalks effective December 1, 2009 through April 1, 2010 from 1:00 a.m. until 6:00 a.m. If a snowstorm occurs prior to December 1, 2009, the parking ban becomes effective immediately."

Any individual who does not abide by the Winter Parking Ban will be issued a ticket with a \$10.00 violation. Please note that this parking ban is NOT weather related; it is calendar related. These tickets are valid. The town places the winter ban advertisement in The Free Press each year to notify all inhabitants of the town, as this publication goes to all residences.

Townpeople are reminded to abide by all local and state parking regulations. These policies are taken very seriously by our Police Department and are for the safety and well-being of all.

I would like to take this opportunity to sincerely thank Assistant Parking Clerk Susan Harvey for her assistance and support as well as Gloria Pospisil of the Selectmen's Office and Laura Coffey of the Solid Waste Department for providing back up when the Parking Clerk and Assistant Parking Clerk are unavailable.

Respectfully submitted,

Judith Chafetz-Sulfaro

PLANNING BOARD AND TOWN PLANNER

To the Honorable Board of Selectmen

The Annual Report of the North Attleborough Planning Board and Town Planner for the year ending December 31, 2009 is hereby submitted.

The Planning Board generally held its regular monthly meetings on the first and third Thursday of every month unless otherwise posted. Other regular and/or special meetings were held when deemed necessary. All meetings were posted and open to the public.

On April 9, 2009, the Board held their annual reorganization. Richard Houle was voted Chairperson, Donald Cerrone, Vice-Chairperson, and Richard Peterson, Secretary. Joan Marchitto was appointed Planning Board representative to Southeastern Regional Planning and Economic Development District (SRPEDD).

During the past year, the following meetings and public hearings were held:

Regular Meetings	31
Public Hearings Held	32
Work Sessions	8
Field Trips	9

During the past year, the following applications were submitted:

Approval Not Required Plans	9
Preliminary Subdivision Plans	1
Definitive Subdivision Plans	2
Site Plans	11
PBD Permits	1
Aquifer District Permits	1

In 2009, the Board approved a total of 7 new residential building lots through approval-not-required (Form A/ANR) plans, and 18 new residential lots through definitive subdivision plans, for a grand total of 25 new building lots being created in 2009. The Board also approved 11 commercial site plans for new or expanding businesses. Various other items that were acted on included 4 subdivision bond forfeitures, the establishment of an Adult Retirement Community By-Law and recommendations to Town Meeting for proposed amendments to the Zoning By-Laws.

In 2009, the Planning Board collected the sum of \$3,800.00 in application fees, which was turned over to the Town Treasurer for entry into the General Fund. Other miscellaneous receivables that were turned over to the Town Treasurer from sales of zoning by-laws, zoning maps, Planning Board Rules and Regulations, street maps, and photocopies totaled \$938.23.

The Town Planner's office functions as staff for and answers directly to the Planning Board and as such, a combined budget is for operation of the entire department. Combining the two budgets into one budget has allowed increased flexibility and has streamlined administration of the Planning Board/Town Planner functions.

Coordination of planning activities with other Town departments and boards has been a major part of the Planning Board's activities, as well as dissemination of planning information to other departments, boards, and the general public. The Town Planner and Planning Board continue to provide assistance to the Zoning Board of Appeals in their operation and evaluation of proposals submitted to the Board, based upon generally accepted planning principles and principles of zoning, in accordance with the Town's Zoning By-Laws and other applicable laws.

The Planning Board has undertaken the enormous task of updating the Town's Master Plan which has not been done since 1991. In this effort, the Planning Board applied for and received two grants to assist with the process. The District Local Technical Grant for \$8,000 provides technical assistance through SRPEDD to update the Economic Development portion of the Master Plan. A public hearing was held on December 15, 2009, and as a result the Planning Board adopted this section. The South Coast Rail Technical Assistance Grant for \$15,500 provides technical

assistance through SRPEDD to update the Housing portion of the Master Plan, and to create a Housing Production Plan. The Planning Board will be utilizing the 20 hours of Municipal Assistance provided every year to each SRPEDD representative to assist with the completion of the Zoning Map update and the Open Space Recreation Plan. Lastly, the Planning Board has utilized the assistance of two interns from Westfield State College to assist with various projects throughout the year.

Among the Planning Board's major objectives for the upcoming year will be to continue working towards the updating of the Town's Zoning Map and Master Plan and to continue implementing improvements to the Zoning By-Laws and the Planning Board's Rules and Regulations Governing Subdivision of Land.

The Planning Board and Town Planner wish to thank all Town Departments, Boards and Commissions for their cooperation and assistance over the past year and looks forward to continued amicable relationships during the coming year.

A page in the book of memory silently turns. In honor of Patricia Redding for her many years of dedicated service to the North Attleborough Planning Board (1982-2003).

POLICE DEPARTMENT

Honorable Board of Selectmen,

The Annual Report of the North Attleborough Police Department for the year ending December 31, 2009 is hereby respectfully submitted.

Mission Statement:

The primary goal of the North Attleborough Police Department is to provide for public safety and to deliver the highest quality of service to the residents of the Town of North Attleborough and the business community. The Department is committed to the protection of life and property, to the resolution of conflicts, and to the provision of a feeling of security in the community. The men and women of the North Attleborough Police Department are committed to enforcing the laws fairly and impartially through effective community policing strategies with a strong sense of partnership in conjunction with the community they serve.

In June 2009, the North Attleborough Police Department completed its fifth year of operation at the police facility building. The Department is striving to keep pace with the latest technology and trends in law enforcement to provide the best public safety initiatives possible; however, technology is a double edged sword. The North Attleborough Police Department benefits with today's technology and strives to keep up with it; there is also a downside. Criminals are also keeping up with technology and are now committing crimes from behind a keyboard. These criminals could be in our town, another state or another country. Identity theft has become one of the fastest growing crimes. It is now common for crimes such as assault, drug possession, fraud and harassment to have an associated computer or cell phone component to them. Police departments are being bogged down with digital evidence and have to wait months to get results back from a crime lab.

The North Attleborough Police Department has taken a proactive stance in fighting computer crime and identity theft by speeding up the collection of digital evidence in the following ways:

- Opening of an in-house Computer Forensics Crime Lab.
- The purchase of forensic software and hardware.
- Training of personnel in the collection of digital evidence, on-line child exploitation and other computer related crimes.

The Assistant I.T. Director for the Town, Kenneth McCarthy, has been instrumental in assisting the Police Department and has completed many months of computer forensics training. Ken has recently received two highly regarded Forensic Certifications:

- EnCE "Certified Encase Examiner"
- GCFA "GIAC Certified Forensic Analyst"

This has enabled the police department to obtain digital evidence in many cases making it possible to prosecute more computer related crimes.

The Emergency Operations Center\Community Meeting Room is continuing to be utilized as a state-of-the-art training facility by many Town departments and law enforcement agencies. One of the benefits of this training room is that it allows free training for many officers willing to attend these seminars. It also provides an area for networking with public safety professionals from other agencies.

The North Attleborough Police Department is responsible for maintaining and funding several critical infrastructure sites such as:

- The Emergency Operations Center which functions as the central command post for all Town Departments when managing major public safety incidents such as: weather related incidents, and state and national disasters.

POLICE DEPARTMENT

- The Public Safety Communications Network Building which provides emergency generator power for all radio communications systems for the Police Department, Fire Department, Department of Public Works and the Parks Department.
- The maintenance of the Route 1 Public Safety Surveillance and Traffic Monitoring Cameras as well as its related infrastructure. The mall area is considered a critical infrastructure by federal and state Homeland Security, and the purchase and installation of this equipment was funded by a grant from the Executive Office of Public Safety and Security.

In 2009, the North Attleborough Police Department was awarded several federal and state grants that greatly assisted the Police Department in providing public safety services to the community:

- 2009 Community Policing Grant EOPSS \$42,529.51 provided enhanced visibility of police officers through bike patrols, walking beats, participation in community events (such as parades and Kids Day) and also was used to purchase laptops, mountain bikes, and communications equipment.
- 2009 Underage Alcohol Enforcement Grant \$5,000 EOPSS allows this Department to participate in several strong enforcement actions hoping to reduce underage drinking and curb impaired driving. The Department has and will conduct underage stings/compliance checks, prom patrols, and surveillance patrols.
- 2009 Traffic Enforcement and Equipment Grant \$11,400 EOPSS funds are available for local police departments to conduct traffic mobilizations entitled, "Click it or Ticket", "Drunk Driving Over the Limit, Under Arrest" and "Road Respect." The goals of this grant are to increase effective enforcement of traffic safety related laws, to reduce serious injury crashes, to increase seat belt use, and to reduce the percentage of alcohol related fatalities.
- 2009 SETB Grant \$10,036.00 (Statewide Emergency Telecommunications Board) pays for additional training courses and overtime expenses for all the communications officers.
- 2009 PSAP (Public Safety Answering Center) \$45,000.00 provided for E911 Communications Officers salaries and equipment.
- 2009 Walmart Grant \$5,000.00 to offset costs of maintaining the D.A.R.E. Program.
- 2009 Cops in Shops Program Grant \$3,300.00. This money was donated to the Police Department by local liquor store establishments to help defray the costs associated with efforts to curb underage drinking in our community.
- The North Attleborough Police Department received the Gold Award of Excellence at the Fourth Annual Massachusetts Law Enforcement Challenge Ceremony hosted by the Executive Office of Public Safety and Security. We also received a \$2,000.00 Radar Unit with the award, and I would like to thank Sgt. Fred DeMarco, as he was instrumental in our department receiving this award.

Promotions:

Lieutenant David Dawes has been promoted to the position of Operations Lieutenant. Lt. Dawes will be responsible for the management of the day to day operations of the Patrol Division and additional duties as Second in Command of the Police Department. I am pleased to report that Detective John Reilly has been promoted to the rank of Detective Sergeant. Sgt. Reilly has been assigned to manage the day to day operation of the Detective Division.

The year 2009 was also a year which saw the retirements of 2 veteran police officers:

- Lt. Gary Flood with 32 years of service.
- Officer James Carey with 24 years of service.

POLICE DEPARTMENT

These Officers exemplified themselves throughout their careers as dedicated and professional public servants. They will be greatly missed.

In Memoriam

The North Attleborough Police Department suffered a great loss on July 9, 2009, with the sudden death of Captain Daniel J. Coyle. Captain Coyle was a very dedicated and highly respected member of the North Attleborough Police Department. Captain Coyle served this town with distinction in various capacities during his 28 years of service. Captain Coyle will be greatly missed and his legacy will always be part of the North Attleborough Police Department.

The North Attleborough Police Department was pleased to learn that the 2009 Mothers Against Drunk Driving (MADD) Award was bestowed upon Officers Denis Donovan, Edward Zimmer and Joseph Turner for their dedication and diligence enforcing the drunk driving laws. This award is given annually to recognize the efforts of law enforcement officers who have shown their dedication in keeping the community safe from drunk drivers through their enforcement efforts. Also, the entire staff of the North Attleborough Police Department was honored for their proactive efforts that resulted in a total of 143 OUI arrests in 2008.

The North Attleborough Police Department continues to focus its commitment to the Drug Abuse Resistance Education (DARE). Our partnership of providing the DARE core curriculum to 402 Fifth Graders in the North Attleborough School System has entered its sixteenth year. This program reaches students from Kindergarten through the Twelfth grade. I wish to publicly acknowledge the efforts and dedication shown by Officer Pamela Brown for providing this worthwhile program.

Child safety is of paramount importance to every officer and parent. The North Attleborough Police Department continues to provide child car seat installations for its community members, as well as for the surrounding towns. Officers Christiaan Grunewald and Kevin McKeon installed 168 child car seats in 2009 and are pleased to assist anyone who requests their help. This year both officers attended a mandatory conference and were re-certified by Safe Kids Worldwide and the National Highways Transportation Safety Administration.

In 2009, two officers from the North Attleborough Police Department were awarded the "Medal of Valor" at the Massachusetts Police Convention. The medal is awarded for bravery in the line of duty. I am extremely proud to announce that Officers Raymond (Doug) Beaulieu and David Lowe were the recipients, stemming from an incident where they were able to disarm a distraught individual who was threatening the officers as well as himself with a hammer. This was done without any injury to the suspect or themselves.

The North Attleborough Police Department offers to its residents the Alert Program that includes: Alzheimer's Alert, Autism Alert, and Special Concern Alert categories. This program had been successful in helping the Department locate and assist individuals with Alzheimer's disease in emergency situations. Officer Kristine Krishtal manages this important community resource program, in addition to the duties and responsibilities of her position as the Elder Affairs Officer. Officer Krishtal attended a conference on the knowledge and prevention of Elder Abuse at Wheaton College, which was hosted by the Bristol County District Attorney's Abuse Unit. Officer Krishtal also attended an Autism Law Enforcement and First Response Training hosted by The Autism Society of America, Rhode Island Chapter. This training was for first responders who may unexpectedly encounter or be called to a situation involving a person with autism.

I am pleased to report that a new comprehensive Policies and Procedures Manual has been developed with the input and cooperation of the Patrol Officers Union and the Supervisory Police Officers Union. The new Policies and Procedures Manual will provide up-to-date operational policies for all divisions of the North Attleborough Police Department. I would like to express my appreciation to the officers for their creative thinking and positive work ethic displayed during the development of these new policies and procedures. This manual will greatly enhance service to the community and will provide increased police officer safety.

POLICE FACILITY BUILDING COMMITTEE

Honorable Board of Selectmen,

The Annual Report of the Police Facility Building Committee for the year ending December 31, 2009 is hereby respectfully submitted.

In calendar year 2009, the committee met in formal session five times to plan enhancements in electronics for the Police Facility – some in the Emergency Operations Center and some in the Communications Center.

It is anticipated that the committee's responsibilities will be equivalent to the tenure of Chief Michal P. Gould, Sr., and it is the members' privilege to serve the Chief and the Town of North Attleborough for this period of time.

We would be remiss if we did not say that it has provided this membership great satisfaction to have seen our responsibilities to fruition, and we look forward to completing our final responsibilities.

Respectfully submitted,

Chairman

RICHARDS MEMORIAL LIBRARY

Honorable Board of Selectmen,

The Annual Report of the Richards Memorial Library is hereby respectfully submitted.

The library's mission is enable the residents of North Attleborough to successfully pursue their intellectual, personal, and educational interests by providing access to a variety of library resources and services.

The library is governed by a six-member board of trustees elected at large from the town. Two trustees are elected for a three year term every year. Currently the Chairman of the Board of Trustees is Samuel McLanahan III. Anita Macdonnell is the Vice-Chairman, and Deborah Valente-Gildea is the Secretary. Catherine Shuman, Gayle Gilbert, and Stephen Nelson also serve on the board.

As a public library in Massachusetts, the RML operates under guidelines created and maintained by the Massachusetts Board of Library Commissioners (MBLC). This body sets standards and administers state aid to libraries. There are several standards that must be met for a library to be certified and receive state aid. As important as state aid is reciprocity: if a community's library meets standards, it is certified and its residents may borrow materials from other public libraries. If a community's library is not certified, its residents do not enjoy reciprocity and they are restricted to using only local holdings.

These standards are: the municipal appropriation requirement (MAR) that determines the minimum appropriation of town funds for library operations each year. That number is derived from the average of the previous three FY appropriations plus 2.5 %. There are two more standards concerning hours of operation and expenditures upon library materials. These vary according to population. The RML must be open 59 hours per week (a change from the previous 63) and spend the equivalent of 13% of the town appropriation on library materials (this is a change from 13% of *total* expenditures).

The town has been diligent in meeting the MAR for many years. Like many communities, North Attleborough found it impossible to do so in FY 2010. The library has applied for a waiver from the MBLC for this standard this year. The MBLC met in January to hear waiver applications in person from Library Trustees and directors of communities that have cut their library budgets disproportionately to their town budgets. Because North Attleborough did not disproportionately cut its library, the Board of Trustees did not need to make an appeal in person. The Library Commissioners voted to grant a waiver from the MAR to the Richards Memorial on February 4, 2010 for FY 2010.

As a cost-saving measure, the Trustees changed the operating hours to meet the new standard of 59 hours with no apparent inconvenience to residents. The library does have access to income from trusts that assists in meeting the library materials standard. Trust income can only be spent on library materials.

The total budget for FY 2010 stands at \$539,072; the budget for FY 2009 had been \$571,682. To meet the new budget, the library did not fund the position of Associate Director in FY 2010.

The Richards Memorial Library is a member of the SAILS library network and the Southeastern Massachusetts Library System (SEMLS).

SAILS is a member-governed library network providing library automation and technical support for public and school libraries throughout southeastern Massachusetts as well as the Massachusetts Maritime Academy and Bristol Community College. It was created by its members and derives its operating funds from the yearly assessments levied against its member libraries. This is the "library network" line item in the Library's annual budget. As a member-driven institution, SAILS is extremely responsive to the needs of its members. The savings provided by network membership is great: in FY 2009 alone, North Attleborough residents borrowed 27,891 items from other libraries (up from 24,374 in FY 2008). These are items that RML did not need to buy, process, and shelve.

In addition, SAILS provides us with technical services, group discounts for digital resources, easy database searches, website hosting, statistical reporting, management of system software, and professional service and training.

SEMLS, a state agency operating from Lakeville, is responsible for co-coordinating delivery of items between libraries and provides continuing education opportunities to library employees. Due to fiscal conditions, the state

RICHARDS MEMORIAL LIBRARY

library commissioners are reconsidering the number and scope of the state agency library regions such as SEMLS. Regardless of how this ultimately unfolds, local libraries have been and will continue to be leaders in achieving efficiency and savings for their communities through regionalization.

Circulation at the library stood at 166,828. Residents borrowed 10,805 more items from other libraries than the Richards Memorial lent to residents of other towns. This created a substantial savings for the town in materials that did not need to be bought, processed, and shelved. Residents also rely on our Library for access to technology, especially now when so many people have lost jobs and cannot pay for computer and Internet resources. An example of how our Library is using the latest technology to benefit our patrons is the early success of the "Overdrive" site that allows the download to iPods of compatible MP3 titles, audiobooks, and e-books. Of all the 73 member libraries in the SAILS Library Network, Richards Memorial has recorded the second highest usage technology.

Adult Reference has continued in its role as support for people using computers, whether it is on the public computers or the laptops that are using the wireless access. The daily use of the internet for job applications prompted the purchase of Career and Resource Center, an online resume, career counseling and job search online program. Interlibrary Loan – the borrowing of materials from other libraries – has expanded this year as people use the SAILS system, the Virtual Catalog search of Massachusetts' libraries and the Quincy Library official Interlibrary Loan service to find books for coursework and professional development as well as recreation.

Starship Adventure was the theme for 2009's Summer Reading program. 320 children participated with 175 of them reading more than 20 books during the summer. In addition to increasing the number of storytimes, the children's department has expanded programming for homeschoolers. In November, the library held a Family Literacy event for families with children between four and six years old. The Friends of RML provided funding for this program in addition to the reading prizes and special program events for Summer Reading.

The library's webpage: www.rmlonline.org had 15,788 unique visitors over the course of the year. This website allows patrons to review their account, place items on hold for themselves-including the popular museum passes, renew things that are checked out to them, once, unless it's on hold for someone else, and use databases from home.

The Friends of Richards Memorial Library continues to be a vital supporter of library services. The Friends are a non-profit group that raises funds to help support library services to the community. The Friends of RML sponsor programming for the library for both children and adults and underwrite the popular pass program. The Friends also paid for the database Career Transitions that patrons can use either in the library or through the Internet from the library's webpage, www.rmlonline.org. They organize the annual book sale in September as a fundraiser, and a special thank you must be given to former library trustee Judith Lewis and her helpers for making this community event such a success.

Library Director

SCHOOL DEPARTMENT

Honorable Board of Selectmen,

The North Attleborough School Committee and Superintendent of Schools respectfully submit our 121st annual report on the "Conditions of the Schools" for the year ending December 31, 2009.

FACILITIES

The top priority in the School Committee's FY 11 Capital Improvement Plan is a Technology Plan to replace our aging technology equipment and support the teaching and learning needs of today. Following the first priority are the additions to both the Early Learning Center and the Allen Avenue Elementary School. In November of 2009, the Massachusetts School Building Authority (MSBA) Statements of Interest for the two projects were "refreshed" per MSBA requirements. The School Committee and the Board of Selectmen jointly filed a Statement of Interest application for the replacement of windows at the Falls Elementary School. The replacement of the roof on a percentage of the Martin Elementary School project is currently moving through the application process with hopes that the project will be started and completed during the summer months of 2010.

The School Department has continued its professional relationship with Energy Education, Inc. Energy Education is guiding the District in its efforts to reduce the consumption of oil, electricity and natural gas. The steps implemented through this process resulted in a decrease in consumption of those fuels of 20-25% during the 2009 calendar year.

ENROLLMENT

The most recent updated enrollment projection prepared by the *New England School Development Council (NESDEC)* for the North Attleborough School Department was delivered in February 2009. That report projected an increase in student population of 0.2%, or eleven (11) students over the next five-year period (through 2013). The NESDEC report stated that North Attleborough, like many nearby communities, continues to experience flat enrollment fluctuating with out-migration of 2-3.5% in Grades 1-12. NESDEC stated that this pattern may change if the economy and the real estate situation improve, leading to stronger in-migration and thus increased enrollment.

STAFFING

In April of 2009, William Kummer and Anthony Calcia were reelected to three-year terms on the School Committee. Also in April, Neal Gouck was newly elected to a three-year term on the School Committee. Mr. David Manoogian did not run for reelection completing nine years of dedicated service to the North Attleborough Public Schools. Mr. Kenneth Pickering resigned his position on the School Committee in April of 2009. Mr. Arthur "Chip" Poirier was jointly chosen by the School Committee and Board of Selectmen to complete the duration of Mr. Pickering's term of service. In April of 2009, Christopher Frost was elected to serve as Chairman of the School Committee through March of 2010. James McKenna was elected to the position of Secretary for the School Committee through March of 2010. Joan Meilan makes up the balance of the seven-member School Committee. In April of 2009, Richard A. Smith retired from the position of Superintendent of School. Assistant Superintendent of Schools, James M. Rice was appointed to the Superintendent's position. Mrs. Suzan Cullen was appointed to the position of Assistant Superintendent of Schools position in July of 2009. In August of 2009, Mr. Craig Juelis was appointed to the position of Middle School Assistant Principal.

BUDGET

The FY 10 School Department budget, approved during the Representative Annual Town Meeting in October 2009 totaled \$32,840,828, a decrease of \$1,164,027, or -4.5% over FY 09 figures.

SCHOOL DEPARTMENT CURRICULUM & INSTRUCTION

The North Attleborough Public School District maintains the focus on each and every student attaining the standards of a challenging curriculum. During these tough budget times, our District remains focused on providing the best education possible for our students. Our core values guide this focus and are ever present in the District Improvement and School Improvement Plans.

Our school system continues on the journey of developing Professional Learning Communities (PLC) throughout the District. We have been concentrating on Professional Development to begin with the administrative team and to

SCHOOL DEPARTMENT

“echo” out to all faculty members. Teachers are asked to reflect and examine the learning that occurs in our classrooms through the lens of three essential questions to ensure that all students learn at a high level.

- What do we want each of our students to learn?
- How will we know that our students have learned it?
- How will we respond when a student is experiencing difficulty in learning?

The sharing of expertise and instructional strategies among teachers focused on student learning, take place during collaborative discussions. These are the tenets of a Professional Learning Community. Dialogues focused on students who experience learning difficulty are key components of the successful implementation of Response to Intervention (RTI). This was an initiative that began last year and is constantly under revision to best meet our students’ needs.

The use of data to improve instruction and to ensure progress for all students continues to be a focus for our District. The Department of Elementary and Secondary Education (DESE) provides us with a myriad of tools to disaggregate the data. This year, the DESE has rolled out a new “Growth Model” that we are using to follow individual students as they progress through the grades. We anticipate this to be useful information when woven with in-district data.

Technology is an area that needs attention in our District. To best prepare our students for the 21st Century, we must build this infrastructure. We have been fortunate to obtain grants to assist us in beginning this challenge across the District. We will need additional funding sources to bring us to the level that will make a difference for our students. Differentiating Instruction (DI) for ALL students has also been a focus for all classrooms this year. We have a trained team of teachers that are spearheading this training in all grades. The DI is interwoven into technology in amazing interactive classrooms across the District. Our challenge is to sustain and develop this initiative throughout the upcoming years.

NORTH ATTLEBOROUGH SCHOOLS TECHNOLOGY ACCOMPLISHMENTS 2009

Encouraged sharing of technology success and best practices

The District webmaster posts examples of student successes on the naschools home webpage. A site, called Teacher Talk, encourages the sharing of tips among staff. Technology Committee members share technology successes at monthly technology meetings.

“Implementing Universal Design” was a presentation by Anne Sullivan, a Martin teacher, at the Superintendents/MassCue Technology Conference at Gillette Stadium on October 29, 2009.

New Student and Staff Database

Aspen X2 Student and Staff Database

The North Attleboro student database was converted from MMS to Aspen X2 and went online in December of 2008. In January, the conversion of the Special Education Department (SPED) data was completed and the SPED module went online. X2 provided training to key North Attleborough staff, who gave extensive training to all District staff. All state reports are being sent electronically with file uploads from X2. Staff information has been entered and the EPIMS file transfer, to the Mass Department of Education was successful.

Student Learning

Discovery Education

All District schools, except the Early Learning Center, have a subscription to Discovery Education. Teachers are downloading and saving streaming videos to a centralized location where they can then easily access a variety of videos appropriate to their grade level and curriculum.

Type to Learn4

Students at Martin School are using Type to Learn4 for keyboards skills.

Encouraged E-Learning

Virtual High School (VHS), 4 Clock Tower Place, Suite 510, Maynard, MA 01754

This semester, at the North Attleboro High School (NAHS), nine students have enrolled for Virtual High School (VHS) courses. Students are studying a variety of subjects, including the Holocaust, Sports in American Society,

SCHOOL DEPARTMENT

History of Photography, Astronomy and Poetry. In the 2009-2010 academic school year, VHS offered more than 260 courses for over 644 participating schools in 31 states and 61 international schools.

VHS Course offered by a NAHS History Teacher

Kevin Donovan is teaching a VHS online course titled the Holocaust.

Mandarin Chinese

Two sections of Mandarin Chinese have been added the NAHS Course Selection Catalogue. Thirty-one students enrolled in the fall of 2009.

Software Initiatives

Versatrans Solutions, Inc. which is a routing software program, is used to manage the bus routes for the Special Education Department.

Technology Use

Massachusetts's technology standards state that at least 85% of teachers use technology everyday, including some of the following areas: lesson planning, administrative tasks, communication and collaboration. Teachers share information about technology uses with their colleagues. North Attleborough teachers surpass the state benchmark by 3%.

Staff Professional Development

Increase in number and hours of technology workshops

During 2008-2009, at least 68% of the District staff (administrators, teachers, instructional aides and paraprofessionals) had participated in technology professional development covering technology skills and the integration of technology into the curriculum. Total staff and total staff hours has risen significantly over the past several years.

AspenX2 WebEx series

District staff benefit from weekly WebEx workshops provided by Aspen X2 Development Corporation topics include; student scheduling, health medication management and standard based report cards to name a few.

Increased Online Communications

Teacher Websites

The number of sites has significantly increased each year. In 2007 there were 80 teacher web sites; in 2009 there are over 200 web sites. In addition, each school also has a SharePoint site, which includes a page for notes from the nurse, an electronic backpack which contains communication from the principal, daily announcements, parent resources and other information. Many specialized sites have been created, for example, food service, athletics, and differentiated instruction.

North TV

North TV posts school cancellations and delays. Software was installed on the Computer Coordinator's computer, which allows the transmittal of these announcements.

Connect ED

All principals regularly use Connect-ED, a communication tool for parents and staff. Connect-Ed enables administrators to record, schedule, send, and track personalized voice messages to all parents in minutes via a web interface or, during an emergency, through a standard telephone. Martin, ELC, Allen Avenue and the Middle School principals use Connect-ED to send emails to parents. Other schools are setting this up now. In addition, the Middle School is using the attendance feature to notify parents of their child's absence.

Electronic Backpack

All elementary schools use the e-Pack (Electronic Backpack) to post flyers and handouts for parents. Any parent requesting hardcopies is provided with these.

Blackberry Access to Outlook resources

SCHOOL DEPARTMENT

Blackberry server licenses were added to the Exchange Mail Server. This allows users to access their outlook contacts, calendar and email on their mobile blackberry phone.

Internet Access

Increased Internet bandwidth and speed by CELT

Center for Learning Technologies (CELT) provides the District with Internet access. Bandwidth is 22 mbs via cable, which increased from 3 mbs provided by the North Attleboro Electric Department (NAED). A firewall (Astaro 425A) has added to the operations center at NAED. Filtration is handled through the Astaro firewall. Sites that could be detrimental to our students are blocked. The Technology Specialist handles exceptions.

Energy Management

Supported Energy Management Policy

The Technology Department encourages all staff to turn off computers at night in an effort to save energy and to conform to the North Attleborough Schools Energy Management Conservation Policy; more energy efficient LCD flat panel monitors are being installed.

Internet Safety

Internet Safety Week and Internet Safety Night for Parents

The Technology Committee and the District Health Coordinator planned and hosted a very informative Internet Safety Night for Parents and an Internet Safety Week last spring. Internet safety was discussed in all the health classes. At a Parent Internet Night, Katie LeClerc spoke on the perils of social networking, sexting, cyberbullying and exposing personal information online to about 100 parents and staff. Ms. LeClerc also addressed all high school freshmen. Ms. LeClerc is an Intelligence Analyst for the Massachusetts State Police working with the Massachusetts Missing Children Clearinghouse and a former Internet Safety Program Coordinator for the MA Attorney General's Office.

Revised Internet Safety and Technology Use Policy for Students

A committee of staff worked on the revisions, over a two-year period, because the policy needed to address changes in technology such as transmitting electronic images over cell phones. The Internet Safety and Technology Use Policy for Students was approved by the School Committee in November 2009 and are posted online.

Hardware Replacements

Hardware Replacement Policy

The District has a very small budget for hardware replacement and does not have a formal hardware replacement policy. In addition to using local funds, the District has aggressively sought donations and partnerships from private corporations. The District is fortunate to have technology staff do all upgrades and replacements (including servers) in-house.

Some of hardware replaced in 2009

- NAHS computer lab room 55
- NAMS Modular Technology Lab
- NAHS art computers
- Many NAMS student computers
- All nurse's computers
- NAHS administration and office computers
- Community School art room
- Allen Avenue computer lab replaced with a wireless mobile lab
- More NAHS student computers per NEASC recommendations

Thin Net Solution

The District is using a thin net solution by NComputing X300 to replace student clusters. The Technology Committee members tested and evaluated units in their classrooms. The thin net device distributes to each connected computer terminal all the applications that are on the teacher computer. Everyone connected receives the same speed and performance of the teacher PC and each user works independently and securely from each other. The student stations continue to logon as student stations and do not have access to teacher files.

Digital Copy Machines

SCHOOL DEPARTMENT

The District is replacing copy machines in school offices with digital copiers. Office staff has the ability to scan and send documents from their desktop to the copier. Printing to a copy machine is more cost effective than printing to a local printer.

Computer Donations

North Attleborough Public School Department accepts donated computer equipment for educational use. Our schools benefit greatly from the generosity of those who make technology available to our students and educators. We are currently seeking cash donations or large hardware donations from companies that are converting to newer technologies and want to donate their three-four year old equipment. If you wish to donate computer equipment, please contact Computer Coordinator Emily Nicodemus at (508) 643-2178. All donations are tax deductible. Read [Donation policy](#).

LunchBox Point of Sales Program for Middle School

LunchBox Point of Sales Program automated the Middle School food service line last spring. At the Middle School, cafeteria helpers serve 750 lunches each day. Three P.O.S cash registers were installed. Each monitor shows meal prices and other customized information such as the student's photo, birthday, food allergy alerts, and the current account balance. The system includes line software, three cash terminals and back office software.

Some of the benefits of Lunch Box are less handling of cash, ability to see when a student's account has only three meals left, increased confidentiality of free/reduced meals, replacement of out-dated cash registers and encouragement of more kids to take free/reduced lunches.

Interactive Classrooms

Nine classrooms have interactive whiteboards by Mimio Wireless Interactive Bar. Training, support and resources were provided to these teachers.

Grants and Competitions

CLC Grant from Bridgewater State College

"Building Connections: Collaborative Design Through Robotics" is a project designed by Michael Englander, North Attleborough High School. The Curriculum Leadership Center, Bridgewater State College awarded Mr. Englander \$1,000.00 for his project.

MassCUE Initiative Grant 2009

"Problem Solving in Math - Grade 3" by Mary Ellen Smith, Allen Avenue Teacher
Mrs. Smith was awarded \$750.00 for her project by MassCUE.

ACADEMIC PROGRESS

The 2009 MCAS scores for North Attleborough students were once again above state averages. Our NCLB District Performance Rating for English Language Arts is scored as Very High and for Mathematics the Performance Rating is High. Our aggregate student population continues to score at a very high level on the MCAS. One of our greatest challenges is to close the achievement gap of our two subgroups. We continue to develop intervention plans to address the achievement gap along with sharing best practices. The Middle School did not attain Adequate Yearly Progress (AYP) in English Language Arts (ELA) for a specific subgroup and as a result has been identified to be in "Improvement Year 1". Also a specific subgroup at the Middle School did not meet AYP in Mathematics and as a result the Middle School has been identified to be in "Restructuring Year 2" for specific subgroup.

SELF-HELP, INC.

Honorable Board of Selectmen,

The Annual Report for Self-Help, Inc. for the year ending September 30, 2009, is hereby respectfully submitted.

During the program year ending September 30, 2009, Self Help, Inc. received a total funding of approximately \$27.5M and provided direct services to 34,481 limited income households in the area.

In the Town of North Attleborough Self Help, Inc. provided services totaling \$722,252 to 1,600 households during program year 2009.

Self Help's total funding of \$27,410,394 does not tell the real value of services delivered to the area as a whole. This funding enabled us to mobilize an additional \$2,134,300 of other community resources such as volunteers, donations of space, and private donations in the form of goods and services. Therefore, the total impact of Self Help, Inc. during the past program year was \$29,544,694.

In addition, Self Help currently employs 285 individuals. Many of these individuals are of limited income and most reside in our service area.

We feel that October 1, 2008 through September 30, 2009 was a successful program year for us because we were able to assist as many individuals and/or families as we did, regardless of the challenges of being a human service provider.

We thank the Town of North Attleborough and your representatives to our board Mr. Jack Bush and Mr. James Dinsel and all the volunteers for helping us to make fiscal year 2009 a successful one.

Respectfully submitted,

Norma Wang
Human Resource Director

SOLID WASTE DEPARTMENT

To the Honorable Board of Selectmen,

The Solid Waste Department hereby submits the Annual Report of the Solid Waste Department for the year ending December 31, 2009:

The Landfill Enterprise Fund, which was established in 1990 to close and cap the landfill located off Mt. Hope Street, continued its operations in 2009 successfully beginning another year as a self-sustaining department which provides trash and recycling services to more than 8,000 households.

In January, we all learned the proper winter etiquette for single stream recycling carts and the importance of proper placement so the sidewalk plows and snowblowers could keep the walkways passable. We also learned that the carts as designed, built and delivered had a design flaw in the axle that caused the wheels to fall off and the axles to crack. Rather than recall all of the carts, our contractor agreed to carry repair/replacement kits in the trash and recycling trucks and effect the repairs as they were seen or reported. For obvious reasons, this will be an ongoing project until all defective carts have had their axles and wheels replaced.

The department continued to offer its traditional services this year. Household Hazardous Waste Day events were held on April 25th and September 26th, servicing over 300 cars for the two days. The annual Earth Day Reuse and Recycling event, which we host with the other SERRP communities, attracted 247 families bringing in reusable items for 11 different vendors.

In an effort to disseminate information on our program and the proper procedures for using the new Single Stream recycling carts, we requested tables at two townwide events. On May 16th we hosted a table at the DPW's annual "Touch the Truck" day with Waste Management providing a new automated recycling truck for "hands on" inspection. On July 28th, Laura Coffey and Diane Williams manned a table at DANA's annual Block Party, handing out magnets, pamphlets and stickers for the children.

The failing economy has had a chilling effect on the grants being offered by the state's Department of Environmental Protection for which we apply annually. Despite that, the department was awarded additional time with our Municipal Recycling Coordinator to continue an investigation into the trash and recycling operations of the multifamily complexes in town which are not currently covered under our curbside program. Additionally, we received 50 discounted rain barrels to sell to our residents. A Rain Barrel event was held on June 3rd at the DPW lot on Smith Street.

After much deliberation, and discussion at a public hearing with the Board of Selectmen, a decision was made to change the timing of the distribution of Recycling Center stickers from July to January. Although this would require a second mailing to all of our customers, it had several positive effects. It did away with the costs inherent in printing and distributing the 6 month sticker; it changed the dating of the stickers from the fiscal year to the calendar year, thereby clearing up some confusion for our customers; and, it shortened the transaction time for each payment which allowed the staff to process payments and make deposits in a timely manner.

I would again like to acknowledge the dedication and diligence of the department's employees and volunteers who work so hard to meet the needs of the participants in our program.

Respectfully

Michele C. Bernier, Manager
Solid Waste Department

SOUTHEASTERN REGIONAL PLANNING & ECONOMIC DEVELOPMENT DISTRICT (SRPEDD)

Honorable Board of Selectmen,

The Southeastern Regional Planning and Economic Development District (SRPEDD) hereby submits its 2009 Annual Report.

The Town of North Attleborough is a member of the Southeastern Regional Planning and Economic Development District. SRPEDD (pronounced sir-ped) is the regional agency serving twenty-seven cities and towns in southeastern Massachusetts dealing with common issues facing our region, such as economic development, growth and land development, transportation, environment and general planning for the future. SRPEDD is governed by a Commission of local mayors, selectmen, planning board members and at large members. We are funded by federal and state grants and local assessments. For 2009, the Town of No. Attleborough paid \$4,384.41 to SRPEDD, based upon an assessment of 16.15 cents per capita.

Local citizens serving at SRPEDD included the following:

- < SRPEDD Commission: Richard Thimot and Joan Marchitto
- < Joint Transportation Planning Group: Mark Hollowell and Mark C. Fisher

Some of SRPEDD's more significant accomplishments during 2009 were:

- SRPEDD launched new programs to assist cities and towns to address the ongoing fiscal crisis. A regional cooperative purchasing program was begun this year with two rounds of bidding for public works related items. Regional groups were also established to explore the potential of regional 911 dispatch services and the possibility of combining other municipal services. This effort was funded under the state's DLTA program.
- Completion and approval of the **Transportation Improvement Program (TIP)**, which sets regional priorities for federal transportation funds, and the **Regional Transportation Plan (RTP)**. The TIP established priorities for federal and state regional targets for highway projects, and transit funds for GATRA and SRTA over the next 3 years.
- **Comprehensive Economic Development Strategy for Southeastern Massachusetts**, a regional economic development strategy, was completed and certified by the U.S. Economic Development Administration, making the region eligible for federal economic development grants from EDA.
- The **Taunton River** was designated by the US National Park Service as a **Wild and Scenic** River in 2009. This designation was the culmination of over a decade of work by SRPEDD and a group of hard working citizens. SRPEDD is also a partner with 9 other organizations in the Taunton River Campaign.
- South Coast Rail remained a major priority in 2009. SRPEDD continued to support the Southeastern Massachusetts Commuter Rail Task Force, which includes representation from SRPEDD municipalities and regional organizations. SRPEDD's work on priority development and priority protection area designations culminated in the release of the Corridor Plan in August. Plans for development around the train stations commenced in 2009 and will continue into 2010.
- SRPEDD continued as the designated fiduciary agent by the Massachusetts Executive Office of Public Safety for the **Southeast Regional Advisory Council for Homeland Security** serving 96 communities in 6 counties in southeastern Massachusetts. The Council has awarded \$23.12 million in federal homeland security funds since 2004.
- SRPEDD conducts a district-wide traffic counting program (including speed surveys and vehicle classification, and 47 intersection turning movement counts) and maintains a computer file of all available traffic count data throughout the region. SRPEDD undertook 125 traffic counts at various locations this past year.

SOUTHEASTERN REGIONAL PLANNING & ECONOMIC DEVELOPMENT DISTRICT (SRPEDD)

- An extensive Geographic Information System (GIS) mapping program is maintained by SRPEDD. Every year new computerized “data layers” are added to the system. In 2009, SRPEDD completed a web-based mapping tool for all cities and towns in the region that will enable them to evaluate sites in the community.
- SRPEDD operates the Southeastern Massachusetts Data Center, providing information to businesses, cities and towns, and individuals.
- In cooperation with UMass Dartmouth, SRPEDD organized the Southeastern Massachusetts Council on Sustainability in 2009, with assistance from the Island Foundation. The broad-based Council is addressing how the region prepares for the future.
- SRPEDD continues to provide planning and support to the two regional transit authorities, SRTA and GATRA, on various efforts including: consumer advisory committees, route evaluations, planning, monitoring services and federal reporting.
- SRPEDD maintains a comprehensive database of all 355 signalized intersections in the region. This includes geometry, traffic volume, crash rate, signal timing and operational characteristics.
- SRPEDD continued its affiliation with the South Eastern Economic Development (SEED) Corporation, which makes loans to small businesses for expansion.

In addition, municipal assistance was provided to the Town of No. Attleborough in the following areas:

- Completed Economic Development Section of Master Plan and Mapping
- Updated Open Space Plan Map Set
- Provided Zoning Map Updates
- Completed Greenspace Map by Town Ownership
- Completed Town Owned Parcel Map (Phase II)
- Completed Route 1 Corridor Rezoning (Phase II)

SRPEDD was created to serve the cities and towns of southeastern Massachusetts. We are governed by elected and appointed officials from all the cities and towns. We look forward to serving you in the future.

Respectfully submitted,

Stephen C. Smith
Executive Director

TOWN ACCOUNTANT

Honorable Board of Selectmen,

In accordance with Chapter 41, section 61, of the Massachusetts General Laws, I hereby submit the Annual Report of the Town Accountant for the fiscal year July 1, 2008 to June 30, 2009.

All invoices and payrolls presented during the fiscal year by the various departments were examined for accuracy and legal compliance prior to submission to the Board of Selectmen for approval and the Treasurer for disbursement of funds.

A Combined Balance Sheet was submitted to the Department of Revenue's Division of Local Services/Bureau of Accounts for review. "Free Cash" as of July 1, 2009 was certified at \$1,271,961; an indicator of favorable budget performance for fiscal year 2009.

The accounting records of the Town are maintained under the Uniform Municipal Accounting System as promulgated by the Director of Accounts. Selected financial statements follow this narrative. An audit of FY2009 activity is being performed by the firm Melanson, Heath & Company, PC. The office is open daily from 8:00 A.M. to 4:00 P.M., for anyone interested in additional information.

I would like to express my thanks to all Town officials and personnel for the cooperation they have extended to myself and to the department. In particular, I wish to acknowledge the extraordinary efforts of my staff. They have maintained a high standard of integrity in performing their various tasks and continue to display an exemplary work ethic on behalf of the citizens of North Attleborough.

Respectfully submitted,

Lisa A. Higgins

TOWN CLERK

Honorable Board of Selectmen,

The Clerk's office became a Passport Application Facility in September 2003. The Public has been enthusiastic in its appreciation for the convenience of a local facility. The number of Passport Applications continued to increase through 2009 due to the State Department requiring a passport to enter the U.S.A. from all countries which, effective in mid-2009, now includes Canada and Mexico. We expect the demand to continue to increase in 2010. The net income to the Town was reduced however because the application fee for the Town was reduced from \$30.00 to \$25.00 per application.

The past year saw a continuation in the utilization of the MUNIS Financial Software System. It has revised the cash collection and posting systems and allowed for 'on-line' budget preparation and expenditures review but continues to be difficult to use in providing reports of financial transactions.

The Clerk's Office continues to use document processing with computer software for the processing of Business Registrations, Dog Licensing, and the recording of Vital Records (Birth, Marriage, and Death certificates) that was implemented and functional three years ago.

The Town Clerk's web site has become a major tool in presenting information to and for the citizens of the Town. Some of the services available on the site include:

- The Town By-Laws have been electronically transcribed and now reflect changes as they are voted by the RTM and as soon as they are approved by the Massachusetts Attorney General's Office.
- The Open meeting Law, Conflict of Interest Law and a Citizen's Guide to Town Meeting are available.
- Proceeding (minutes) of Town Meetings from the Annual Town Meeting of April 2000 through the latest Town Meeting are available on the web site.
- Citizens can also download forms for many functions including Request for Copy of Birth/Death/Marriage Certificate, Passport Application, Business Registration, and Homestead Application.
- The current week's schedule of Meetings of Boards and Committees is available on the site.
- The list of RTM Members and a record of their meeting attendance is updated regularly.
- Each Town Meeting Warrant and the Finance Committee Recommendation Book is available on a timely basis.
- Businesses Registered as 'DBA's in the Town are listed. A link to the Mass. Secretary of State's Corporation Name List has also been provided.
- The list of Accepted Streets and Public Ways.
- Links to Mass. General Laws and CMR's.

The State Legislature introduced new requirements in 2009 requiring that the Town Clerk insure that all Town Officials receive a summary of the Massachusetts Conflict of Interest Laws (MGL Chapter 268A) prior to December 28, 2009, and on an annual basis thereafter. The Clerk must retain the signed acknowledgement of receipt from "All Municipal Employees, Officers, Commission and Board Members, whether elected or appointed". It further requires that by 4/2/2010, and every 2 years thereafter, all existing and new municipal employees must complete the Massachusetts On-Line State Ethics Training program and submit a signed test result document to the Town Clerk. We expect a need for additional filing capacity.

The State Legislature also passed legislation defining 'Possession of 1 ounce or less of marijuana' as a civil rather than a criminal offense and assessing a fine of \$100.00 per offense. The fine is to be collected by the Town Clerk. There was \$ 3,800.00 collected this year.

There was a total of \$ 79,668.00 in fees collected by the office this year. \$ 75,667.50 of these fees remained with the Town, (see detail below). The remaining \$ 4,000.50 came from the fishing and hunting licenses sold on behalf of the Commonwealth for the convenience of our residents, and submitted to the state.

TOWN CLERK

After the section on fees, you will find the attendance records of all Representative Town Meeting members. There were a total of 6 sessions held for the Annual Town Meeting in June, the Special Town Meetings in January, June, September and November, and the Semi-Annual Town Meeting in October.

Later in the Annual Report you can find the proceedings (minutes) for these meetings. The proceedings printed in the Annual Report did not, in the past, include all of the attachments and appendices submitted with the articles, but a complete record of those attachments and appendices was available for inspection in the Town Clerk's Office. Beginning with the Special Town Meeting of November the proceedings will include the attachments submitted with the articles. The Information Technology Department is able to electronically scan the submitted attachments and the selectman's office staff is now including attachments with the Town Meeting Warrants which will allow the Clerk to include them in the proceedings both electronically and in print.

SUPPLEMENT BUDGET REQUEST

BOARD OF HEALTH

To see if the town will vote to amend the FY2009 Board of Health budget, Article 9, Line 511A of the Annual Town Meeting May 2008 (FY2009), by appropriating the sum of \$819.45 to line item 015118-511103, Part Time Asst Inspectors salaries, and to determine whether said sum shall be raised by taxation, transfer of available funds, borrowing or otherwise.

Or to do or act in any manner relative thereto.

Board of Health

PURPOSE AND JUSTIFICATION

The Part Time Inspector's salary made part of the FY2009 budget has been calculated by others based upon 47 instead of 52 weeks per year and is unintentionally "underfunded". Said appropriation will correctly fund the Part Time Inspector's annual salary based upon 52 instead of 47 weeks/year.

FINANCE COMMITTEE VOTE: 6-0

MAJORITY VOTE

FINANCE COMMITTEE RECOMMENDATION: That the Town vote to appropriate the sum of \$819.45 to supplement the Board of Health FY2009 Budget, Article 9, Line 511A, Salaries, of the May 19, 2008, Annual Town Meeting. Said sum to be paid from Free Cash.

Said sum to be transferred from available free cash or any other available funds.

Or to do or act in any manner relative thereto.

Board of Selectmen

See Attached

PURPOSE AND JUSTIFICATION

The increase in rates for usage and fuel charges from the NAED will affect the budgeted amount for fiscal year 2009. The Town Hall uses electricity for both air conditioning and heat. In March of 2008 when the FY 2009

budget was finalized for submittal, the town was paying \$.1188 per kWh. Since July 1, 2008, the town has been paying an average of \$.149 per kWh.

FINANCE COMMITTEE VOTE: 5-0

MAJORITY VOTE

FINANCE COMMITTEE RECOMMENDATION: That consideration of this article be Indefinitely Postponed.

FINANCE COMMITTEE REASON: The Committee would like to wait until a more accurate forecast of actual need can be made, as energy costs have been falling.

The RTM members approved the Finance Committee's recommendation as read.

ARTICLE 7

SUPPLEMENT VETERANS CASH AID

VETERANS

To see if the town will vote to increase Veteran's Services General Expense, Article 9, Line 543B of the Annual Town Meeting in May 2008 (FY 2009) by appropriating the sum of \$35,000.00 to change the amount from \$149,992.00 to \$184,992.00. Said sum to be appropriated from Free Cash or transferred from any available funds.

Or to do or act in any manner relative thereto.

Director of Veterans' Services

PURPOSE AND JUSTIFICATION

The Veterans' Services is experiencing a higher demand for assistance from our veteran population. Much of the assistance is related to the poor economy. Based upon the current enrollment (with no new additions), the appropriation at the Annual Town Meeting will be in deficit without this transfer. The direct payment to the veterans is mandated by state law and if not paid by the town, the amounts are assessed on the cherry sheet at 125%.

Said sum to be appropriated from free cash or by transfer of available funds.

Or to do or act in any manner relative thereto.

Board of Selectmen

PURPOSE AND JUSTIFICATION

The Webster Building located at 262 Broadway is presently in a condition that is dangerous and potentially life threatening to the residents of the town. The building has been the victim of break-ins and vandalism and at this point is unsafe to enter. The request will be used to take the necessary steps (clearing brush, boarding windows, and security fence) to properly secure the area for the safety of the residents of the town.

FINANCE COMMITTEE VOTE: 5-0

MAJORITY VOTE

FINANCE COMMITTEE RECOMMENDATION: That the Town vote to appropriate the sum of \$10,000.00 to be expended under the direction of the Board of Selectmen for the purpose of providing for the safety of the public by securing the vacant property known as the Webster Building located at 262 Broadway. Said sum to be paid from Free Cash.

Or to do or act in any manner relative thereto.

Board of Selectmen

See Attached

PURPOSE AND JUSTIFICATION

The acceptance of this law and the implementation of the occupancy tax will generate revenue for the town in excess of \$100,000.

FINANCE COMMITTEE VOTE: 5-0

MAJORITY VOTE

FINANCE COMMITTEE RECOMMENDATION: That the Town vote to accept Massachusetts General Laws Chapter 64g, Section 3a Room Occupancy Excise and per the authority of the general law by majority vote to set the tax at 4% to be effective July 1, 2009.

FINANCE COMMITTEE REASON: As stated in the purpose and justification.

After much discussion, Agnes Woodbury (P3) made a motion to move the question.

Motion seconded.

Motion carried.

The RTM members defeated the Finance Committee's recommendation as read.

ARTICLE 11 E-RATE APPROPRIATION SCHOOL COMMITTEE

To see if the town will vote to appropriate the sum of \$22,077.66, or any other sum, for the purpose of providing technology and/or telecommunication related supplies, equipment or services to the North Attleborough Public Schools. Said sum to be transferred from the E-Rate Receipts Reserved for Appropriation.

Or to do or act in any manner relative thereto.

School Committee

PURPOSE AND JUSTIFICATION

The School Department has applied for and received federal E-Rate funds. These funds are designed to help schools improve or expand telecommunications and technology, including training for staff and students. The Town receives the funds from various vendors and Town Meeting must then vote to allocate the funds to an article under the jurisdiction of the School Committee.

FINANCE COMMITTEE VOTE: 5-0

MAJORITY VOTE

FINANCE COMMITTEE RECOMMENDATION: That the Town vote to appropriate the sum of \$22,077.66, for the purpose of providing technology and/or telecommunication related supplies, equipment or services to the North Attleborough Public Schools. Said sum to be transferred from the E-Rate Receipts Reserved for Appropriation.

FINANCE COMMITTEE REASON: As stated in the purpose and justification.

The RTM members approved the Finance Committee's recommendation as read.

ARTICLE 12 APPROPRIATE FUNDS FROM SEWER ENTERPRISE BOARD OF PUBLIC WORKS

To see if the town will vote to appropriate \$255,000 from Sewer Enterprise Fund Retained Earnings for the following Sewer Enterprise Capital Items:

\$22,000	Boiler Replacement Sewer Collections Building
\$50,000	Boiler Replacement WWTF Control Building
\$26,000	Sewer Collections Camera Truck Equipment Upgrade
\$45,000	Industrial Pretreatment Program Review Local Limits (NPDES Permit Requirement)
\$38,000	Service Vehicle Replacement for Unit #24
\$38,000	Service Vehicle Replacement for Unit #54
\$27,000	Utility Vehicle for Project Manager /Engineer
\$9,000	Retrofit Sewer Building with efficient water fixtures

including costs, incidental and related to such projects.

Or to do or act in any manner relative thereto.

Board of Public Works

PURPOSE AND JUSTIFICATION

Some items have been requested for several years, but have not been funded due to a lack of certified Retained Earnings within Enterprise Fund. The Sewer Enterprise Fund now has a sufficient amount of Retained Earnings to purchase these items.

**ARTICLE 13 APPROPRIATE FUNDS THROUGH BORROWING
TO REPLACE WATER FILTER MEDIA**

BOARD OF PUBLIC WORKS

To see if the town will vote to appropriate \$225,000, by borrowing (to be repaid in the first instance from Water Enterprise Revenues), pursuant to Chapter 44, Section 8 (7C) of the General Laws or pursuant to any other enabling authority, by transfer from available funds or otherwise, to pay costs of replacing water filter media at both the Whiting Street and Kelley Water Treatment Plants, and for the payment of all other costs incidental and related thereto.

To meet this appropriation, with the exception of item #35, Martin School Replacement, the Treasurer with the approval of the Board of Selectmen is hereby authorized to borrow the sum of \$2,438,500 under and pursuant to the provisions of Chapter 44 Section 7 & 8 of the General Laws, as more particularly set forth above, or pursuant to any other enabling authority, and to issue bonds or notes of the Town therefore; and to meet the appropriation of item #35 Martin School Roof Replacement, the Town hereby appropriates the sum of Eight Hundred Thousand Dollars (\$800,000), to be expended under the direction of the School Building Committee to pay costs of roof repairs to the Joseph W. Martin, Jr., Elementary School, located at 37 Landry Avenue. This proposed repair project would materially extend the useful life of the school and preserve an asset that otherwise is capable of supporting the educational program, for which the Town may be eligible for a school construction grant from the Massachusetts School Building Authority ("MSBA"); that to meet said appropriation the Treasurer, with the approval of the Selectmen, is authorized to borrow said sum under M.G.L. Chapter 44, or any other enabling authority; that the Town acknowledges that the MSBA grant program is a non-entitlement, discretionary program based on need, as determined by the MSBA, and any project costs the Town incurs in excess of any grant approved by and received from the MSBA shall be the sole responsibility of the Town; provided further that any grant that the Town may receive from the MSBA for the Project shall not exceed the lesser of (1) 52.06 percent (%) of eligible, approved project costs, as determined by the MSBA, or (2) the total maximum grant amount determined by the MSBA, and that the amount of borrowing authorized pursuant to this vote shall be reduced by any grant amount set forth in the Project Funding Agreement that may be executed between the Town and the MSBA. No funds shall be borrowed or expended hereunder unless and until the Town shall have entered into a Project Funding Agreement or any similar agreement with the MSBA for the receipt of grant funds in aid of this project.

The mayor shall serve as a member of the school committee in accordance with article 4 of this charter.

SECTION 3-3: APPOINTMENTS BY THE MAYOR

The mayor shall appoint, subject to the review of such appointments by the town council as provided in section 2-10, all town officers, department heads and the members of multiple-member bodies for whom no other method of appointment or selection is provided by the charter, excepting only persons serving under the school committee, and persons serving under the town council. The review by the mayor shall follow the procedures established for suspension and removal in the personnel ordinance. The decision of the mayor shall be final, it being the intention of this provision to vest all authority and to fix all responsibility for such suspension or removal solely in the mayor. Nothing in this section shall be construed to be a bar to any other review as may be provided in any applicable collective bargaining agreement, or by law.

A preliminary election for the purpose of nominating candidates shall be held on the third Tuesday in September in each odd numbered year, provided, however the town clerk may, with the approval of the town council, reschedule such election to the fourth Tuesday to avoid a conflict with any civil or religious holiday. Whenever a special election to fill a vacancy in the office of mayor is to be held, a preliminary election shall be conducted twenty-eight days preceding the date established for such special election.

SECTION 7-2: NON-PARTISAN ELECTIONS

All elections for town offices shall be non-partisan and election ballots shall be printed without any party mark, emblem, or other designation whatsoever.

If two or more persons are to be elected to the same office at such regular election, the several persons, in number equal to twice the number so to be elected, receiving at such preliminary election the highest number of votes for nomination for that office shall be the sole candidates for that office whose names shall be printed on the official ballots.

If the preliminary election results in a tie vote among candidates for nomination receiving the lowest number of votes which, but for said tie vote, would entitle a person receiving the same to have their name printed on the official ballots for the election, all candidates participating in said tie vote shall have their names printed on the official ballots, although in consequence thereof there be printed on such ballots the names of candidates exceeding twice the number to be elected.

(d) *Condition Making Preliminary Unnecessary* - If at the expiration of time for filing statements of candidates to be voted upon at any preliminary election not more than twice as many such statements have been filed with the town clerk for an office as candidates are to be elected to such office, the candidates whose statements have been filed with the town clerk shall be deemed to have been nominated to such office, and their names shall be voted upon for such office at the succeeding general election, and the town clerk shall not print their names on the ballots to be used at said preliminary election and no other nomination to such office shall be made. If in consequence it shall appear that no names are to be printed upon the official ballots to be used in any particular district or districts of the town, no preliminary election shall be held in such district or districts.

Each such district shall be composed of voting precincts established in accordance with general laws. The town council shall from time to time, but at least once in each ten years, review such districts to insure their uniformity in number of inhabitants.

SECTION 7-6: APPLICATION OF STATE GENERAL LAWS

Except as expressly provided in this charter and authorized by law, all town elections shall be governed by the laws of the commonwealth relating to the right to vote, the registration of voters, the nomination of candidates, the conduct of preliminary, general and special elections, the submission of charters, charter amendments and other propositions to the voters, the counting of votes, the recounting of votes, and the determination of results.

SECTION 7-7: PETITIONS TO COUNCIL OR SCHOOL COMMITTEE

The town council or the school committee shall hold a public hearing and act with respect to every petition which is addressed to it, which is signed by one hundred voters, or more, and which seeks the passage of a measure. The hearing shall be held by the town council or the school committee, or, in either case, by a committee or subcommittee thereof, and the action by the town council or the school committee shall be taken not later than three months after the petition is filed with the clerk of the council or the secretary of the school committee as may be appropriate. Hearings on two or more petitions filed under this section may be held on the same date and at the same time and place. The clerk of the council or the secretary of the school committee shall mail notice of the hearing to the ten persons whose names appear first on the petition at least forty-eight hours before the hearing. Notice, by publication in a local newspaper not less than seven nor more than fourteen days prior to the date set for the public hearing shall be at public expense.

SECTION 7-8: CITIZEN INITIATIVE MEASURES

(a) *Commencement* - Initiative procedures shall be started by the filing of a proposed initiative petition with the clerk of the council or the secretary of the school committee, as the case may be. The petition shall be addressed to the town council or to the school committee, shall contain a request for the passage of a particular measure which shall be set forth in full in the petition, and shall be signed by at least two hundred voters provided, however, that at least twenty signatures must be certified from each district. The petition shall be accompanied by an affidavit signed by ten voters and containing their residential addresses stating they will constitute the petitioners committee and be responsible for circulating the petition and filing it in proper form.

(b) *Referral to Town Solicitor* - The clerk of the council or the secretary of the school committee, as the case may be, shall forthwith following receipt of each such proposed petition deliver a copy of the petition to the town

solicitor. The town solicitor shall, within fifteen days following receipt of a copy of the petition, in writing, advise the town council or the school committee, as may be appropriate, whether the measure as proposed may lawfully be proposed by the initiative process and whether, in its present form it may be lawfully adopted by the town council or the school committee. If the opinion of the town solicitor is that the measure is not in proper form the reply shall state the reasons for such opinion, in full. A copy of the opinion of the town solicitor shall also be mailed to the person designated as clerk of the petitioners committee.

Within forty-five days following the date the blank forms are issued by the town clerk the petitions shall be returned and filed with the town clerk signed by at least ten per cent of the total number of voters as of the date of the most recent town election. The signatures on such petitions shall contain the names of at least five percent of the voters in each of the districts into which the town is divided for the purpose of elections. Signatures to an initiative petition need not all be on one paper, but all such papers pertaining to any one measure shall be fastened together and shall be filed as a single instrument, with the endorsement thereon of the name and residence address of the person designated as filing the same. With each signature on the petition there shall also appear the street and number of the residence of each signer. Within ten days following the filing of the petition the board of registrars of voters shall ascertain by what number of voters the petition has been signed, and what percentage that number is of the total number of voters as of the date of the most recent town election. The town clerk shall attach to the petition a certificate showing the results of their examination and shall return the petition to the clerk of the council, or the secretary of the school committee, according to how the petition is addressed. A copy of the board of registrars of voters certificate shall also be mailed to the person designated as clerk of the petitioners committee.

(d) *Action on Petitions* - Within thirty days following the date a petition has been returned to the clerk of the council, or the secretary of the school committee, and after publication in accordance with the provisions of section 3-9(c), the town council or the school committee shall act with respect to each initiative petition by passing it without change, by passing a measure which is stated to be in lieu of the initiative measure, or by rejecting it. The passage of a measure which is in lieu of an initiative measure shall be deemed to be a rejection of the initiative measure. If the town council or the school committee fails to act with respect to any initiative measure which is presented to it within thirty days following the date it is returned to it, the measure shall be deemed to have been rejected on such thirtieth day. If an initiative measure is rejected, the clerk of the council, or the secretary of the school committee, shall promptly give notice of that fact to the person designated as the clerk of the petitioners committee, by certified mail.

(e) *Supplementary Petitions* - Within sixty days following the date an initiative petition has been rejected a supplemental initiative petition may be filed with the clerk of the council or the secretary of the school committee, but only by persons constituting the original petitioners committee. The supplemental initiative petition shall be signed by a number of additional voters which is equal to five percent of the total number of voters as of the date of the most recent town election. If the number of signatures to such supplemental petition is found to be sufficient by the town clerk, the town council shall call a special election to be held on a date fixed by it not less than thirty nor more than ninety days following the date of the certificate of the town clerk that a sufficient number of voters have signed the supplemental initiative petition and shall submit the proposed measure, without alteration, to the voters for determination; provided, however, if any other town election is to be held within one hundred and twenty days following the date of the said certificate, the town council may omit the calling of such special election and cause said question to appear on the election ballot at such approaching election for determination by the voters.

(f) *Publication* - The full text of any initiative measure which is submitted to the voters shall be published in a local newspaper not less than seven nor more than fourteen days preceding the date of the election at which such question is to be voted upon. Additional copies of the full text shall be available for distribution to the public in the office of the town clerk.

The school committee or the town council shall forthwith reconsider its vote on such measure or part thereof, and, if such measure is not rescinded the town council shall provide for the submission of the question for a determination by the voters either at a special election which it may call at its convenience, or within such time as may be requested by the school committee, or at the next regular town election, but pending such submission and determination the effect of such measure shall continue to be suspended.

(b) *Certain Initiative Provisions to Apply*- The petition described in this section shall be termed a referendum petition and insofar as applicable the provisions of section 7-7 shall apply to such referendum petitions, except that the words "measure or part thereof protested against" shall be deemed to replace the word "measure" in said sections wherever it may occur and the word "referendum" shall be deemed to replace the word "initiative" wherever it may occur in said sections. A preliminary election for the purpose of nominating candidates to be elected at such election shall be held on the sixth Tuesday preceding such election. So much of this charter shall become effective as is necessary to conduct such elections. The board of selectmen shall issue the warrants for such elections and the election shall be conducted under the supervision of the election commission.

2. Because the redistricting which will result from the census taken in the year 2010 will not have been completed on the date the first election under this charter is to be held, notwithstanding the provisions of charter section 2-1, all members of the town council shall be elected at-large at such election. The nine persons who receive the highest number of votes shall be declared elected to terms which expire on the first business day in January 2014.

6. Forthwith following the special election the persons elected as mayor, school committee members and town council members shall be sworn to the faithful performance of their duties and shall take up so much of the powers and duties of their offices as are necessary to begin the process of transition from the existing form of government to the new form of government.

7. The members-elect of the town council shall meet, elect transitional officers to serve until its formal organization on the first business day in January 2011, and begin preparation for the transfer of powers to it by the consideration of policies and procedures to govern the conduct of the business of the town council and the formulation of rules by which it will conduct its business, and which will be adopted when the town council formally organizes and takes up its duties on the first business day in January 2011.. Members of the town council shall receive one fourth of the annual salary established for town council members for their service in the transitional period

The mayor shall receive one fourth of the annual salary established for the office of the mayor for service in the transitional period. The provisions of section 3-1 (a) and (e) regarding full time service by the mayor shall not apply during the transitional period.

9. On the first business day of January 2011 the terms of office of the members of the board of selectmen, the town moderator and of the representative town meeting members shall all be terminated, and their offices abolished and on said date the finance committee shall also be terminated. The mayor, town council and school committee shall organize as provided in section 8-10. Each other elected and appointed town officer and employee shall continue to serve in the same office or position unless some other provision is specifically made hereinafter for any particular office or position or until some other provision is made in accordance with the provisions of section 5-1.

10. As the terms of office of the incumbent members of the North Attleborough Housing Authority expire, or as vacancies may otherwise occur in such offices, successors shall be chosen in the manner provided for city governments in section five of chapter one hundred twenty-one B of the General Laws.

(b) As soon as practicable following the special election the persons elected as mayor, as members of the town council and as members of the school committee shall be called together by the town clerk who shall make

arrangements for the organization of the new government generally in conformity with the provisions of section 8-10.

(c) The town council shall proceed forthwith to adopt temporary rules governing the conduct of the meetings of the town council and shall make provision for its full assumption of the powers, duties and responsibilities which will devolve upon it under this charter including, but not limited to the taking of the following steps:

1) It shall provide for a review to be made of all existing by-laws, rules and regulations of the town, with a view to bringing them into conformity with the provisions of this charter.

2) It shall provide for the adoption of permanent rules governing the bringing of matters before the town council for action, the establishment of standing committees and such other related matters as seems necessary and desirable. It shall provide in its rules for the establishment of standing committees to which shall be referred all matters to come before the council.

(d) The person chosen as mayor shall take all steps as may be necessary to be prepared to assume the full duties of the office of mayor on the aforesaid first business day of January. The mayor-elect shall, during the transitional period, for the purpose of gaining a knowledge and understanding of the town's needs in order to be prepared to perform the duties of mayor beginning on the first business day in January 2011, have full power and authority to attend, either in person or through a designated representative, all meetings of all multiple member bodies held during such period including any portions of such meetings held in a closed or, so called, executive session and for such purpose such mayor elect shall be deemed to be an ex officio member of each such multiple member body.

(e) The board of selectmen in office at the time of the special election shall continue to serve in that office until the mayor and a majority of the town council members have been qualified, at which time their offices shall be abolished and the mayor shall be the lawful successor to the board of selectmen. During the transitional period from the date of the special election through to the said last day of December the board of selectmen shall continue to be responsible for the general operation of the government and shall continue to perform all of its powers, duties and functions as though this charter had not been adopted, provided, however, the board of selectmen shall coordinate all of its long-range plans with the person chosen as mayor. All of its powers, duties and responsibilities shall devolve upon the town council.

(g) Except where some other provision is made for a specific office or multiple member body, all town officers and all members of multiple member bodies who have prior to the effective date of this charter been elected by the voters may continue to serve for the balance of the term for which they were elected, but their successors shall be appointed.

(h) The office of town-administrator established by a by-law adopted in 1994 is hereby abolished and the said by-law is hereby repealed effective on the first business day of July 2001. The incumbent of the office of town administrator shall continue to serve in that office until the said first business day of July. Such incumbent may be continued in the service of the municipality beyond said termination date, in some other position, if such person and the mayor so agree

(i) Notwithstanding any other provision of this charter which might be construed to the contrary it is not expected that the first person elected as mayor will be able to begin at once to exercise every power and every

function which devolves upon the office of mayor under this charter. It is recognized that such assumption and change from existing practices will be phased in during the term of office of the first person chosen as mayor.

(j) As the terms of office of the incumbent members of the North Attleborough Housing Authority expire, or as vacancies may otherwise occur in such offices, successors shall be chosen in the manner provided for city governments in section five of chapter one hundred twenty-one B of the General Laws.

For the purpose of classifying positions under the civil service law and rules, North Attleborough, notwithstanding the provisions of a home rule charter establishing its form of government, shall continue to be governed by the provisions of section fifty-two of chapter thirty-one of the General Laws and not by the provisions of section fifty-one of said chapter thirty-one.

Nothing in this act shall be construed to affect the civil service status of any person currently covered by such law and rules.

This act shall take effect upon its passage.

The above draft is provided for guidance and general scope and it may be altered by the General Court to conform to its normal practice, provided the result expected, that future civil service positions will continue to be covered on an individual, case by case basis and not on blanket coverage is achieved.

(l) Until such time as the town is redistricted as provided in MGL chapter fifty-four sections one through ten, as a result of the census taken in the year 2000 one district councillor shall be elected from each of the seven precincts into which the town is now divided and two councillors shall be elected from the town at large.

When the town is being divided into new precincts based on the population as determined by the census taken in the year 2000 such number of precincts shall be established as will enable the appropriate authority to establish, by combining precincts, four equal districts for the purpose of thereafter electing district councillors.

(m) Not later than thirty days following the election at which this charter is ratified the board of selectmen shall appoint seven persons to be a committee to begin a review of the town by-laws for the purpose of preparing such revisions and amendments as may be needed or necessary to bring them into conformity with the provisions of this charter and to fully implement the provisions of this charter. The powers of the office which are associated with auditing, including those described in sections fifty, fifty-one,

fifty-three and fifty-four A of chapter forty-one of the General Laws shall be assigned to the office of town auditor established by section 2-8(a) of the charter. The remaining powers of a town accountant having to do with the regular payment of bills and invoices submitted by municipal agencies including those described in sections fifty-two, fifty-six, fifty-seven and fifty-eight of chapter forty-one shall be exercised by a person in the executive branch under the title town accountant, subject to the control of the chief financial officer.

The annual salary of the town auditor appointed by the city council pursuant to charter section 2-8(a) shall initially be established at twenty-five thousand dollars with a proviso the amount provided for such office shall never be less than one-half the amount provided for the office of finance director. The town council may, in lieu of expending such sum as salary, expend the said sum as a consultant account paying the certified public accountant, or firm of such accountants, retained to provide the annual audit pursuant to section 6-11 from such account to provide periodic oversight services to it throughout the fiscal year.

(o) The mayor and town council shall have authority to adopt measures which clarify, confirm or extend any of the transitional provisions contained in this section in order that the transition of the government from the 'old' form to the 'new' form may be made in the most expeditious and least contentious manner possible. Pending the election of the mayor and town council in September, 2010, the board of selectmen and the representative town meeting shall have a similar power, provided, however, no action shall be taken which is contrary to the spirit or the intent of any permanent provision of the charter.

(p) Following the election at which this charter is ratified by the voters, in the fall of the year 2010, the board of selectmen and its staff shall keep the persons who will serve as the board of license commissioners established by section 5-3 of the charter fully apprised of its activities during the year-end renewing of licenses in order to acquaint the persons who will serve as the members of the said board to these procedures. As soon as practical after the first mayor and council have been elected and taken the oath of office following the town election in September 2010, the mayor shall call together for an initial meeting the members of the board of license commissioners established in section 5-3 of this charter. The board of license commissioners shall assume full authority under chapter one hundred and thirty-eight and chapter one hundred forty of the General Laws on the first business day in January 2011.

(q) Within eighteen months following the adoption of this charter the mayor shall prepare a comprehensive plan of reorganization of the town government administrative structure in the form of a proposed administrative code provision, in accordance with section 5-1 (b) of this charter.

In preparing the proposed administrative code the mayor shall consider the proposed consolidated departments set out below. The mayor may amend, or revise, or delete, any of the draft ordinances provided below to best suit the needs of North Attleborough. (d) *Condition Making Preliminary Unnecessary* - If at the expiration of time for filing statements of candidates to be voted upon at any preliminary election not more than twice as many such statements have been filed with the town clerk for an office as candidates are to be elected to such office, the candidates whose statements have been filed with the town clerk shall be deemed to have been nominated to such office, and their names shall be voted upon for such office at the succeeding general election, and the town clerk shall not print their names on the ballots to be used at said preliminary election and no other nomination to such office shall be made. If the opinion of the town solicitor is that the measure is not in proper form the reply shall state the reasons for such opinion, in full. The school committee or the town council shall forthwith reconsider its vote on such measure or part thereof, and, if such measure is not rescinded the town council shall provide for the submission of the question for a determination by the voters either at a special election which it may call at its convenience, or within such time as may be requested by the school committee, or at the next regular town election, but pending such submission and determination the effect of such measure shall continue to be suspended.

(b) *Certain Initiative Provisions to Apply*- The petition described in this section shall be termed a referendum petition and insofar as applicable the provisions of section 7-7 shall apply to such referendum petitions, except that the words "measure or part thereof protested against" shall be deemed to replace the word "measure" in said sections wherever it may occur and the word "referendum" shall be deemed to replace the word "initiative" wherever it may

All general laws, special laws, town by-laws, town meeting votes, and rules and regulations of or pertaining to North Attleborough that are in force when this charter takes effect, and not specifically or by implication repealed hereby, shall continue in full force and effect until amended or repealed, or rescinded by due course of law, or until they expire by their own limitation.

In any case in which the provisions of this charter are found to be inconsistent with the provisions of any general or special law which would otherwise be applicable, the provisions of this charter shall be deemed to prevail. Every inconsistency between the prior law and this charter shall be decided in favor of this charter.

SECTION 9-2: CONTINUATION OF GOVERNMENT AND ADMINISTRATION

1. At the special election held on September 14, 2010, the voters shall elect a mayor, a town council, two members of the board of electric commissioners and three members of the school committee and no other town officers. A preliminary election for the purpose of nominating candidates to be elected at such election shall be held on the sixth Tuesday preceding such election. So much of this charter shall become effective as is necessary to conduct such elections. The board of selectmen shall issue the warrants for such elections and the election shall be conducted under the supervision of the election commission.

2. Because the redistricting which will result from the census taken in the year 2010 will not have been completed on the date the first election under this charter is to be held, notwithstanding the provisions of charter section 2-1, all members of the town council shall be elected at-large at such election. The nine persons who receive the highest number of votes shall be declared elected to terms which expire on the first business day in January 2014.

3. A mayor shall be elected at the said special election to serve for a term expiring on the first business day in January 2016.

4. At the said special election the board of electric commissioners shall be reorganized, as follows: The term of office of the candidate for electric commissioner who received the highest number of votes at the regular town election held in the spring of 2010 shall be extended to expire on the first business day of January 2014. The candidate who receives the highest number of votes shall be declared elected to a term of office that expires on the first business day in January 2016. The candidate who receives the next highest number of votes shall be declared elected to a term of office that expires on the first business day in January 2014. Thereafter as the terms of office of incumbents expire, successors shall be elected for terms of four years each.

5. At the said special election the school committee shall be reorganized as follows: The terms of office of the three candidates elected as members of the school committee at the regular town election held in the spring of 2010 shall be extended to expire on the first business day of January 2014. At the special election held in September 2010, the terms of all other members of the school committee shall be terminated and three successors shall be elected to the school committee for terms that expire on the first business day in January 2016. Thereafter, as the terms of office expire, three school committee members shall be elected at each biennial town election. The mayor shall serve, by virtue of office, as the seventh member of the school committee.

6. Forthwith following the special election the persons elected as mayor, school committee members and town council members shall be sworn to the faithful performance of their duties and shall take up so much of the powers

and duties of their offices as are necessary to begin the process of transition from the existing form of government to the new form of government.

7. The members-elect of the town council shall meet, elect transitional officers to serve until its formal organization on the first business day in January 2011, and begin preparation for the transfer of powers to it by the consideration of policies and procedures to govern the conduct of the business of the town council and the formulation of rules by which it will conduct its business, and which will be adopted when the town council formally organizes and takes up its duties on the first business day in January 2011.. Members of the town council shall receive one fourth of the annual salary established for town council members for their service in the transitional period

8. The person chosen as mayor-elect shall begin at once to meet regularly with the members of the board of selectmen and for such purpose shall be considered a member ex officio of such body. The person chosen as mayor-elect shall forthwith begin to serve as the seventh member of the school committee. The mayor-elect shall have a right to meet with any town officer, town agency or town employee during regular business hours for the purpose of acquiring and advancing knowledge and information necessary to assume the full powers of mayor on the first business day of January 2011. The mayor-elect shall be responsible for a review of the existing town bylaws to be undertaken to bring them into conformity with the new charter. The mayor shall receive one fourth of the annual salary established for the office of the mayor for service in the transitional period. The provisions of section 3-1 (a) and (e) regarding full time service by the mayor shall not apply during the transitional period.

9. On the first business day of January 2011 the terms of office of the members of the board of selectmen, the town moderator and of the representative town meeting members shall all be terminated, and their offices abolished and on said date the finance committee shall also be terminated. The mayor, town council and school committee shall organize as provided in section 8-10. Each other elected and appointed town officer and employee shall continue to serve in the same office or position unless some other provision is specifically made hereinafter for any particular office or position or until some other provision is made in accordance with the provisions of section 5-1.

10. As the terms of office of the incumbent members of the North Attleborough Housing Authority expire, or as vacancies may otherwise occur in such offices, successors shall be chosen in the manner provided for city governments in section five of chapter one hundred twenty-one B of the General Laws.

(b) As soon as practicable following the special election the persons elected as mayor, as members of the town council and as members of the school committee shall be called together by the town clerk who shall make arrangements for the organization of the new government generally in conformity with the provisions of section 8-10.

(c) The town council shall proceed forthwith to adopt temporary rules governing the conduct of the meetings of the town council and shall make provision for its full assumption of the powers, duties and responsibilities which will devolve upon it under this charter including, but not limited to the taking of the following steps:

1) It shall provide for a review to be made of all existing by-laws, rules and regulations of the town, with a view to bringing them into conformity with the provisions of this charter.

2) It shall provide for the adoption of permanent rules governing the bringing of matters before the town council for action, the establishment of standing committees and such other related matters as seems necessary and desirable. It shall provide in its rules for the establishment of standing committees to which shall be referred all matters to come before the council.

(d) The person chosen as mayor shall take all steps as may be necessary to be prepared to assume the full duties of the office of mayor on the aforesaid first business day of January. The mayor-elect shall, during the transitional period, for the purpose of gaining a knowledge and understanding of the town's needs in order to be prepared to perform the duties of mayor beginning on the first business day in January 2011, have full power and authority to attend, either in person or through a designated representative, all meetings of all multiple member bodies held during such period including any portions of such meetings held in a closed or, so called, executive session and for such purpose such mayor elect shall be deemed to be an ex officio member of each such multiple member body.

(e) The board of selectmen in office at the time of the special election shall continue to serve in that office until the mayor and a majority of the town council members have been qualified, at which time their offices shall be abolished and the mayor shall be the lawful successor to the board of selectmen. During the transitional period from the date of the special election through to the said last day of December the board of selectmen shall continue to be responsible for the general operation of the government and shall continue to perform all of its powers, duties and functions as though this charter had not been adopted, provided, however, the board of selectmen shall coordinate all of its long-range plans with the person chosen as mayor. The person chosen as mayor shall have a right to attend all meetings of the board of selectmen held during such transitional period, including any meetings held in, so-called, executive session and for such purpose the mayor shall be considered to be a member of the board of selectmen during such period.

(f) All legislative business necessary for the orderly conduct of the town during the transitional period shall continue to be conducted by the representative town meeting members in office at the time of the special election until the full powers of the town council become operative on the first business day of January following their election. On the said first day of January, upon the qualification of a majority of the members of the town council, the terms of office of all members of the representative town meeting shall be terminated and the said representative town meeting shall thereafter cease to exist. All of its powers, duties and responsibilities shall devolve upon the town council.

(g) Except where some other provision is made for a specific office or multiple member body, all town officers and all members of multiple member bodies who have prior to the effective date of this charter been elected by the voters may continue to serve for the balance of the term for which they were elected, but their successors shall be appointed.

(h) The office of town-administrator established by a by-law adopted in 1994 is hereby abolished and the said by-law is hereby repealed effective on the first business day of July 2001. The incumbent of the office of town administrator shall continue to serve in that office until the said first business day of July. Such incumbent may be continued in the service of the municipality beyond said termination date, in some other position, if such person and the mayor so agree

(i) Notwithstanding any other provision of this charter which might be construed to the contrary it is not expected that the first person elected as mayor will be able to begin at once to exercise every power and every function which devolves upon the office of mayor under this charter. It is recognized that such assumption and change from existing practices will be phased in during the term of office of the first person chosen as mayor.

(j) As the terms of office of the incumbent members of the North Attleborough Housing Authority expire, or as vacancies may otherwise occur in such offices, successors shall be chosen in the manner provided for city governments in section five of chapter one hundred twenty-one B of the General Laws.

(k) Not later than thirty days following the date of the ratification of this charter by the voters the town clerk shall give to each member of the Massachusetts House and Senate who represent any part of North Attleborough a copy of the vote ratifying this charter and the following petition for the enactment of a special law applicable to North Attleborough in the following form:

AN ACT EXCEPTING NORTH ATTLEBOROUGH FROM CERTAIN PROVISIONS OF
THE CIVIL SERVICE LAW

Be it enacted, etc.

For the purpose of classifying positions under the civil service law and rules, North Attleborough, notwithstanding the provisions of a home rule charter establishing its form of government, shall continue to be governed by the provisions of section fifty-two of chapter thirty-one of the General Laws and not by the provisions of section fifty-one of said chapter thirty-one.

Nothing in this act shall be construed to affect the civil service status of any person currently covered by such law and rules.

This act shall take effect upon its passage.

The above draft is provided for guidance and general scope and it may be altered by the General Court to conform to its normal practice, provided the result expected, that future civil service positions will continue to be covered on an individual, case by case basis and not on blanket coverage is achieved.

(l) Until such time as the town is redistricted as provided in MGL chapter fifty-four sections one through ten, as a result of the census taken in the year 2000 one district councillor shall be elected from each of the seven precincts into which the town is now divided and two councillors shall be elected from the town at large.

When the town is being divided into new precincts based on the population as determined by the census taken in the year 2000 such number of precincts shall be established as will enable the appropriate authority to establish, by combining precincts, four equal districts for the purpose of thereafter electing district councillors.

(m) Not later than thirty days following the election at which this charter is ratified the board of selectmen shall appoint seven persons to be a committee to begin a review of the town by-laws for the purpose of preparing such revisions and amendments as may be needed or necessary to bring them into conformity with the provisions of this charter and to fully implement the provisions of this charter. The committee shall further serve as a general transition committee making recommendations to the appropriate authorities for steps to be taken to smooth or facilitate the transition to the new form of government, including, but not limited to, submission of a proposed budget to cover the expenses of the mayor-elect and council-elect for the period from the date of the town election in 2010 to the first business day in January 2011.

At least two of the persons appointed to the committee shall have been members of the North Attleborough Government Study Committee. The committee shall submit a report, with recommendations, to the mayor-elect and council-elect forthwith following the election held in September, 2010. The review shall be conducted under the supervision of the town counsel, or, by special counsel appointed for that express purpose.

(n) The position of town accountant which has heretofore existed in North Attleborough shall, after the assumption of power and authority by the mayor and council, be divided into two separate and distinct functions. The powers of the office which are associated with auditing, including those described in sections fifty, fifty-one, fifty-three and fifty-four A of chapter forty-one of the General Laws shall be assigned to the office of town auditor established by section 2-8(a) of the charter. The remaining powers of a town accountant having to do with the regular payment of bills and invoices submitted by municipal agencies including those described in sections fifty-two, fifty-six, fifty-seven and fifty-eight of chapter forty-one shall be exercised by a person in the executive branch under the title town accountant, subject to the control of the chief financial officer.

The annual salary of the town auditor appointed by the city council pursuant to charter section 2-8(a) shall initially be established at twenty-five thousand dollars with a proviso the amount provided for such office shall never be less than one-half the amount provided for the office of finance director. The town council may, in lieu of expending such sum as salary, expend the said sum as a consultant account paying the certified public accountant, or firm of such accountants, retained to provide the annual audit pursuant to section 6-11 from such account to provide periodic oversight services to it throughout the fiscal year.

(o) The mayor and town council shall have authority to adopt measures which clarify, confirm or extend any of the transitional provisions contained in this section in order that the transition of the government from the 'old' form to the 'new' form may be made in the most expeditious and least contentious manner possible. Pending the election of the mayor and town council in September, 2010, the board of selectmen and the representative town meeting shall have a similar power, provided, however, no action shall be taken which is contrary to the spirit or the intent of any permanent provision of the charter.

(p) Following the election at which this charter is ratified by the voters, in the fall of the year 2010, the board of selectmen and its staff shall keep the persons who will serve as the board of license commissioners established by

section 5-3 of the charter fully appraised of its activities during the year-end renewing of licenses in order to acquaint the persons who will serve as the members of the said board to these procedures. ARTICLE 2 SUPPLEMENT VETERANS FY10 CASH AID ACCOUNT

VETERANS

To see if the town will vote to increase Veterans' Services General Expenses, Article 9, Line 543B of the Annual Town Meeting in May of 2009 (FY2010) by appropriating the sum of \$125,000.00 to change the amount from \$141,520.06 to \$266,520.06. Said sum to be appropriated from Free Cash or transferred from any available funds.

Or to do or act in any manner relative thereto.

Veterans' Agent

PURPOSE AND JUSTIFICATION

The Veterans' Services is experiencing a higher demand for assistance from our veteran population. Much of the assistance is related to the poor economy. Based upon the current enrollment (with new additions since the start of FY2010) the appropriation at the annual town meeting will be in deficit without this transfer. The town is reimbursed through the cherry sheet for the cash aid disbursed to veterans. The direct payment to the veterans is mandated by state law and if not paid by the town, the amounts are assessed on the cherry sheet at 125%.

FINANCE COMMITTEE VOTE: 6-0

MAJORITY VOTE

FINANCE COMMITTEE RECOMMENDATION: That the Town vote to Supplement the Veterans' Services FY10, General Expense "Veterans Benefit Cash Aid" account by appropriating the sum of \$125,000.00. Said sum to be appropriated from Free Cash.

FINANCE COMMITTEE REASON: As stated in the purpose and justification.

The RTM members approved the Finance Committee's recommendation as read.

The RTM members approved the Finance Committee's recommendation as read.

Or to do or act in any manner relative thereto.

Fire Commissioners

PURPOSE AND JUSTIFICATION

One Rescue has already been approved. This would allow the purchase of a second Rescue. Rescue 1 is 5 years old, and Rescue 2 is 9 years old. Both Rescues have serious maintenance issues.

FINANCE COMMITTEE VOTE: 6-0

2/3 MAJORITY VOTE

FINANCE COMMITTEE RECOMMENDATION: That the Town vote to appropriate the sum of \$50,000 to supplement the amount appropriated under Article 6 (FY10 CIP – Part 3, Item #34 (Ambulance/Rescue)) of the 2009 Annual Town Meeting, in order to pay costs of purchasing an additional Ambulance/Rescue vehicle, including the payment of any and all other costs incidental and related thereto, and that to meet this appropriation, the Town Treasurer, with the approval of the Selectmen, is authorized to borrow said amount under and pursuant to Chapter 44, Section 7(9) of the General Laws, or pursuant to any other enabling authority, and to issue bonds or notes of the Town therefore.

3	\$10,000	Fence Repair	Park & Recreation Department
4	\$ 8,000	Playground/Walkway Cover	Park & Recreation Department

Or to do or act in any manner relative thereto.
Board of Selectmen

FINANCE COMMITTEE VOTE: 6-0

ARTICLE 8 APPROPRIATE FUNDS FOR WWII POOL WELL

PARK COMMISSIONERS

Said money would be under the jurisdiction of the Park & Recreation Department. Said sum will be raised by taxation, transfer of available funds, free cash, or otherwise.

Or to do or act in any manner relative thereto.

Park Commissioners

See Attached

PURPOSE AND JUSTIFICATION

The installation of a well at the World War II Memorial Swimming Pool would allow the Park & Recreation Department to obtain free water after only three years of use. The water would allow the Department to fill the pools and run the building. \$17,240 is the cost for the well and the additional \$2,760 would be for the electrical and tie in costs. Based on current projections, it is anticipated the return on the investment will be under 3 years (summer operating seasons).

FINANCE COMMITTEE VOTE: 6-0

MAJORITY VOTE

FINANCE COMMITTEE RECOMMENDATION: That the Town vote to appropriate the sum of \$20,000 for the installation of a well at the World War II Memorial Swimming Pool. Said money would be under the jurisdiction of the Park & Recreation Department. Said sum to be appropriated from Free Cash.

FINANCE COMMITTEE REASON: As stated in the purpose and justification.

After some discussion, Leonard Pierce (P5) made a motion to move the question.

Motion seconded.

Motion carried.

The RTM members approved the Finance Committee's recommendation as read.

ARTICLE 9 SET FEE OF \$5.00 FOR WRITTEN DEMANDS

TREASURER COLLECTOR

To see if the town will vote to set the fee of \$5.00 for each written demand issued by the collector as part of the tax, as authorized by Massachusetts General Laws Chapter 60, Section 15. Said fee to be added and collected as part of the tax.

Or to do or act in any manner relative thereto.

Treasurer/Collector

PURPOSE AND JUSTIFICATION

Under the new amendment made by outside section 15, M.G.L. c. 60, s. 15 now provides that the demand charge is "not more than \$30". Previously the charge was a flat \$5. However the amendment did not include any language indicating that the collector is to determine the actual amount to be charged within the \$30 limit. MA DOR has advised that the demand fee amount must be set by Town Meeting to fix the amount to be charged.

FINANCE COMMITTEE VOTE: 6-0

MAJORITY VOTE

FINANCE COMMITTEE RECOMMENDATION: That the Town vote to set the fee of \$5.00 for each written demand issued by the collector as part of the tax, as authorized by Massachusetts General Laws Chapter 60, Section 15. Said fee to be added and collected as part of the tax.

Or to do or act in any manner relative thereto.

Board of Selectmen

PURPOSE AND JUSTIFICATION

The acceptance of this law and the implementation of the meals tax will generate revenue for the town in excess of \$130,000 for Fiscal year 2010. The projection for Fiscal Year 2011 will be over \$260,000.00 for a 12 month period.

FINANCE COMMITTEE VOTE: 5-1

PURPOSE AND JUSTIFICATION

This article if passed by the deletion of subsection 2c, 2d, 2e would allow the Board of Selectmen to determine the amount of monitoring necessary in the granting of the licenses to companies that fall into this category. Presently, there are businesses that want to locate in the town but cannot be limited by the restrictions set forth in these subsections.

In addition, the article requests full compliance with state law governing pawnbrokers and all articles subject to Ch. 140 Sec. 70-85, a copy of which is provided.

FINANCE COMMITTEE VOTE: 6-0

MAJORITY VOTE

FINANCE COMMITTEE REASON: As stated in the purpose and justification.

David Manoogian (P8) made a motion to amend Article 11 as follows:

PURPOSE AND JUSTIFICATION

The land which is proposed to be sold (based upon existing codes) prohibits two parcels from any further development as said land is contiguous to the property known as Lot 275 and Plat 37 in North Attleboro and Lot 2 on Plat 1 in Mansfield because at this point the two parcels do not have any frontage on Plain Street.

ARTICLE 9 AMEND ZONING BY-LAW MAP

PETITION

To see if the town will vote to amend the Zoning By-Law Map of the Town of North Attleborough, Massachusetts dated September, 1969 as amended by changing the zoning district of the land described as North Attleborough Assessors Map 23, Lot 225 located at 554 South Washington Street in said North Attleborough, the land described as North Attleborough Assessors Map 23, Lot 63 located at 600 South Washington Street in said North Attleborough, the land described as North Attleborough Assessors Map 23, Lot 91 located at 63 Old Post Road in said North Attleborough and the land described as North Attleborough Assessors Map 23, Lot 64 located at 73 Old Post Road in said North Attleborough from R-20 and C-30 to C-30. A portion of Assessors Map 23 depicting Lots 225, 63, 91 and 64 and their location is attached hereto as Exhibit "B".

Or to do or act in any manner relative thereto.

Petition

See Attached

PURPOSE AND JUSTIFICATION

Lots 225 and 63 have been in commercial use for over 50 years. Lots 91 and 64 were undesirably split by the residential/commercial zone line in 1973. There are two lawsuits pending in the Land Court between the owner of lots 63, 91, and 64 and the Town to determine the location of the zone line on all of these lots. It is the purpose of this Article together with a permanent deed restriction to settle the Land Court cases by including all of the four lots in the C-30 district and to protect the residential neighborhood on Old Post Road with no access and a landscaped screening buffer along Old Post Road on lots 63, 91 and 64.

FINANCE COMMITTEE VOTE: 5-0-1

2/3 MAJORITY VOTE

FINANCE COMMITTEE RECOMMENDATION: That the town vote to amend the Zoning By-Law Map of the Town of North Attleborough, Massachusetts dated September, 1969 as amended by changing the zoning district of the land described as North Attleborough Assessors Map 23, Lot 225 located at 554 South Washington Street in said North Attleborough, the land described as North Attleborough Assessors Map 23,

Lot 63 located at 600 South Washington Street in said North Attleborough, the land described as North Attleborough Assessors Map 23, Lot 91 located at 63 Old Post Road in said North Attleborough and the land described as North Attleborough Assessors Map 23, Lot 64 located at 73 Old Post Road in said North Attleborough from R-20 and C-30 to C-30. A portion of Assessors Map 23 depicting Lots 225, 63, 91 and 64 and their location is attached hereto as Exhibit "B".

FINANCE COMMITTEE REASON: As stated in the purpose and justification.

The RTM members, by a vote greater than the 2/3 required, as declared obvious by the Moderator, approved the Finance Committee's recommendation as read.

ARTICLE 10 ZONING BY-LAW DEFINITION CHANGE / SIGN, ANIMATED PLANNING BOARD

To see if the town will vote to amend the Zoning By-Laws, Section IX, B. Selected Words and Terms, by deleting in its entirety the existing definition and replacing it with the following definition to read as follows:

Sign, Animated: A sign which includes flashing, action, motion and non-motion whether electronic action, mechanical action, or computer generated color or message change by way of pre-arranged electronic, mechanical, or computer means. Signs that use alternative means of power including but not limited to solar and wind are considered electric.

Or to do or act in any manner relative thereto.

Planning Board

PURPOSE AND JUSTIFICATION

In the Zoning By-Law, Section VI Supplementary Regulations, G. Signs, 2. General Sign Regulations, d, refers to animated signs and that they are prohibited. However, the existing definition is convoluted and can be easily manipulated. By clarifying this, the Zoning Enforcement Agent will be able to clearly apply the Sign Bylaws and will be consistent with the intent of the Bylaw.

FINANCE COMMITTEE VOTE: 6-0

MAJORITY VOTE

FINANCE COMMITTEE RECOMMENDATION: That consideration of this article be indefinitely postponed.

FINANCE COMMITTEE REASON: At the time of voting the Planning Board hadn't yet had their public meeting on these articles. The Committee felt that it was important to see what the public's input was prior to making a recommendation.

After discussion on the article David Manoogian (P8) made a motion to Move The Question.

Motion seconded.

Motion carried.

The RTM members approved the Finance Committee's recommendation as read.

ARTICLE 11 ZONING BY-LAW DEFINITION CHANGE SIGN, CHANGEABLE

PLANNING BOARD

Sign, Changeable. A sign whose informational content can be changed or altered by manual or electric, electro-mechanical or electronic means. Changeable signs include the following types:

1. **Manually Activated:** signs whose alphabetic, picto-graphic, or symbolic informational content can be changed or altered by manual means.

TOWN COUNSEL

Honorable Board of Selectmen,

The Annual Report of the Office of Town Counsel for 2009 is hereby respectfully submitted.

There were several matters which were subject of litigation and were resolved prior to trial. These matters were resolved after many hours of negotiations and with the sole purpose of achieving that which would be in the best interest of the Inhabitants of North Attleborough.

The following are a few cases which were concluded this year:

1. EJB Trust Attleboro, LLC v. Town of North Attleborough; in which the plaintiff, a local business, was disputing the zoning line separating Residential from Commercial of his property. This was resolved by the Plaintiff offering a zoning Article to Town Meeting changing the zone. It was recommended by the Planning Board and adopted by Town Meeting.
2. Town of North Attleborough Planning Board v. Cedar Ridge Developers, Inc.; The Town as Plaintiff brought an action in Bristol County Superior Court for the forfeiture of a cash bond posted by a developer who had failed to comply with the terms and conditions of the approved subdivision. The amount forfeited was approximately \$156,000.00.

The Office of Town Counsel rendered in excess of fifty written opinions to various boards and departments in addition to his attendance at Town Meetings and Municipal Hearings, as requested.

Respectfully submitted,

Roger M. Ferris, Town Counsel

TRAFFIC STUDY COMMITTEE

Honorable Board of Selectmen,

The Annual Report of the Traffic Study Committee for the calendar year ending December 31, 2009 is hereby respectfully submitted.

Members of the Traffic Study Committee are appointed by the Board of Selectmen and serve in voluntary capacities for terms of one year. The committee is an advisory body to the Board of Selectmen regarding traffic-type situations within the Town of North Attleborough. The majority of the issues that the committee reviews are those referred to us by the Office of the Board of Selectmen from Action Needed Reports submitted to their office.

When an item is placed on the Traffic Study Committee's agenda, the complainant is invited to attend the meeting to provide firsthand knowledge of the situation in an attempt to clarify the concern. Frequently, the issue is speed and/or signage related. It is often necessary for members to check sites to see the circumstances prior to the committee making a recommendation to the Selectmen. The Police Department's speed and traffic counters are frequently used as well.

The committee meets on an as-needed basis and in 2009 met four times in the Town Hall Lower Level Conference Room. Members of the committee made four recommendations resulting in the scheduling of one Public Hearing before the Board of Selectmen.

The Traffic Study Committee would like to remind the townspeople of its availability and also of the accessibility of Action Needed Reports which are available on the Selectmen's page of the Town Website, www.north-attleboro.ma.us or at the Selectmen's office at Town Hall.

Respectfully submitted,

Traffic Study Committee,

TREASURER – TAX COLLECTOR

To the Honorable Board of Selectmen and the citizens of North Attleborough:
The office of the Treasurer – Tax Collector respectfully submits the Annual Report for the fiscal year ending June 30, 2009.

Tax Collector's Office

The tax bill volumes for fiscal year 2009 were consistent with fiscal year 2008. The real estate and personal property tax receivables for 2009 totaled \$38,085,944. The Supplemental Tax commitment was \$11,698.94, which is a decrease of approximately 60% from FY 2008. The Betterments and Utility Liens that were committed and billed for FY 2009 totaled \$435,924 compared to FY 2008 at \$246,254.

The net Tax Collection rate (excluding Overlay Reserve) for FY 2009 was at 100.14%. With the mortgage crisis of 2008 we have seen more mortgage companies and banks step in and assist homeowners with refinancing higher interest rate mortgages and ensure real estate taxes are paid, by requiring escrow tax accounts. We continue to work with homeowners in developing realistic payment arrangements for those delinquent accounts in order to avoid a tax taking. We continue to offer Online Bill Pay to our residents, and we have seen the positive affects of allowing residents to pay their taxes 24 hours a day utilizing their computer. We continue to partner with the Tax Service Bureaus and have added additional service bureaus to the distribution for the submission of the monthly delinquent tax files. We have developed a relationship and are in constant communication with these Service Bureaus on specific delinquent accounts. This has enabled banks and mortgage companies to keep a closer watch on accounts that become past due, and react in a timely manner.

The tax title receivable balance as of June 30, 2009, was at \$168,287.49 which is a decrease of 11.22% from the previous year. We were successful in collecting \$120,338 in tax title receipts and redeemed 31 tax takings.

In an effort to meet the burden of the decrease in the departmental budgets for fiscal year 2010, the Tax Collector's office will implement mailing tax bills to residents only two (2) times per year. Even though taxes are still due on a quarterly basis this measure will reduce costs of postage and printing for the Town, for an estimated savings of \$11,000.

Treasurer's Office

The growing stresses and the financial concerns throughout the financial systems came to a head in the first quarter of 2009, resulting in unprecedented declines in the equity and housing markets, which lead to more major financial institutions going out of business. Other results included the flight to safety for government backed securities of all types, especially Treasuries, and Government Agencies, which accelerated to what could be described as panic buying of these securities, which brought yields down to the lowest levels in half a century. The decline in interest rates continued and investment income came in at 46.3% of the budgeted amount. The average general fund interest rate was extremely low at .57%, which can be attributed to collateralizing all accounts held by the Town over and above FDIC depository insurance. This prudent measure was to ensure all Town funds were secure. On a positive note, for existing owners of always safe Government securities, extraordinary returns resulted in producing capital gains not typically associated with staid U.S. Government Securities. North Attleborough's fixed holdings, for investments other than General Fund investments, having always been firmly positioned in the U.S. Government Securities market produced extraordinary total returns for the third year in a row.

The Town continues to be active in the credit markets, with \$8,714,413 in authorized, but yet to be issued debt. On June 30, 2009 the Town issued General Obligation Bonds in the amount of \$4,468,000. With this recent issuance of bonds the Town went through a credit rating and was upgraded by Standard & Poor's to AA-. The AA- rating reflects Standard & Poor's review of the Town.

The reports on the following pages are consistent of what is contained in the Annual Report for the Treasurer – Tax Collector's office to include the financial statements of the Town's cash, debt, investments and employee wages.

It has been a pleasure and an honor to serve the Town departments, and the citizens of North Attleborough.

Respectfully submitted,
Diana H. Asanza, Treasurer – Tax Collector

The School Committee conducts its regularly scheduled meetings on the third Wednesday of each month at 7:00 PM in the Conference Room at the school. Sub Committee meetings are scheduled as needed.

Two major evaluations took place during the last school year:

In the fall, a team of twenty eight evaluators, representing vocational technical schools in Connecticut, Massachusetts, Maine, and Vermont conducted an on-site visit on behalf of the New England Association of Schools and Colleges (NEASC) for the purpose of re-accreditation. The visiting team reviewed our Self-Study, which had been completed previously, and conducted interviews with faculty, administration, students, and staff. Tri-County has been accredited by NEASC as a result of this visit and the visiting team was highly complimentary in its Decennial Report as proven by the following quote: "The staff, students, administration, school committee and community of the Tri-County Regional Vocational Technical High School have every reason to be proud of their school. The obvious concern and dedication to the needs of each individual student is evident in every aspect of the educational program. Resources are maximally utilized in providing high quality technical/academic and support programs."

In the spring of 2009, the Department of Elementary and Secondary Education completed a Mid-cycle Review. This review monitored selected special education criteria to determine compliance with special education laws and regulations. The process included a review of records, examination of documentation, staff interviews, and classroom observations. Tri-County was found to be in compliance with all of the criteria monitored through this review.

In September 2009, Tri-County will begin a new vocational program, Construction Craft Laborers. The focus of this program is to train workers in the construction field, specifically large scale building projects, such as bridges and tunnels. The addition of the Construction Craft Laborers Program will bring to seventeen the number of secondary vocational programs offered at Tri-County.

Graduation

One hundred ninety nine students graduated in a notable afternoon ceremony on June 7, 2009. Superintendent-Director Barbara A. Renzoni, presided over the ceremony while Dan Maclean, an officer with the Franklin Police Department and head football coach at Tri-County, delivered the welcoming address to more than 1,200 guests. Jean Mallon, Director of Guidance, presented scholarships and awards totaling \$66,500 to deserving seniors.

Guidance & Special Education Services

In September 2008, Tri-County welcomed 916 students to the new school year. The respective number of students from member towns is as follows: Franklin 150, Medfield 15, Medway 67, Millis 53, Norfolk 34, North Attleboro 254, Plainville 82, Seekonk 56, Sherborn 1, Walpole 69, and Wrentham 81. Also, 54 students were enrolled from out-of-district towns.

During the 2008-2009 school year the Guidance Department continued its programs to provide information to students, parents, sending schools and district communities. The Department provided counseling for students in career pathways and post-secondary education. Safe and Drug Free presentations were offered to students school-wide. The Guidance Department, with the assistance of personnel from the Massachusetts Educational Financing Authority (MEFA), presented programs on college preparation. Tri-County hosted Career Days for over 2,500 Grade 8 students from the Regional District.

Guidance services include the development of a 4-year career plan for students in grades 9 through 12. The career plans are reviewed with parents at the annual parent-student-guidance counselor conference. College planning is

enhanced using an electronic planning platform which can be accessed by parents, students, and counselors. Additional college planning information is available on the school website.

Academics

In an effort to ensure that an increasing number of students complete the state recommended academic core curriculum, World History has become the required senior social studies course, with Psychology and Street Law remaining as elective courses.

Collaboration between the English and Social Studies Departments has yielded an opportunity for integration in the senior curriculum (World Literature and World History) via an Honors Humanities course. Teachers developed common content, projects and ancillary materials; the course runs in three consecutive periods, allowing maximum focus.

With the Spring 2008 MCAS mathematics results indicating a significant increase in the percentage of students achieving Proficient or Advanced scores, the Math Department introduced a two-part Algebra II course, providing a means for all students to finish at least Algebra II by graduation, as an additional means of completing the recommended academic core curriculum

Having received the HSTW (High Schools That Work) Pacesetter designation, effective until 2011, Tri-County has been invited to deliver a presentation on the school's implementation of HSTW initiatives at the Atlanta Summer Conference, July 7-11. School staff will also offer presentations on Active Algebra and Response to Intervention.

As a means of preparing for the Senior Project, with successful completion of all components now a graduation requirement, students in grades 9 and 10 English classes complete a documented research paper, as well as a limited shop process demonstration in Grade 10, also in English class. Tri-County students continued to excel in competitive academic writing and speaking events, capturing four local awards, the District Five (Norfolk County) top award, and the second place \$1500 scholarship in the state Voice of Democracy essay contest.

The HSTW Curriculum Focus Committee has recommended that, beginning with the Class of 2012, all students be required to pass four years of Social Studies. The HSTW Site Committee, the administration and the School Committee subsequently approved the new requirement. In addition, the Guidance Focus Committee proposed that the Library be open for early morning computer use, to accommodate students whose at-home Internet access has been limited by economic factors. Implementation of this service began in November, 2008.

With three additional English teachers receiving professional development in AP courses, enrollment in AP Literature/Composition for the 2009-2010 school year has doubled. In addition, course requests for senior Honors English (besides the Humanities course) have been sufficient to resume a separate Honors English course in grade 12. Likewise, requests and recommendations for upper level senior mathematics courses have sufficed to resume the offering of Pre-Calculus and Intro to Calculus in the senior year in addition to AP Calculus, whose numbers will also double for the 2009-2010 year.

In December, 2008, the BioTeach staff observation of classroom projects utilizing supplies and equipment from the BioTeach grant yielded more than favorable impressions of the science program. As a result, Tri-County should anticipate the receipt of the full allowable \$1,000 for year two participation in the program.

With a NEASC (New England Association of Schools and Colleges) decennial accreditation visit scheduled for October 2008, the focus of the Integrated Summer Reading assignment centered on the three-fold mission of the school as a means of heightening student awareness of the school's mission. After reading *The Glass Castle* students in grades 10-12 were asked to align their responses to the book with one or more aspects of the school's mission. Completion of the project improved significantly from the previous (initial) year's project in all grades.

Vocational/Technical Programs

Students in the Vocational/Technical Programs experienced many successes, both school wide, and in their individual career areas. The grade 11 students from every vocational area participated in the 10-hour OSHA training program in March. The training included 2 full days of interactive, specialized instruction in construction and general industry health and safety standards. All students passed the required exam and received a 10-hour

OSHA green card. Also, all students in grades 9 through 12 collected best works, both vocational and academic, letters of recommendation, awards and certificates, and resumes and cover letters to continue building their professional portfolios. Finally, Tri-County students again achieved success at the State SkillsUSA Competition. In fact, a student from CIS competing in the Computer Programming competition was awarded 3rd place at the National SkillsUSA Competition held in June, a carpentry student was awarded 8th place in Cabinetmaking, and a student in Graphic Communications was awarded 19th place. A student in the post secondary Practical Nursing Program was awarded 6th place in Job Skill Demonstration.

Successes in Individual Vocational/Technical Areas

Collision Repair/Auto Technology: Students in the Collision Repair Shop continued to serve the needs of the community and the Tri-County School District by repairing vehicles under the supervision of their instructors. Auto Technology was one of the most popular vocational programs among grade 9 students this past year. Students in this shop repair, maintain, and service the Tri-County school vehicles as well as those of the public sector and residents from the Tri-County RVTHS 11 town district. Both Collision Repair and Auto Technology continue to be ASE Certified from the National Automotive Technicians Education Foundation. This nationally recognized certification is considered to be the highest achievement known in the Automotive Industry.

Carpentry: The Carpentry students were busy this past year working on three outside projects. The first project was to complete building the Field House at Medfield High School. The second project completed by our Carpentry students was the construction of a roof training structure for our Photovoltaic PV solar panels. The training structure is utilized by both high school students and Continuing Education students to prepare for careers in PV solar panel installation. The Carpentry students also assisted in the construction of a garage located at Tri-County RVTHS.

Computer Information Systems: Students in our CIS program continued to successfully pass certification tests in MOS, IC and A+. Tri-County RVTHS became a Prometric Testing Center this past school year. Our students are now able to take their CISCO certification exams on the Tri-County campus.

Cosmetology: This program continues to engage the largest number of students. Students in grades 11 and 12 operate a full service salon including hair and nail service to members of the Tri-County community. Many senior citizen groups enjoy the Cosmetology services offered by these talented students. In fact, on two occasions, the students traveled to senior centers to provide nail care services to the clients. Students in grade 9 were visited by male cosmetologists during their exploratory in order to introduce students to the many career pathways for males within the beauty industry. All students who sat for the Massachusetts Board of Cosmetology exam passed and are now employed in area salons.

Culinary Arts: Gerry's Place Restaurant and Bake Shop is open to the public for lunch during the school year. The take-out service continues to be a welcome addition. Tri-County staff takes advantage of this service, which allows the students to experience another aspect of the restaurant industry. Students in the Culinary Arts program achieve Serve Safe Certification as well as the standards set forth by the American Culinary Foundation. Students began a partnership with the Uno Restaurant this past year with a field trip to the local Uno Restaurant and several visits from the Uno management team.

Early Childhood Careers: Both the Preschool Program and Toddler Program continue to thrive. The ECC Program is recognized by the National Association of Young Children as one offering high quality education and care for young children. The ECC Program received a \$5000.00 Lowe's Grant in order to create a "natural" outdoor playground for the children enrolled in the preschool program. Students in the program continue to pursue careers in the education field by obtaining positions at local full day private centers immediately upon graduation or attending a four year college in order to teach in public schools.

Electrical: Students in the Electrical Shop gain experience in simulated residential and industrial application as well as live work in the Tri-County school building. The students in our Electrical Program worked with the Tri-County Carpentry students in the Medfield High School field house construction by completing the wiring for electricity and lighting. They were also busy wiring for our PV solar panel installation training structure and also assisted the instructors in connecting the inverter system for the structure. The Electrical students were introduced to a unit on photovoltaic PV systems during their related instruction. Students are preparing for the State Journeymen license examination as they successfully complete both the theoretical and shop aspects of the program.

Electronics: Students in the Electronics Program have received much support from a major local computer company this past year through obtaining several Cooperative Education positions with the company, which have led to employment after graduation. Many of our Electronics students chose to pursue higher education in the ever-evolving technology field.

Engineering Technology: The Engineering Technology Program is now in its fourth year. The first graduating class of engineering students has all been accepted to colleges in their pursuit of engineering degrees. In fact one graduate will be attending West Point in September. The program continues to enjoy Project Lead the Way Certification. Subject matter includes significant course work in mathematics, physics, and other sciences. This past year, the Grade 11 engineering students collaborated with both automotive students and Early Childhood Careers students in separate integrated projects.

Facilities Management: Students in the Facilities Program are gaining skill in a variety of construction areas. Students may achieve welding certification while enrolled in the Facilities Program. Students also gain experience by contributing to the maintenance of Tri-County's grounds. Facilities Management students fabricated the supports for the safety railings on the PV solar panel installation structure at Tri-County this past year.

Graphic Communications: Students in the Graphic Communications Program are gaining experience as they provide design and printing services for Tri-County as well as for non-profit organizations in the surrounding communities. The students also worked with their teachers this past year to develop a DVD of the Tri-County community. State-of-the-art technology in the graphics field is used to enable students to pursue many careers upon graduation from Tri-County.

HVAC&R: Students are trained in all aspects of heating, cooling and ventilation of both residential and commercial buildings. Graduates from this shop are well prepared for high paying employment and further education. The HVAC students installed several split duct air conditioning units in Tri-County this past school year.

Medical Careers: Medical Careers students continue to have 100% success in passing the Certified Nursing Assistant state examination at the end of their junior year. They also receive Home Health Aide certification at the end of the senior year. All students in the program are trained in medical office technology skills as well as in basic healthcare knowledge. The skills gained will enable them to pursue many health careers upon graduation.

Plumbing: The Plumbing Program continued to grow this past year. Students were trained in the newest technology and plumbing materials and worked on projects in the school as well as out in the workforce through the Cooperative Education Program. An articulation agreement with the Plumbers and Pipe Fitters Local Union 4 will allow Plumbing students an opportunity for advanced placement in the apprenticeship training program.

Dental Assisting: The Dental Assisting Program is now in its second year with grades 9 and 10 students practicing the skills necessary for a career in the dental field. Active participation by local representation of the dental field has led to a vibrant advisory board and generous support of the Massachusetts Dental Society. The students in Dental Assisting created effective teaching demonstrations for the preschool children in the Early Childhood program this past year. Students are looking forward to beginning their Clinical Practicum in their junior year.

Continuing Education

The Continuing Education Department at Tri-County offers both day and evening courses. The day program includes two Post-secondary programs, Cosmetology and Practical Nursing. The entire evening program consists of additional Cosmetology and Practical Nursing programs as well as 60 to 70 other course offerings. These programs serviced over 1600 students in the 2009 fiscal year. While the majority of adults served are from within the school district, we have students attending from as far away as Orange, Billerica, Cambridge and New Bedford.

Adult Day Cosmetology: Besides graduating 13 students in 2009, the highlight of the program was the receipt of four gold medals at this year's SkillsUSA state competition. The Adult Day Cosmetology program is a full-time program that follows the high school calendar and runs from September to June. All phases of cosmetology are introduced the first half of the year. The student learns hairstyling, cutting, permanent waves, coloring, manicuring and skin care. This program provides students with the mandated 1,000 hours of schooling and prepares them to

pass the State Board of Cosmetology's licensing exam. Registration for the program begins in the spring and details are available by contacting the Continuing Education office at Tri-County.

Evening Cosmetology: This year we graduated 8 students from the Evening Cosmetology program. The program's curriculum mirrors the day program in content but is spread out in more sessions due to the limited hours at night. This program also provides its students with the 1000 mandated hours and prepares the students to pass the licensing exam. This is still a one-year program that begins in September and runs until the end of June. Classes are held Monday thru Friday evenings from 5:00 to 10:30 p.m.

Adult Day Practical Nursing: Graduating 29 students in 2009 the Practical Nursing program continues to flourish. The Nursing program also had a very successful year competing in SkillsUSA, receiving one gold, six silver and one bronze medals at the state level. This is a full-time day program which follows the high school calendar as classes are held from September through June. The Practical Nursing program at Tri-County is designed to prepare graduates for the National Council Licensure Examination for Practical Nurses (NCLEX-PN), which tests for entry-level competency. Successful completion of this examination permits practice as a Licensed Practical Nurse (LPN). Registration for this program requires that prospective students take the TEAS (Test of Essential Academic Skills) exam. The pre-admission tests are administered from October to January. Details are available by contacting the Practical Nursing office at Tri-County.

Adult Evening Practical Nursing: The evening Practical Nursing program is a part-time, two-year program that is held on Tuesdays, Wednesdays and Thursdays, 4:00-9:30 p.m. After successful completion of the course, the student will be eligible to sit for the NCLEX-PN examination for licensure. Successful completion of this examination permits practice as a Licensed Practical Nurse. The program graduated eight students in 2009, the very first graduating class from our evening Practical Nursing program, marking another significant milestone in Tri-County's history.

Evening Adult Program: The evening Adult Education program at Tri-County consists of approximately 60-70 courses which are offered in the fall and spring semesters. Registration for fall courses takes place during August and September. Registration for spring courses takes place in January and February. Continuing Education course information can be found in brochures available to the public via direct mail and local newspapers. The evening program information is also included on the Tri-County RVTHS website at <http://www.tri-county.tc/continuingeducation> or by calling the Continuing Education office.

Student Activities

National Honor Society: The Peter H. Rickard Chapter of Tri-County is comprised of 12 seniors and 13 juniors. During the school year 2008-2009, these students participated in many fund-raising and community service activities both in and out of school. During the school year the National Honor Society was involved with "Cradles to Crayons" program in Quincy. They visited the center twice and collected items that they delivered in June.

On May 4, 2009, the National Honor Society hosted a "Leadership Breakfast" honoring Tri-County students who have served in various leadership roles, both elected and appointed during the school year. The school year ended with the organization and presentation of Tri-County's eighteenth Honors Night held in the Kenneth Custy Gymnasium.

SkillsUSA: A national professional organization for career and technical students, SkillsUSA provides quality educational experience in leadership, teamwork, citizenship and character development programs and activities, as well as opportunities for awards, tools, and scholarships through local, district, state, national and even international competitions in trade, leadership and demonstrational programs.

Tri-County's sophomores, juniors and seniors participate in the "In House" competition over two days in March, competing in their individual vocational and technical programs. Tri-County sent 154 students from these competitions to the District Competitions. Forty-nine students qualified to advance to the State Competitions. At this level, Tri-County received eight Gold, seven Silver and ten Bronze. The Gold Medalists participated in the National Competition, competing with students from 50 states. One student received a national bronze medal.

Student Government

Student Advisory Committee: The student body elected seven students to membership on the Student Advisory Committee. The principal appointed one of these elected members to report student concerns and activities to the Tri-County School Committee each month; three students from this group sit on the Tri-County School Council; and three serve on the High Schools That Work Site Committee. These seven students also serve as ex officio members of the Student Council. The student body elected two students to represent Tri-County on the State Student Advisory Committee. These students met once a month at Assabet Valley Regional Technical High School with students from other schools in the Central Massachusetts region.

Class Officers: The sophomore, junior and senior classes elected a President, Vice-President, Secretary, and Treasurer for their respective classes for next year. The incoming freshman class elected officers in January after the last exploratory. Under supervision of the Class Advisors, officers scheduled, organized and conducted monthly after-school meetings to plan activities which included the Freshman-Sophomore Semi-Formal, the Junior/Senior Prom, sophomore trip to Canobie Lake Park and the Senior Week activities. The class officers heard and communicated students' ideas to the Student Advisory Committee, and also served as officio members of the Student Council.

Student Council: Each class elected four representatives to the Student Council. These students, along with the class officers and Student Advisory Committee members, served as the overall student governing body committed to the principle of student government. The group met weekly after school, and advised the faculty. The Student Council served as a liaison between the student body and the school administration. They provided a means for student statement in school affairs. Under the supervision of the Student Council Advisors, this group was also accountable for conducting and ensuring fair elections for Class Officers, the Student Advisory Committee, and the at-large Student Council membership. The Student Council served as leaders for the student body, sponsoring and organizing social activities which included Freshman Orientation in August, followed by the Friday night activities for the Kick-Off Weekend the first week the students returned to school in September. Student Council students assisted the Athletic Director in planning Homecoming in November and sponsored the many Spirit Week activities. In addition, the Student Council planned and coordinated civic, social, fundraising, and community service activities and acknowledged administrators and teachers throughout the school year. One of their accomplishments was coordinating a Blood Drive that successfully collected 50 units of blood, a school record.

Extra Curricular Activities

There are 9 extra-curricular activities at Tri-County. These clubs provided students with after school opportunities to enjoy, perform and compete. Tri-County worked to provide a myriad of opportunities for all students during the extended week day and many weekends.

Summary

Tri-County Regional Vocational Technical High School is proud to provide a quality career education to the residents of its eleven member towns. Tri-County students are highly visible in our sending districts in a variety of roles. They serve as interns, summer employees, and cooperative education students and have completed a number of outside projects within our member communities. Each of these experiences assists our students in demonstrating what they have learned in their vocational programs.

Vocational training is only part of our success. Academic preparation is noted through the growing number of scholarships acquired from local associations and organizations, as well as the increased number of students now attending college upon graduation. Tri-County continues to prepare students as good citizens and this is witnessed through the actions of individual accomplishment of students through the mandated community service graduation requirement, as well as community service projects organized through a number of extra-curricular organizations. Two major school-wide projects this year were the Annual Holiday Gift Drive and a new project, Cradles to Crayons.

Tri-County is your town's vocational technical school. Our goal is to prepare our students to be good citizens who serve their own community. Many of the programs offered at Tri-County are available to the public and our service programs are open to residents. Our facilities continue to be available to town administrators for meeting use.

Projects for member towns which were completed by Tri-County students included: *Franklin*: construction of display cases and shelving for the Historical Society; repair and refinishing of conference tables at the Franklin Public Library; printing of corridor passes for Horace Mann Middle School; and painting of a trailer for the Police Department. *Medfield*: building and electrical wiring of a press box and printing of business cards and stationery. *Medway*: removal of steel bleachers from the football field. *Millis*: making blankets for the Police Department. *Norfolk*: printing of emergency response plans for the School Department, and building a shed for the Friends of Norfolk Library. *North Attleboro*: repair of two machines for the Electric Department. *Plainville*: printing of academic planners and notepads for teachers and repair of a Fire Department vehicle. *Sherborn*: building and electrical wiring of a storage shed. *Walpole*: wiring of the Department of Public Works garage. *Wrentham*: printing of various stationery and forms for the Police Department and repair of a police vehicle.

Tri-County students also completed many projects located at Tri-County including: Building and electrical wiring of a new storage building; installation of new lighting in the Early Childhood Careers Shop and the Boys' Locker Room; installation of new split air conditioning units in the Conference Room and Technology Center; installation of a new water treatment system for chilled water and heating system; installation of a safety drench system in the Auto Collisions Shop; construction and electrical wiring of a solar photovoltaic training structure; construction of walls in both the HVAC and Electrical Shops; and completion of a variety of landscaping projects.

Tri-County lives by its mission statement, specifically in the charge to prepare tomorrow's workforce; to provide a solid academic foundation for further education; and to prepare good citizens. Over the past year, this mission statement continues to move from words on a page, to action.

VETERANS' SERVICES

Honorable Board of Selectmen,

The Department of Veterans' Services hereby respectfully submits the Annual Report for the period of January 1, 2009 to December 31, 2009.

The Department of Veterans' Services performs functions as dictated by Massachusetts General Laws, Chapter 115/108. Chief among these duties is the administration of benefits provided to those QUALIFIED veterans, veterans' widows and dependants. The State of Massachusetts, at the rate of 75% of each dollar spent, REIMBURSES authorized expenditures to North Attleboro. Point of contact services are provided for matters to be brought before the Veterans Administration. These services include, but are not limited to, claim assistance for compensation and treatment from wounds, injury, PTSD, head trauma, education, hospitalization, medications, cemetery markers and in some cases, burial expenses.

Representation before hearing panels at the Commonwealth's Commissioner of Veterans' Services is provided when needed. Also, this office assists veterans with agencies including Social Security Administration with applying for Social Security Disability and Supplementary Security income for those individuals unaware of the filing processes. We continue to assist with fuel assistance and prescription plans under the State's Self-Help Program .

Our office is assigned with the responsibility for the care and upkeep of our veteran gravesites and the keeping of our veteran memorials. State Law mandates that an American flag be placed on every veteran grave on Memorial Day. This honor could not be achieved without the help of our local veterans and citizens who assist with this annual honor. We continue with the program to identify and mark all veterans' graves in North Attleboro. A continued "well done " to Joseph K. Clougherty, this office's Administrative Secretary, who continues his research of deceased North Attleboro veterans from old paper files, historic records and enters them into an electronic data base. Again this year, a special "thanks again" to Donna Kornreich of the Town Clerk's office, who has assisted Joe with this project.

Ceremonies and the annual Memorial Day Parade are the most visible responsibility of our office and we will continue to conduct each event with proper format and traditional content. In January we saw the entrance of a new Commander-in-Chief. On February 19th a ceremony of remembrance of the Battle of Iwo Jima was held at Town Hall. On the 26th, the Third Graders began the annual visits to Town Hall to learn information about the role of the Veteran's Agent and traditions and rules for honoring the American Flag. At the end of the visit, a small American Flag was given to each student. On the 29th of March, a ceremony was conducted at The Fire Barn to honor the late John Thorpe's many contributions to civic and veteran events. On March 30th, a Ceremony of Remembrance was conducted honoring the "end" of the Vietnam War. On the 7th of May the Veteran's Advisory Council met to discuss Memorial Day activities. On the 8th of May I participated in the annual Heritage Day at the Middle School. On the 22nd local veterans and volunteers gathered at Town Hall to receive United States Flags for placement on our veterans' graves in our town cemeteries. Over 1400 flags were placed this year. On the 23rd I was honored to join veterans and family members, local DAV, American Legion, and VFW Honor Guards and Firing Parties at St. Mary's and Mt Hope Cemeteries to render Honors. Also attending were many local figures of North Attleboro, State and Federal government. At 10:00 a.m., the Parade stepped off and traveled to Barrow's Park. A ceremony was conducted to honor our fallen veterans. This year's turnout was the largest in recent memory. Honor Guards from American Legion Post 49, DAV Chapter 56, and representatives of VFW, North Attleboro Police Department and Bristol County Sheriff's Department. Speakers that day were Board of Selectmen Chairman Paul J. Belham, State Senator Scott Brown, State Representative Betty Poirier, and Bristol County Sheriff Tom Hodgson.

On the 5th of June, a ceremony of remembrance has held at Town Hall to honor the sacrifices and salute the Veterans of the D-Day invasion of Europe on 6 June 1944. Allen Ave. School conducted its annual Flag Day Ceremony on June 15th, which was a wonderful event for the families and students. On July 27th, a ceremony of remembrance was conducted at Barrow's Park to mark the end of the Korean War. On the 5th of November at Community Field, a Candlelight Ceremony was conducted for Marine Captain Kyle Van DeGiesen, a local hero, who was killed in Afghanistan. A special "thank you" goes out to Kate Fisher who was Master of Ceremonies for this special salute to Kyle. On November 6th, the funeral of Capt Kyle Van DeGiesen was conducted at St Mary's Church and after a final salute through town; he was taken to the National Cemetery at Bourne, Ma. On the 11th of November, Veteran's Day, a ceremony was conducted to salute our living veterans, and the new Desert Storm/Desert Shield monument was dedicated and formally given to the Town by Chairpersons Denis Donovan and John Grim. The final

VETERANS' SERVICES

event for our year was the arrival of Wreaths Across America convoy heading to Arlington National Cemetery. Morrill Worcester, who started this program several years ago, stated that hundreds of cemeteries are now honored with Christmas Wreaths.

According to the Veteran's Administration, nearly 3 million dollars in "cash benefits" were paid to our Town's veterans. This does not reflect the hospitalization, medications, equipment, glasses, etc. that the VA contributes to our veterans.

Roughly 8000 veterans, dependants, and widows of veterans are potential clients of this office. An outreach of the Brockton Veterans' Center continues at our office on as-needed basis providing free service to veterans suffering with alcoholism, drug dependency, PTSD, or other psychological or medical problems

We continue to pursue federal awards for our veterans and their families. Many have been approved for SSDI, Widow's Pension, and veteran pensions

During the year we have conducted thousands of interviews with veterans by phone, in the office, at their homes or facilities.

Aid expenditures for the year-

Cash Aid	\$ 180,394.60
Doctors	\$ 963.08
Medications	\$ 9165.36
Hospitals	\$ 73.07
Dental	\$ 3148.00
Insurance	\$ 9822.00

Our active clients per month are currently at 43, but the number varies because our aid is temporary. Most aid revolves around health issues, an aging veteran population and returning war veterans. We struggle with increased demand and tight money. North Attleboro has always made money available to this Department to take care of qualified veterans.

In these war years our office is extremely busy, not only with aid issues but where veterans and veterans' family members can talk to combat veterans who make them welcome and understand their needs.

As always, we extend our thanks to the citizens of North Attleboro for their constant help and generosity.

A special "thank you" to Wayne Williams of G.I. Joe's who has for years supported our parades and ceremonies with his advice and his military equipment and vehicles at his own expense.

I would like to thank our Armed Forces and their families for the great service they have always given our nation. To the families who have had a loved one taken in service to country, we offer our salute, prayers, and sincere thanks.

To the returning troops: WELCOME HOME !!!

Respectfully submitted,

James G. McCann
Director of Veterans' Services

WORLD WAR II MEMORIAL POOL

Honorable Board of Selectmen,

The Annual Report of the World War II Pool Committee for January 1, 2009 to December 31, 2009 is hereby respectfully submitted.

The 2009 Season was another successful year as the pool continued a string of safe and efficient seasons. The Pool once again found a busy season with beautiful weather and excellent crowds. With little inclement weather, the Pool Staff was once again challenged on a daily basis and performed with professionalism and care. Due to limited funds, the pool was only able to open for six weeks this year. We hope that this coming year will allow our Department to open for the additional three weeks as it has for over forty years.

This past year funds were allocated to update the pool for the federal mandated requirements (Virginia Baker Act) and other compliance mandates. These changes were not possible without the help of the RTM and Finance Committee. We thank them as always for their support.

Again this season, family passes were issued to town residents at no charge with proof of residency. Passes were obtained at the Pool during regular hours of operation. More than 900 passes were issued by the summer's end.

The Park & Recreation Summer Playground Program utilized the Pool on a regular basis bringing groups of kids from the popular program on a daily basis to swim in both pools. Special thanks to Park & Recreation Summer Staff Head Counselors Chelsea Berkley and Kali Barrett for their cooperation and diligence in safety.

The 2009 pool season began on Sunday, July 5th and ended Saturday August 15th. General swim hours for both pools were held daily from 12:30P.M. To 6:00P.M. Again this season the Pool was open seven days per week, and there was no charge for General Swim.

WWII Memorial Pool Swim Lessons enjoyed another productive year with approximately 380 children ages 5 to 15 participating. Lessons began July 5th and continued until August 15th. Lessons were held Monday through Saturday from 9:00A.M. until 12:15 P.M. Cost for lessons this season was \$45 per child or \$115 for a family of 3 or more.

The Annual Bob Munroe Rotary Swim Meet took place again this summer. Trophies were donated by the North Attleboro Rotary Club. Special Thanks to the Rotary Club for their continued support. Over 100 swimmers in ten age groups participated in over 50 heats to determine the overall winners.

The Annual Dick Deblois "Fun Day" was held with beautiful weather on hand. The day marked the fifth consecutive successful Deblois Day with numbers hitting in the 400's! Activities included: Moonwalk, the traditional Costume Contest, Ice Cream Sundaes, games and prizes.

The Memorial Red Tide Swim Team enjoyed a successful season.. The 2009 Team was coached by Meredith Cronin and Heather Cronin. Thanks to the North Attleboro Swimming Organization for their continued support to the Pool.

Finally, the Commission also congratulates the 2009 Pool Staff on another successful season and would like to recognize our volunteers who have enhanced the last few seasons of Swimming Lessons and Special Events. To Kyle W. Kummer and Sarah Casey, we extend special thanks for dedication and professionalism in running the pool this year. Their leadership and guidance for our staff was invaluable. We would be remiss if we did not mention Robert Guthrie, long time member of the staff, who continued to be the heart and soul of the Pool. Thanks Bob.
