On September 09, 2020 we were made aware that we were in violation of permit #1390, by an inspector. We have since stopped all washing of vehicles outside. We no longer have any water being discharged outside. Anything having to do with water run off or drainage has been contained inside and is draining through the drain inside the garage. We have posted throughout our facility notifying all employees of the immediate change of procedures and gave out individual notice, in writing, to each employee.

We sincerely apologize for the violation and will ensure this never happens again.
