Foxit PDF Editor Version: 12.0.0

### PURPOSE AND JUSTIFICATION:

The Fire Departments NFIRS reporting system is being upgraded per federal standard reporting requirements to NEIRS(National Emergency Response Information System). As this module was not developed and in place with our initial pricing packaging for our RMS System there is a one time \$5000.00 purchase fee for this new required software platform.

The U.S. Fire Administration (USFA) is leading a national effort to develop and launch a new interoperable fire information and innovative analytics platform, known as the National Emergency Response Information System (NERIS).

NERIS will empower the fire and emergency services community by equipping them with an empirical basis for decision-making. It will provide the community with reliable predictive analytics to support enhanced preparedness and response to all-hazard incidents, wildland urban interface events, community risk reduction efforts and associated resilience and mitigation efforts, and future pandemic emergency response resource preparedness.

Funding of this Measure will be transferred from the following accounts:

30422005-585111- Front End Loader	\$4,261.79
30422489-585103- 6 Wheel Dump Truck	\$738.21

### SPECIAL REQUIREMENTS:

### ATTACHMENTS:

REFER TO SUB-COMMITTEE: Finance Sub-Committee
