RESERVOIR STREET SEWER EXTENSION
TOWN OF NORTH ATTLEBORO

BID CLARIFICATION

March 21, 2019

1. **Sanitary Manhole Frames and Covers:** All sanitary sewer manhole frames and covers shall be 32 inch diameter.

2. **Payment Items:** Sanitary chimneys, wyes and all other items that are not listed on the Unit Price Bid Schedule in the Bid Documents/Form for General Bid will not be paid for separately. The contractor must include the cost for all items that are necessary to complete the project to the satisfaction of the Town in the cost of items that are listed on the Unit Price Bid Schedule.

3. **Bituminous Concrete Trench Pavement:** Payment for the 3 inch Bituminous Concrete Permanent Trench Pavement is limited to a maximum width of 5.5 feet along the proposed sanitary line or the actual width if the actual width is less than 5.5 feet. If the contractor disturbs more than 5.5 feet of pavement, 3 inch Bituminous Concrete Permanent Trench Pavement must be installed in all disturbed areas at no additional cost to the owner.

4. **Clarification of Specification 02222.3.02.J, Disposal of Surplus Excavated Materials:** If surplus excavated material that is not needed to complete the project is determined to be acceptable to the Town, the contractor shall haul and dump the material in a stable, safe stockpile on a parcel in the vicinity of Station 10+00 and at a location on the parcel identified by the Town at no additional cost to the Town. The Town shall coordinate this stockpiling with the landowner. If surplus excavated material not needed to complete the project is determined to be not acceptable to the Town, the contractor shall haul away and dump the material, at the contractor’s expense, at appropriate locations, and in accordance with arrangements made by the contractor.
